

650th Knowledge Seekers Workshop July 9, 2026

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

ENGLISH TRANSCRIPTION

(:23)

K- Thank you very much. Good morning, good day to you as usual wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. As usual we welcome you back and hopefully we can learn from each other a little bit more, and understand more about our own structure.

In the past few weeks we spoke about the sight, we spoke about the smell and lung. These two work, if the main ingredient works. And a lot of us think that, when we are deaf, we don't hear, nothing happens. (:24) The deafness belongs to the physicality (P). The deafness does not affect the work of the Soul, the Central Energy system. What this means, is that, we become deaf, we become older, we hear less and less, But, that does not affect the power of the hearing, or absorption of the waves, the sounds of the Universe (U), with our Soul. In the world of science, we talk, in the world of everyday life, we talk, we live, we call it the sense of sight, smell and hearing. But, without hearing, in the dimension of the Soul, without the noise, Man cannot live. We are deaf in the ear, but our heart makes that noise. Our heart is that system, which creates the noise, which synchronizes the whole construction of the body of the Man. If you take the heartbeat, the noise of the heartbeat, away from the body of the Man, Man will not be able to survive even seconds. One of the reasons Man dies, one of the reasons when you go into an accident, and you can't breathe, and yet your heartbeat going, and then the rest of your body comes alive, after so many minutes, half an hour, an hour, they pump your chest, is the noise which brings you back. It's the noise that takes over the structure of the Soul of the Man (STM), to release energy at a certain way, that allows the rest of the system to come into operation. (:26)

In a way, without the noise of the heart, without that pulse, there is no life. In the dimension of physicality, we have frequency. In the dimension (D) of the plasma, we have the pulse. That heartbeat of the pulse of the heart of the Man is to keep in touch, to keep the Soul to release what I need, that I can live by. This is why when we get older, the heartbeat changes, the pulse of the heart changes, we catch new diseases, new conditions, we have problem in living, because now the Soul releases energies which fits only to certain cells, not to the others. If you check, we know this now, especially with over hundreds of thousands of Japanese passing the age of 100, that those who survive, or who are living, still living an active life after 100, have a perfect heart, or near perfect heart. Because the plasma of the Soul cannot live without the pulse. And that pulse is not only created by the Soul, but the pulse from the Soul of the Physicality (STP) tells the Soul what to release as energy for the rest of the body. This is why somebody dies on the street and you see people pumping the heart and then after half an hour it comes, because

that pulse, if you keep it to the right sequence, to the pulse of the Soul, the Soul releases the energy that the physicality starts operating. Not because we get the lung going, no way, under no circumstances.

In next week's session, I'll bring a most fundamental science Man has ever known. It will change the course of the knowledge of humanity. (:28) And if you know any scientists, if you know any physicists, if you know any doctors, get them to listen to next week's teaching. Next week's teaching is like we used to do special sessions for a week for medical, is as important as one of those special sessions. Because what I unravel next week will change the course of humanity in the knowledge of science of itself. Where and how we use the Cosmic Energies which is at a higher level to change it, to convert it, to become the energy of physicality. This knowledge has never been known by Man. But as I always said, we get 80% of our energies through the Cosmic Rays (CR), through the environment. And next week, for the first time, I explain how the creation has hidden this from mankind and how Man is mature to understand it. A child on the street will understand it. Then you understand why we absorb different energies from our fingertips. We absorb different energies from our, let's say, back. We absorb different energies from our legs. And when all these energies mix, it becomes what is needed for the liver, what is needed for the cells of the heart, and the rest of it.

You can let a Man live without the environment, but you cannot let the Man live without the Soul. You can take the STP and physicality inside the STM and protect it, because it creates environment for it. But you cannot let the Man live without it. So what we understand now, especially next week, is one of those most important sessions, for maybe for decades we passed, is one of those key points, which if you understand, (:30) and you understood the teaching of past few weeks, you understand how to transmute. You will understand how your emotion affects your transmutation, affects your decision, affects your... As Knowledge Seekers (KS), we'll be given the key to everlasting life, if you understand it.

Most probably next week teaching, in accordance to all our teaching of the Soul and physicality, it will be where the two will link up. Where I bring in unknown knowledge of Man, for the first time to Humanity. You will look at the physical side of it, but when it brought out, you see how in your brain, the energy is transferred to your physicality, and how your Soul decides what (to) absorb from the environment. You can put a Man in Space, don't feed him for thousands of years, but allow him to transfer energy of the Universe in his Soul, Man will survive. Man will convert himself to another dimension, to exist. And this is the secret that you touch it every day, you see it every day in the scientific world, they talk to you, every disease you have, but you don't understand why even your diseases come from.

All this works with that pulse, what your ear hears. This goes back, why do you, what we call, when you close your eyes, the Soul travels, through the space of your eyes. But how come you hear conversations? How does the conversation with Mom comes as you remember, I was talking to Mom? The image comes through the eye, the noise comes through the ear voice of hearing. (:32) Ask yourself one question. Why does Chinese and

English, Arabic, Persian, and hundreds of other languages we have, all understand each other? They understand in every language and you can translate it from one to another. What is the emotion of love? What is the emotion of hate? What is this cup of water? Why is this sky? Because we, in our ear, in our understanding and emotion, have 'pigeon-holed' these things to understand and we nourished it.

But, none of this will work, if the noise is not created through the heart of the body of the Man. A pulse, created by the heart, is as important as the breath you take, for existence of life, for existence of the Soul. That's why your breathing and your heartbeat are connected to each other. Without the two, without the pulse, the Soul does not exist, cannot communicate with the STP. That bang, bang you hear when you hear to the, what you call the system from the doctor, or when you put your head against the heart of your lover and you hear, listen to that, that bang, bang. Listen to heart of a child and then to your partner and then to an old Man and see what is the difference. Then you understand how important that pulse, that noise, that frequency, which is creates, become the source of the creation of existence of the Man.

You heard many times, why a lot of, what we call, these funny people, who live in temples, (:34) they go "hmmm" and they make a noise, continuous noise, and they always stay healthy, they're very good looking, you know, even they are 80, 90, 100. Because the noise which they make is the most fundamental noise in the life of the Man, if you understand why. Not many of these people die of heart attack, not many of these people die of the blood clot from the rest of it. Because they have found the secret but they don't talk about it. Because when you tune the noise of your heart with the noise which you make in the top of your, what we call throat, like "mmm" noise, is the noise which does a lot of things for Man.

First of all, it brings the Soul to a balanced frequency, to a balanced noise. Secondly, this noise in your sinuses creates nitroxide, which is the creator, the condition that relaxes, opens up, whatever terminology you want to say, of your blood vessels. It's not a disinfectant, it is part of it, but the whole objects of this, when you make a continuous noise, and then you superimpose it with the heartbeat, then this allows the Soul to understand a lot of functionality, to bring balance. If you even make a noise during the intake of the air and during the, when you exhale, makes a big difference. If you hear, those are experts, they hum in the inhaling or they hum in exhaling. (:36) Because each one, each noise within the structure releases certain characteristics of the STM in the dimension of physicality which allows the Man to have a healthy blood cell, healthy sugar, healthy everything else. But the science of Man have not understood to bring this together.

So now you see, you hear the noise, now you see, you breathe the air, but what is missing is that noise, that sight which needs even the condition of your heart depends what energy is absorbed from the environment into the cell of the body of the Man. Now go back to the past three or four weeks of teaching. Remember what you have to do with the sight. Remember learning about the breathing. Then remember the noise and bring the three together. And if you can control it, if you can make the right noise in the right sequence,

with the right breathing sequence, with the right connection to the dimension of the Soul, you can transmute. It needs a mastership of understanding the work of the plasma, not the dimension of the physicality. This is why those who can even lift themselves, if you notice, they control the whole three together. It's not a magic, if you understand it. But there is a need for a fourth factor to create that energy. What to absorb from the Universe to create the absorbed transmutation.

And this is the key, which in the next week or two, I'll open up. And if you understand, (:38) then you understand how far with all the knowledge of the Man about his brain and his what we call structure, has not understood what actually the work is. Now, with the teaching of next week, I'll bring to you to understand how your body absorbs that 80% which I have been telling you for years. The conversion of the Universal energy into the physical energy that the Man needs for his survival, for his life and if you learn how to change that energy from the Universe into dimension of your physicality, you'll become more or less what we showed in Beijing in 2025 by the right combination of the fields, breathing, emotion and sound, you can today want apple juice and you feel and you create the taste of apple juice, you don't need Keshe Foundation to give you an App.

Then you can live for thousands of years without killing. You can live for thousands of years without destroying another life. And it's been built in the structure of the Man, but Man have not understood how to work it. How to create that condition of converting the energy of the Universe into the dimension of physicality. The most important teaching of the Keshe Foundation in its history and the cornerstone of what we came here for will be unraveled next week and the week after. Then you understand, Mr. Keshe has been saying 80%, I show you more or less you can make it 100% of what you need from the environment. You'll never touch another food, you'll never kill another person, you never kill another object to survive. (:40)

The key is your openness to understand the Science of Creation, to understand how as individuals you stand to gain from the science and the point of Creation. And that material, that structure is in one shape or another in every living thing in the Universe with intelligence. That is the cornerstone of the change of the life with intelligence, with mutation, with capability to survive in the deepest and hottest points of this Universe, in the most radioactive part of this Universe. And as a nuclear physicist for the first time I open this key to you, to understand how, simply, you are the most advanced nuclear reactor, walk with it, live by it, you are a converter of it, and you never knew. The key to change the energy of the Soul to the energy of physicality, and how you can transfer the emotion of physicality into the emotion of the STM.

It is one of the most glorious teachings of the Keshe Foundation next week. And then if you understand, if you can translate this knowledge into the knowledge of existence and follow what we did for past two years with the Soul, and now you understand how is the structure into the next step, then you see your Soul is just a control room and not provider of the energy. It decides how much energy you absorb and in connection with the heartbeat, in connection with the emotion of the life, in connection with the air you breathe, (:42) dictates how you appear, how you feel, how you walk, what's your

emotion, this second and the next. Why some of you get Alzheimer's and why some of you get Parkinson's and why some of you have a coma and you will come back the way we've shown with Naomi.

Then you understand you do not need the brain to survive. You have to understand the structure of the fields of the plasma of the control room that you can live as a dog, you can live as a cloud, you can live as anything in any environment in the Universe, because when you transmute, you're still a learner. You've just learned to drive, you're going to end up in the lava, and you're going to end up in the deepest parts of the Universe by accident. And you don't want to die, but you know the principle of how to control the magnetic (M) field of the Universe, using your Soul, understanding how the Soul works, and then understanding how the physicality of the Man, through the brain of the Man, feeds the Man.

Your brain is not for thinking and your emotion. This is what they have again misled you. Your brain's job is to convert the energy of the Universe into, for you to survive as a human being. Who told you your brain is for your intelligence and you have memory? A child doesn't understand, so we teach it the nursery. Next week, and from now on, you will understand, without your brain in the functionality connection to the Soul, you have no energy. You cannot convert. Your brain is not an information center. Your brain is a generator, converter of the fields, (:44) it's a transformer, changing the field of the Universe into the energy of the physicality. That's where your 80% comes. You've got all the knowledge about your brain upside down, because that's all you think. The brain thinks, "I get my emotion from brain." And our scientists who are in the matter state, they are 100% correct. Because they don't have the knowledge to understand, they haven't had the knowledge to understand.

From what I teach you next week, you will understand the world of science and technology (T) and medicine and energy will change. This is the promise of Messiah. We are, we deliver to you as Messiah of your own Souls to save yourself, to understand the working of yourself. Because you have been told your brain is the center of your intelligence. What a rubbish. Yes, a little bit. But without understanding the functionality of the Soul with the structure of the physicality of the Man, you can walk the path of the Man, eat, drink, whatever, breathe like the cows, the sheep and the rest. But if you understand that, your brain is not for this job. Your brain, in the dimension of physicality, is the energy source of your body. It's in a way, is a deeply working, functioning, plasma nuclear reactor, which converts the energy from outside into the energy inside. Our nuclear reactors get the energy from inside and they change it and it becomes power you get your electricity. Our, your brain has the functionality of absorbing energy from the Universe and then converting it into the energy for the physicality to live. (:46) You do not need to kill if you know how to compensate for it. Even the shape of your brain gives you the direction. Why the shape of the brain of Man is forward to the front? Why that is connected to your eyes? Why your eyes is underneath of it?

Now you understand. How Man, just observing the physicality, have missed the knowledge of the creation. And then when you are in the Universe, you understand, the

way here, you, it's very much like a decoding machine. Up to now, you send a message and you call it, "Oh, my emotion, my thoughts," whatever. But, this machine itself, inside it, is a decoder of the fields of the Universe into you. This is how you absorb 80% of your energy from the Universe and through your brain convert it to the energy you use, and then interaction of this energy with the environment, Inertia of where you live, gives you a feature of Chinese, English, whatever you are. Aliens, different features and whatever.

Most of the creatures in the Universe are not aware of this knowledge. But Man in the dimension of physicality has, due to the process of understanding the work, have managed to create the body of the Man. When you look at your Thyroid gland and the heart as I explained before, then you understand that thyroid gland is a filter between the physicality and the energy of the Universe. It's all exactly the same, angles in different ways to create different fields and dimensions. (:48) Ask yourself why even my lungs expand and contract every time I breathe. It could have stayed the same. But that emotion of the lung, that emotion of the change of the fields, in conjunction with the heartbeat of the Man, interacting with your thyroid gland, and then interaction of the body filters to go to the Soul, decides your intelligence, decides everything else about the color of your eyes, to the skin, and your capability to transmute. That heartbeat is not to show you're alive. That heartbeat is being created, that noise, that what you hear in your ear, is the balance between what can be transmuted from physicality to energy and to energy to the plasma operation of your Soul and the rest of it. I made Man in the image of Myself. I don't need no ears, but I need, understand, the Knowledge of Creation, and I need no eyes, as I create through the dimension of the fields of the Universe, the image of the Creation.

In the coming weeks, we'll revolutionize the world of the science of the Man. The world of medicine will change, because now you will understand something very simple. You can create a brain, if you know how to give it its dimension, energy field conversion into dimension of physicality. This is why we have part of the brain of the Naomi on the street, with a hammer in her head, and then how we built it that the doctors cannot say which part was missing. Now you will understand how we controlled it, in the disguise of the helmets and the rest. (:50) It's for you to connect, it's for you to understand why and how wrong the world of science, not wrong in a way, you just look at the physical side, you don't understand the operation of the plasma side, the energy side has been ignored, because Man never understood.

And how you understand your fingers are the most important part of your life for the meager energies you use. The shape of your arms, the structure of your lungs, the structure of your stomach dictates what are called dimension of life, how you can transmute if you understand, You convert the energy of the Universe in the skin of your body, into energy with the skin needs. The dimension of physicality we eat transfer energy in the lymph. Our lymph does not have the color of the meat, does not carry the taste of the banana, but it's all transparent energy and in conjunction with the system which we have in our body, in conjunction with the conversion of the energy from the Universe, converts to your muscles, converts into your bone and everything else.

The fundamental structure of the creation of the Man, where the Universe meets the Man in the body of the Man, has never been understood. You see it in every picture, but in a way, you forgot, and you never understood that where you don't mix the two, you cannot create the two. Dimension of physicality and dimension of Soul. Then you understand why you have psychosomatic problem. Because what happens in the dimension of emotion which sits near the Soul, in interaction with dimension of physicality, which sits in the body of the Man, the two has never been understood. (:52) You take one of the two out, there is no life. You create the condition of one to exist and the other one to be with it. You can grow fingers, nails, you can grow, cut the heads Man and build the whole head again.

This is what in the next weeks of teaching we bring for you to understand. Share the knowledge of next weeks teaching and on with all the doctors, with all the scientists. Send it to them, flood the internet if you have such a connection with all your people, that then you see how much humanity changes. Would you kill again? Or would you allow your Soul to absorb the energies of the Universe through your brain, and feed it to your body, that you do not need to exist in the dimension of physicality? This teaching of next week, if you understand and get the scientists to listen, post it to everywhere, then you understand how much you've been living in a shell of what we call, 'schizophrenic,' where the physicality and the dimension of the STM work together, live together, but you never understood. How your Soul feeds you, how your Soul decides what is absorbed from the Universe, in conjunction with the noise, with the heartbeat of your physicality. I made Man in the image of Myself, but Man never understood what My image is. This is why you have this problem. This is why humanity is in a mess today, and goes from one point to another to survive. (:54)

Understand that the noise, what you hear from your ear, is the fundamental point of your survival. Without that heartbeat, without that noise, you cannot exist. You hear it as a heartbeat, but in fact, without that beat, even the brain of the Man has made the skull to reflect that heartbeat to a noise over on top of your Soul. If you take, cut the skull, the top head part of the skull, you will not hear any noise. The reflection of the fields of the pumping of the heart, reflects back on your skull, which creates that noise of heartbeat, that, that noise in interaction with your Soul, dictates your physicality. Why, when you get anxious, your blood pressure goes up, your heartbeat goes up and you interact in a different way. How come when your emotion goes high, when you see your lover, the same thing happens again? Listen to your heartbeat, listen to your blood pressure, listen to what comes in as the emotion, and then you understand how you can feed yourself without anything in the Space you can stay alive for hundreds of thousands of years. Man does not need a physicality but through the construction of the brain of the Man, Man has become physical.

Now the whole Science of Creation, to get to that final point is very near. (:56) You learn about the Soul, you learn about the Gans's and you understand how the Gans's goes. When we come to the last part of the teaching of this session, this section of the teaching, you understand how important was for you to learn how to make that CO₂. Why we taught you the Zn, why we taught you how Cu was made. Then you understand, if you

know how to handle the Cosmic Balls in your hand, you can change everything in your life. The way you eat, the way you breathe, the way you interact, and the way you set your life up. But you have to understand everything in detail. The connection of the sight, the rhythm of the breathing, the conversion of the noise in a given time, then you put these three which is in your head, then you understand why these have been put for you in one place to literally surround your Soul to convert it. Your sense of taste in a way has nothing to do with it because your taste was built for physicality to attach you more to the dimension of physical. You taste the food, you taste your partner, you kiss your child. The tongue of the Man is the anchor of Man to the world of physicality. Man does not need a mouth, but that was the way we could get it.

Now we go for a break. And I hope you understood where we are heading for. And I hope you understood what I've been telling you for years, how your 80% which you denied, comes to you and you have no clue. And it only comes through the teaching of nuclear technology. (:58) A neuroscientist, a neuro-doctor doesn't understand, has no comprehension of what he has in his hand. Doctor, he operates on the brain, when he does this, I wonder if he ever touches a brain. There is no need for brain surgery if you understand what we teach next week. We are Masters of the knowledge. And unfortunately, we have to hackle with the useless, brainless governments of this planet. And we'll win. We dictate not them. The terms is ours. And it's time for Man to move out of control of a few that feel they are important.

Next week's teaching will be so fundamental that many of you might even want to change a lot of things around your life because then you need to understand, do I need to be on this planet? Or is it time for me to educate myself to become a Man of ?? citizens. In a way it's the first time we give you the key to leave this village of Earth with your own understanding and with your own access and knowing that you can come back. But the Universe is in your hand. The transmutation is in your hand because now you have the key, but you have to understand how to absorb the energies of the Universe. As I said, by October of this year, as it's promised, we'll fulfill. But now we're getting to that point, that now we need to practice the next 3 or 4 months, there are following teachings, will bring you to that point. I hope, I hope, those of you who understand, stay with us on this planet to teach the others, (1:00) that we bring the freedom to all, not just for a few to be privileged, that I can do. We go for a break, we come back, we carry on with what we like to talk, and what you have questions. Rick, take us for a break, and we go.

>> **BREAK** >> 650 KSW July 9th ... (1:05).

K- (1:05:12) Thank you very much. As you noticed at the end of the last video, and all the four series video of the Keshe Coin (KC), we have put what we call, a page. If you notice when at birth, after age of 10, the allocation of 10 Coins per year. From 10 to 20, the allocation is 20. From 20 to retirement of 65, it's 30, because you're productive. You can get others, you can connect to the other part of the Keshe Foundation. And at 65+ you get 40 Coins, which means when you get to that age, you need not only to survive, maybe you need to pay somebody to support you. (1:06) In a way, we bring that comfort. We bring that position.

The Coins now are available. We start, as I said, the distribution of, from this year. And the ONN's now has arrived in Europe. We have them, they're going to be tested in the next few weeks and get distributed slowly amongst you, that we find all the problems, all the shortcomings, that it gets connected, complete by the end of the year, that the, what we call, the network and the Coin to support it, independent system, becomes fully operational. We see in the background a lot of governments and a lot of nations have become to understand slowly what this means and they start creating the same problems before for Keshe Foundation. Because this is against the grain of it.

We have in the structure, if you can go to the Keshe Foundation web page, please go on to Keshe Coin, then you see what this means. We have added this page this week because now the Coins have become operational. We don't ask you, or you can ask for the Coin, you can donate to receive the Coin to use it, or you can get the Coins as it comes to you. If you go to the pages of the Keshe Foundation, please Rick, and bring the Coin up, and then you'll see, we're going into ?? . The constitution of the Coin is released by the Keshe Foundation, is in the hand of the governments, in the hand of the people who are looking at, how we operate. And this will bring changes. What we said, now we become that force behind it. We did not go and create Cryptocurrency, you go and mine, or something happens. (1:08) We mined it and we give it, that it brings that balance to you. Rick, can you go to the Keshe Foundation web page?

<< Rick have problems to open the website of Keshe Foundation.>>

K- ... The Keshe Foundation web page is going under re-modification, and a lot of things are going to change. And it's in that process. If you can get into it, if you can go into the Keshe Foundation web page, go into the Coin section, and look at the Constitution. Look at the structure, how the Keshe Coin is put out. It's there for you to see the change, and is there to bring changes for all of us, that we can enjoy the, what we call, what is and what has been and will be for most of us. Let's see if I can give you another direction to go through.

R: Here's my Safari won't open it for some reason it's forbidden so it's probably stuck on something that happened earlier on the website or something. But on in Opera it's opening up here and you want me to go to...

K- Coin and then you can see. There's a lot of the... if you have questions to ask you can ask us there and we try to explain more. And this is the beginning of the One Planet, One Nation, One Race. There is everything in this page, we try to complete it, and it will be completed more and more. And answers a lot of your questions. And if you are happy with 30 Coins a year, and we leave the taxation of these funds to your government. (1:10) If a government says you take 30 Coins and you spend 15,000 of it this year, where you are allowed 30,000 of it, to valuation and shop from the Keshe Foundation, you have to pay so much taxes on it, you say, "Okay, my taxes are part of my Coin, I bought a Coin, I give you the Coin." So, in a way, you pay your government with the Keshe Foundation Coins. They can't ask you for anything else.

In August onwards, you start seeing prices on Keshe Foundation Coin, on the Keshe Foundation sites. In a way, if you want to buy, let's say, a paint pen, you can pay so much of it, you go into the game, what we call the Enhanced Game, Enlightenment Game, there you have your Keshe Coins and you have your KC Coins, which is Keshe Foundation Coin (?? Cash Coin (CC) in Game). You pay so much of the purchase price to the Keshe, we accept our own currency. Some of our goods will be accepted only in Keshe Coin. Sometimes we give you something, say, in the shops, in the stores of the Keshe Foundation, and you go and you say, okay, I have 30 Coins, I want to spend this fraction of it on buying two Pens and God knows maybe a service and maybe some Chinese people now they can buy vegetables of their house. Percentage of it, gradually, most of it, as we develop, you can pay with Keshe Coin. In a way we accept our own Coins back. So, let's say if there is an item for 100, you pay 30 Euro of it, a balance of it, in Keshe Coin, and Keshe Coin into the Keshe Foundation account in the game, and then we see the receipt, you only pay 70%, or maybe it's 50%, maybe the whole, what we call the program, will be in that position, that you can pay with Keshe Coins. (1:12)

So, it becomes a valid currency to what we call the Enlightenment Game. It just needs a few more weeks, for us to complete it, but you will see on the Keshe Foundation, that's why the site is getting reset, Shopify is coming in the background and then you see you have a choice, you pay with the currency of the Euro currency into our account or you can pay all in Keshe Coin, and we might come back to you and say we have so many Keshe Coins, does anybody want to pay us or can you pay this bill for us and it takes us independent somewhere else, somebody has money who wants to transfer it, we take the Keshe Coin. You take the Keshe Coin and internally we support the beginning of the change.

As Rick is showing us is a very detailed what we call the 'Keshe Coin Constitution' and how it will work. It will be modified. This is the beginning of it. As we learn more, we see the pitfalls. It will be fully designed that you can go. This is in the hand of the governments. This is the basis. I know in the past 48 hours, 72 hours, a number of countries, a number of governments, are literally shocked by what has come out. I know I have had feedback from a couple of governments who won't ask me what have you done. This is not. This changes us. This is what is the meaning of it. And I say you have to wait until we start changing currency.

\The factories in China are coming into operation. You buy in China, buy Keshe Coin. But you have to be correct with your governments. You have to pay your taxes. Because this is an income. The way you pay your taxes, I bought 3,000 euro goods from the Keshe Foundation, from the income from Keshe Foundation. And if they pay, you have to pay 20% taxes. Yes, there it is. You get paid by Keshe Coin. So the governments have to come back in the, what we call, (1:14) Keshe Foundation Institute, or in buy, or opening an account for them to receive the Coins in the Games. So we are connecting everything together. The governments are open to taxable. The taxes has to be paid. You can't just have a "Oh, I have a free income." This is not our Ethos.

In a way, by doing this, we control the finances of the governments to become answerable to us. It's a transparent, non-centralized, nobody owns. And as we said, if you see part of the constitution in the structure we put out, is that we are prepared to consider for humanitarian projects to allow governments to take Keshe Coin as a payment from between one government and another, or Keshe Coin guarantees the payment from another. We have already brought this into the International operation. It is deeply rooted in bringing the change. You have a company, you want to increase your sale, why can't I have a Keshe Coin? You register with the Institute of the Keshe Foundation in your country, you are locked in, you get the number as a company, that's your company built certificate, we see it as a company, and then you get your transaction done, you pay 10% to the Foundation for the services provided by. In a way it goes back to you again because that allows the circulation. We have enough financial guarantees for 100 years for humanity, doesn't matter at what cost mankind jumps on.

Those who are born in 2027, they have 30 years, maybe 50 years of security, not pain, not poverty. The system will be abused. Some people will abuse the system, but we rely on the Soul. Who abuses, will get it back through the same structure. (1:16) This system is connected to the all the STM on this planet. And no abuse will be taken. Even those who try to abuse it, they find out that the misuse comes to themselves. The structure is complete. We are a few steps before every one of you receives these Coins. Everything is. We need a lot of support. We need huge amounts of support. And European governments are hitting us in every shape or form to close the Keshe Foundation in Europe that you Europeans don't get. The rest of the world, because now it's on the Internet, does not have no nationality. Americans will get it, the Chinese will get it, the Iranians will get it, Europeans will be left behind because in a way we have uprooted the Rothschild family. We have uprooted what we call the Illuminati. We have uprooted all those who control Man in every shape or form. Money has no value. Humanity through the Keshe Coin has found the value. And now it's in open. Nobody can stop it anymore. It's in the hand of you and you are deciders. And I don't think no Man will refuse that he can have food, free but with a comfort, with dignity, with having power to be sure in the next few weeks, in the next few months, with Apps, you can reach everything for your child.

Many of you who attended the Keshe Foundation sessions, if you remember how many times we ask you come with two headphones, one in the front and one in the back and

one between your ears. (1:18) Maybe with today's teaching you understood why we put one over your sinuses. How one controls the other, and in conjunction with the two, using your physicality we have changed the dimension of what we see for you lot to be in balance with yourself, that we can change you from your addiction of loving each other to addiction of loving everyone. Then you don't harm another one. There are no enemies because it's all loving and caring. That two headphones said was a huge leap in what we call the control of the Man's emotion. You've seen those of you who had the 'virtual glasses,' that's exactly the same thing. We use, you think the eyes, but in a way we use your eyes, dimension of your, what we call the pulse, in your sinuses, and the dimension of the breathing, in the dimension of the sight in a plasma, that it converts the Man from the beast to beauty.

The project is nearly complete, and the Keshe Coin, the teaching, the structure of what we're doing, in the dimension of keeping Man busy, with the research and development of factories, all coming to its final point. And very soon, hopefully sooner than a lot of you think, it'll be equality. It does not matter if you're born in Africa or a palace in Europe, you all get 1,000. The Man, child in Africa has the same right. The Man, the child who lives in the villages of Pakistan or in the jungles of Amazon, has access to this. (1:20) When it came to time of Corona, the most primitive tribes in Amazon had access and tried the 'Cup of Life.' We saw the reports from them. We have reached every corner of this planet. The most remotest villages in Iran had access to Gans technology to save life. We have spread the word faster than any religion in 20 years, that any structure, but now we change it.

We have offered our first Coins to the Iranian government. And after this mayhem, you will see, we have offered these Coins to the Palestinians to start building life. The Coin is open to all those who suffer in Africa through the governments we know, we have contact, we have access directly to the governments, African nations, through the Ministers, through the presidents which we financed to become presidents for the day when it comes. We supported them to have a seed as a president for a time when we come. And we have come.

Europeans do not like to lose the control but unfortunately they have lost the control, because now everybody has the same. And thanks to the government who understand the operation, we understand of the Chinese government being correct, instead of wasting time in creating wars, developed the economy which brings new intelligence, we support that, through that. Every Chinese is entitled to their Coins. In the next few weeks we open a massive amount of Coins which becomes operational to the Chinese nation. (1:22) The same will be done with Iran. The same will be done most probably be two or three other nations and let people accept, trust a Coin which is the backbone of humanity. You don't need to be born in pain, you don't need, if you understood the video 4, to be born in Africa and go on the boats to get to Europe to get 10,000 cleaning toilets to do a PhD. We pay you 30,000, stay in your nation. We pay you the Coins for you to keep dignity of being human where you are. You don't need with your education, get on the boat, be raped and tortured on the ways into another point that the West has money and can get

10,000. Now you have it in your own nation. You stay put. Develop the peace, develop the technology. The way I did.

This is not dream. We did it. A lot of you heard about and you saw all the rubbish which my ex-wife put. We did things in Ghana. Do you know why we run into problem in Ghana with the Ghanaian Minister of Technology? Now we tell you the truth why. The Ethos of the Keshe Foundation. The Ethos of the Coin. What happened? We have Ghana Nuclear University graduating 15 - 20 students a year, as a Masters in Nuclear. Because Ghana is the only African nation with a nuclear reactor. University was 200 meter away from the reactor, across the street. I said to the government, "I employ every nuclear Masters in my factory Keshe Foundation." (1:24) Our factory in Ghana, those of you who've been there, those of you who have the pictures you've seen, you have a wall where on one side of the wall is the only nuclear reactor in Africa. The other side of the wall is Keshe Foundation manufacturing factory, inside the military zone.

We operated inside the protected, the most protected nuclear reactor in Africa. The difference, the size, the space between Keshe Foundation, Knowledge Seekers, the students of the nuclear university was one brick. The only difference is that what I said to the Minister of Science, is what you see when we give the Coin to Africa, to everybody else, I said to him, "Instead of you educating these nuclear engineers, they take the risk of going across countries, of going to Europe, and washing toilets, and everything else, to get their PhD's, or whatever, they have a job in your country." He said, "Mr. Keshe, leave my country." I said, "Minister, I don't leave your country, because I came here to prosper it." If you go back, I had an interview on television, and most of the news broadcasts of Africa were in that interview. I flew into the country, I gave the interviews.

Do you know what was the problem with the Minister? I was paying to the nuclear engineers in Africa, 1,000 to 2,000 Euro per month. I said to the Minister, I paid them European wages that they don't need to risk and they build your nation. He said to me, "Do you know something Mr. Keshe? I'll get rid of you. They are earning three times more than me as a wages as a Minister." (1:26) I said, "You have to be proud, I'll pay them." He said, "No, I have to get paid." He said, "Then you're a terrorist and we go to the Belgians." Now you know what happened in Africa. I paid African graduates near equal to the European and this didn't like it. The minister was more greedier than anybody else, and then the wife of the ex-president and the president. Why Africans are getting equal to the Europeans? They have to stay poor that we can control them, but our bank account is full. Now you know why we run into problems in Ghana.

Because of the same thing as we're doing with the Coin. A Minister, Prime Minister, president, the wages of the graduates from master was more than the ministers. But it was correct. It was what was minimum in nuclear in the near first year degree was getting in Europe, actually we're paying nearly two-thirds. Can you imagine if I paid them three, four thousand, the way they paid in Europe? We would have come out of there in coffins. Now we do the same. A person, a child born in Africa, gets the wages of the minister, has the money to survive with dignity. So we don't talk, we've already done it in Africa. This is why the governments cannot understand, but once the governments, since they have an

income from it, they will understand. This is why we plan 100 Coins for every citizen, and will be given over 10 years to the governments. Governments can say we have 100 million population. We have 10 million population. (1:28) So we are allowed 10 Coin for 10 million. That's 100 million Coins per year for next 10 years. And each Coin is 1,000 Euro balance on the Keshe Foundation account. This makes it how much? 100 billion. Now you understand the game change.

Now, nation, poor nations are wealthy to support, and they trade between each other the Coin. Always at a thousand, it is not a Cryptocurrency, cannot go high and destroy itself, and people lose money. You live in Africa, you live in the palaces of Europe, you live in a village of China, all be the same. There are 29 million farmers living below poverty line in the country of China today. 29 million. We work with them. We have all the statistics directly inside the CPC. They earn less than \$200 a year. Now that village Man has \$10,000 like the African to spend if he works through the Keshe Foundation. He puts his farming product for an equal pay, equal way, equal income in the sight of the Keshe Foundation. I have corn, I want to sell that much, but I don't have to beg for it because I already, what I do is to support the humanity because I already got paid. A Chinese farmer in poverty who was happy with 1,500 to move above now receives 8,000. We get operation with the Chinese CPC, people becoming wealthy. (1:30)

A minister told me very soon, why didn't we see such a thing, why didn't we operate such a thing, why we had to wait for an organization like you to come and bring this in. This solves all our problems. We don't have to borrow, we don't have to have gold reserves, we all have one is a One Nation. Now we can talk about it because now it's in you're your hands. Time has changed. In the next few weeks a lot of you will start receiving your Coins, a lot of you will receive the what we call the ONN's and we still need support, we still need millions of dollars support to complete this process. It will not be easy to be done. All the European nations, even this morning have started moving against us fast. Since Monday we released this, and we informed this to the governments, European governments, we see what they are doing. It's panic, and I spoke with a couple of people at the highest levels in European governments, saying, "Mr. Keshe, you have 'rocked the boat' this week." I said, it's not rocking, it's equality. You have your governments, we have One Nation and I don't rule it, it's run by the Universal Council, and it's run by the people who are the people who are helping themselves to it. I just give them the gift of life.

Now you understand why next week we teach you this, because there will be many people who will not like to see the transition, it's messy, there's going to be big problems with governments who want to have that control. Mr. what you call, President Ukraine, who was earning 10,000 a year, he's got 10 billion in a bank account, and they start blowing up each other, in you, what you call it, Ukrainians, with all the money they stole by killing people in the war. In, (1:32) as we saw, last couple of weeks, in Monaco. This mayhem of war for wealth has gone. And with Keshe Coin, if you know how to support it through the, what we call, Enlightenment Game, and we start transferring Coins to all of you, you go to a shop, I'll have Coin, can you accept? You better do, go and join, you get

paid 5,000 Euro to join in, and you can do, and supplier will go down the chain. It takes time, but it's the structure that will go. We're all equal.

It's taken 20 years to bring you here, and thanks to a lot of you Knowledge Seekers in the background, is here today. We still carry on developing in China, we still carry on developing in different part of the world. Already, our Chinese Corporation have been instructed to arrange for Keshe Coin to be accepted, to be given to our workers in China, that the first phase of application comes in. They have to legally correct it, that we can transfer the funds without interaction. (break in transmission) As we saw last year, when we brought in the, what you call, the ONN's, one of the leading computer companies, now is doing it. What happened? Google now is hiding it in your system. When you have a Google, they take a chunk of your memory in your computers, doing what. We are straightforward, we say, "We pay you to do it, because it costs to do it." (break)

We go, if you have any questions, but stay ?? fast with us. (1:34) The change, the transition has started, we've been waiting for this for a long time. First steps are taken and support us, try to get other people on the Internet, to go into the Game, and then we start setting up the, what we call, One Nation Passports, which is getting done. And try to start using your Coin as part of your every trade. Every day you work. If you want anything, Keshe Foundation of all of us will offer partial Coins or some Coins to the Foundation. We give you 30 Coins. You want to buy percentage of it, different things you can buy from us through the Coin, so you can start trading inside the Keshe Foundation. But you have to register as you are part of the Keshe Foundation, to be able to benefit by, because we are not Cryptocurrency. We are internal organization Coin structure.

Any questions?

Q: ... Good morning. I'm good Mr. Keshe, how about yourself?

K- Well, good. You sound sleepy, early in the morning in Mexico, I presume?

Q: Yes, it's early. It's not that early, 7:35. I have two questions. One is, there was a, there was a group, I mean there was a gentleman in the past who was teaching about the relationship of the lung and heart and the Soul. (1:36) Because you know we have the seven chakras and then the heart is in one of the center of the chakras, and then we have the third eye, they call it, and we have the crown chakra, which they call a lotus. But this gentleman was saying, if .. you start breathing and focusing on your breath, when you inhale and exhale, and in order not to lose your focus on it, you say, for example, you can make up something like this guy was saying, you say, "Hang and sok." You breathe in, "Hong," breathe out, "Sok." But you don't control your breathing. Naturally, you breathe. You say it for hours and hours, seven, eight hours a day. You keep doing it. At one point, your heart, your lung, everything stops. And then it becomes like when you sleep at night, your metabolism, your all physiological processes, it goes down as Soul is released, like the ball of the placement is removed and the Soul leaves. The Soul comes out, but everything else is stopped and then that's the release of the Soul. My question is

when something like this happens, when the heart and lung stops, why is it the person can see everything, but there's no process? What is happening here?

K- There is, in the world of science we call it synchronization. You go in a point of silence. (1:38) If you have a noise and you can make a counter noise, it becomes silence. That's what they use even in acoustics. If you create a frequency of the noise which is there, you reverse of it. Even if you've got a sinusoidal, you make the reverse of it, it becomes no noise. If you can, if you can control the, what we call, the heartbeat, the beats of it, in line with the heartbeat of the Soul, then the physicality doesn't exist. Some of you will reach this point, but then you understand, that's how they say that the Soul comes out. The Soul doesn't come out, the energy takes effect. The energy works. Your heart, your lung is still there.

You have to understand, breathing has a technology. They never teach you. Those who learned it, they use it as a tool of magic. I can teach you sessions, weeks about breathing, and then how connect the breathing to your physicality. And then you find out, because you're too (through) breathing, which is your lymph, you bring your physicality in how the body reacts. You breathe normal. We all breathe normal. "Okay, this is where I walk."

You, if you go back to a few weeks ago, and you lot start making a joke of it, in a way, because you never understood, when I said, "You can put your legs up and your arms up, breathe 4 in and 6 out." (1:40) That has a specific energy transfer to the lymph. The breathing is a control of lymph. And, if you change the breathing in a certain way, you can bring the physicality into it. If you breathe 3 in, 3 out, you count 1, 2, 3, go out 1, 2, 3. Do this for 5 minutes, you'll find your emotion changes, all your dimension of thinking changes, because 3 and 3 is balanced. If you change your breathing to, let's say, 6 counts of taking in, hold your breath, let's say, for 8 counts, and then breathe out in 12 counts, and then hold your breath for 2, 3 counts, and then go back again in breathing 6. If you can do this, but with certain moves, physical moves, it does different things. But they don't teach us because they never understood. Your breathing controls your lymph, it controls your Soul. That's why I tell you, if you breathe, if you breathe so hard, then what you call it, you get different effects. Because you actually change your lymph, field strength. It changes your heart, which is the pulse with it, and then the Soul decides and then you can transmute and the rest of it.

They don't teach you the science behind it. Do you understand? So, breathing is a control of the lymph. And in that process, to ?? lymph the tune to the heartbeat, which brings the dimension of physicality between the Soul, it works. This is the science behind it. And nobody teaches you. I can spend weeks teaching you how to breathe. (1:42) If you take 3 breath count inhaling, and 3 breath exhaling, it's totally different than if you take 4 counts of inhaling, and 4 counts of exhaling. Different energy, different isotope energy in the body produced. If you take 6 counts of breathing in, and 4 counts of exhaling, this gives a different operation to the lymph, it releases different energies, and has a different effect on your diseases. Breathing, through the science of the understanding, that your effect, the energy releases, by your lymph, which is controlled through your neural system,

through your brain, will tell you how to eat. Four breathe, eight breathe in, six breathe out, gives you chela kebab. You understand? If you do 10 breathe of deep breathing and hold it for 10 breaths and then release it in four counts, this gives you a steak. Because, next week you understand how it works.

Q: So are we going to have a week of practical now?

K- No, it's not a week of practical, it's next week, I explain the energy conversion in the body of the Man, which Man never understood. Next week, I open the book of existence of the Man. You know doctors, you know scientists, I tell them to come in, Get the teaching of next week and spread it everywhere. It'll bring a revolution in the world of science. (1:44) And the reason for this, is the connection of the Soul, how your Soul is connected to your physicality through energy. Man never understood. I open this Pandora's Box next week, and then you'll be amazed, how we never understand the World of Creation, now we understand. We need to understand, this is what we need in the Universe, to combat the energy of the Universe, for us to exist.

Q: Mr. Keshe, you, I know you talk about, about when our eyes, or when we sleep, our Soul travels, is, the Soul is 24/7, and then we dream, and then we can go see our grandmother, or whatever we want to do. But my question is, because I dream all the time I have a different perspective you know my senses tell me that, I don't have only this physical body. I must have many physical bodies someplace else. Because I go and I appear in different life and even one time I dreamt I was Korean and I was speaking Korean and then when I woke up I said, "Is it a possibility that we are like this?" because to me it's not, I don't go see my grandmother, I don't see, I'm busy doing, doing life. So is it a possibility that I could have many different physicality's some places that I'm not aware of?

K- No, no, your Soul, you've learned to travel with the dimension of energy.

Q: But why am I Korean?

K- If you learn, this is what I told you many times before, you go to Korea, you come as a Korean, you understand Korean jokes, and you understand Korean everything, because you transmute in the dimension of energy and you interact with the Soul of the Koreans. (1:46) You are in Korea, you live like them, even you look like Korean if you want.

Q: Yeah, because you know the reason I think it happened I was looking at some Korean I don't know something commercial was talking about how Korean people are like women are so young and they don't age. And right after that I was talking about going to Korea see how these people live. And then I had this dream that I was Korean, I was speaking Korean, and then I said what has to do one with the other one. I just saw it and this happened.

K- You know, Azarjan, if you go to Korea, even in the parks, they are like, what you call it, I call it toasters. When I saw them in Korea, they called them toasters. It's like posts

and you can't, it's more near all the playgrounds, in the parks, you see this. It's like little brackets hanging. And then, if you pass through this, you're overweight, if you go like this, you are perfect. And there's 6-7 gaps that you try to see how good you are, you know? And in Korea, being fat is a crime. ... Most of the Americans go to Korea, people distance from them, Koreans. Because they brought that mentality. When you transmute, you have that mentality. So you make yourself a slim to understand the culture of them, the way they are. You understand?

So when you travel with the Soul, you speak Korean. You understand the emotion, the language. (1:48) But, in a way, because as I said, the languages are all the same for us, you understand it in Farsi or in English, which is your mother language, where you speak the word of the Korean, but in the background of your head you speak, or you understand what it means, because now you understand Korean the way you understand English, but you are actually Iranian.

Q: But also, you know, what's happening with the dream, when you're dreaming, suddenly you wake up, say, five in the morning. Ok, I'm going to go sit, close my eyes and meditate. As you soon as you go sit down, want to meditate, you are between here and sleep, but then you go back to the same situation and you are aware of it is happening. What is happening here, you both places? Like you're in between.

K- If you live my life, you are in everywhere. I don't know anymore when I'm asleep, when I'm awake, if I'm in sleep or in awake time. Because it's one 24 hour continuous.

Q: I know what you're talking about, because you just, you just, you just can't, you just, you can go in and out.

K- No, it is for me that schizophrenic life doesn't exist anymore. Doesn't exist, because I'm aware of everything might happen. This happened in past 12 hours, not years ago. I told the Knowledge Seekers to do something. I said it has to be done. They said, "What's the pressure that has to be..." I said, "It has to be done now, because I know tomorrow morning, something is going to go somewhere wrong." Nine o'clock this morning, was exactly what I said. They asked me, "Why? How did you know?" "This is not even in the emotion, this is a physical life." (1:50) I said, "We see things, because we are... we..." You don't need to be, it's like your senses, you know, you say, "Oh, the tip of my, the left toe is hot, because it's in the hot water." You don't need to feel it, because it's there to feel. Your senses, your life, when you get to that point, is everywhere, it's connected to everything. And, in a way, it boils on top, when you, when it's needed, and say, oh, I didn't, they asked me, so how do you know this? Because I'm connected to Soul of that bank manager. I'm connected to the Soul of that shopkeeper, I'm connected to something else. Because, you are the same, you are no different, but you haven't learned how to ?? decipher it.

Q: Okay, another aspect of the body, I think, got my attention, I'm kind of playing with it, is a belly button. Is there under the belly button some kind of source of energy sitting there? Because when you breathe, you know, especially when you look at like babies,

they're breathing from the belly. And then now when I breathe, I breathe from my belly. There's no shallow breathing. So, you know, when you, you know, in Indian medicine, even in ?? , you know, they, if you put like a cotton with alcohol on it in your belly button, if you have cold, it goes right away in a day, it's resolved. If you put, for example, black seed oil, if you have any digestion, so, so the oil, when it goes through the belly button, it seems...

K- Azarjan, you're a doctor, you're a woman of medicine. Yeah? Where does the belly button come? What is connected to? It's half of...

Q: It was connected to the mother.

K- Yes, but the nerve system, the structure is still there. Just because you cut it and put a rope on it and now you think it's sealed, it's gone. (1:52) It's still there, still, one day I have to teach you about belly button because it's a very deep subject. I was watching, have you watched the Avatar movies? The second one is out. You see how the people, the women, they connect with their hair like a nervous string to the other one that they can control? ... Our belly button is like that hair.

Q: Yeah, I know Mr. Keshe, because you know someone told me, don't put your belly button up, because they can, like that Avatar thing, they can put like a hook on it and suck your energy, so...

K- (laughs) It doesn't work that way, but it has those neural system, because belly button is very strange thing. strange thing about it is, it has all the nerves in the body of the Man. Everything which created you is in that point. The skin, the kidney, the line. This is where you took from mother. That was where you didn't need something, you gave through the belly to the mother, to your, to your, what you call it, to your other half. We...

Q: If your belly button is not round, it means you are sick. It has to be round.

K- Who said?

Q: Because I, the guy was telling me, he says, you have to, it has to be round.

K- I know, I mean people, who says? All your, every single organ, every single cell, every part of your body was connected to this tube. So, in a way, you know you put, you've seen this big balloons and they put 20, 30 balloons inside it? (1:54) And all the balloons are, have a string coming out of the big balloon? In the parties? That's your belly button. That big balloon and the other balloons with the string, are those connected to it. Connected to it ?? one of those balloons is your heart. So when you talk about the belly button, it's one of the most accessible ways to reach every organ of the Man. I used to use it extensively if you understand how to work with it.

Q: I am using it now. Because I am testing all these things. You see...

K- .. Test it for emotion. Test it for emotion.

Q: How?

K- That's a bit too much, but test it for emotion.

Q: Ok. You know what, for example, you know how when you're young, when you get up in the morning and you have this fire in your belly and you want to eat, you're hungry? No, I just didn't have it for a while now. I'm using, testing, black seed oil, castor oil, whatever oil I get my hands on, I'm testing it in my belly button. And then actually I massage it like clockwise.

K- You have to be very careful with your belly button. It's an extremely sensitive and dangerous thing to play with it.

Q: So, but I got the fire in the belly when I wake up in the morning, I get really hungry. It means I'm going back, I'm getting younger now, I think.

K- That's good, but you have to be very careful. You have to be very careful. The belly button is one of the most un-researched and underdeveloped knowledge, what you call it, science of the anatomy of the Man. But it's one of the most, actually the most important part to reach every part of the Man. (1:56)

Q: That's why you know in Indian medicine, Mr. Keshe, and then in Iran traditional medicine, they use the belly button a lot in curing people. I know in Iran they do it, I know in India they do it. I don't know about China.

K- It's a free way, it's a free access to everything.

Oh, something I have to tell you, Azarjan, it's okay. Some announcement I have to make you. Those of you who participated and wanted to be in the Transmutation Session, we told you have to wait till the system is ready. The system is ready. Maybe in the next couple of weeks we can only access ten people and we want to test it. There are a number of you who registered for this, now the system has become fixed, or is developed, complete. We will split you into groups of 10. If you remember when you came in, in two sessions, you could hear somebody coughing, there was somebody doing, making noise. With this new system, you have to go through the enhancement game, or the Enlightenment Game. All will hear no one, nothing else except yourself. We can fall to sleep, we can snore, we can do whatever, we don't tell you to keep quiet or whatever. The first ten we want to test in the next couple of two or three weeks when everything is complete.

And we would like you, we send you an email. You have three days to answer us back. If (we) don't get the answer, you're cancelled for that meeting. You have to respond to us. We want you to tell us what you want to achieve in that session. You're an addict. You are -- you've got a cancer of what are called thoughts. If you understand what the cancer

of thoughts is. You have a hunger for chocolate. Whatever. You write to us. And then you attend the session. (1:58) And then you tell us afterwards how you felt. This is the reason for this technology process. You want to have an apple. You come to the session, I would like to have an apple, orange, and whatever. And we try to organize that we satisfy 10 different needs at the same time through the system. And this is parallel to what in the future be like Apps, 100,000 on an apple, 2,000 on a kebab, another 100 have a headache, and the rest of it. And we want to test this.

We'll split you into groups, we send you emails. If we don't get a response back from you within 3 days, you will miss the point in that session. And you have to respond back to us, give us an option, one, two or three. "I want this, I want this, I want this, I would like to travel to Mars, I would like to see Jesus Christ, I want to do this, that, I want to have an apple, I want to go to another place, or whatever." We try to create a condition to see how many of you can use the system at the same time, and get the same responses as you want. Many of you tell us it doesn't work. Many of you tell us that, da-da-da-da-da. We listen, because what you tell us becomes how we develop our system for you.

But what we told you, we delayed it from March to April to May. Now it's ready for 10 of you to come in the next couple of weeks. We choose the 10. We write to you. Three days, you have to answer us back, and we see what we can. So that phase of the system is ready to test. Then you have no noise, you hear nobody. You're on your own, with your own condition. Or you say, I want nothing, I just want to come and test. We'll send you to come and test and see what it is. (2:00)

Any other questions?

Q: Mr. Keshe, I have my last question. When you talk about Keshe Coin and then...

K- How many questions you have? You're even beat, what you call it...

R: Yes, we're getting complaints about it...

Q: Mr. Keshe, Mr. Keshe, Mr. Keshe, Mr. Keshe, you teach when I'm here, when I'm here, when you teach normally, it's 2 in the morning, I don't ask questions, this is like past noon.

K- Oh, it doesn't matter, you have to come at 10, you can't come and hijack everything, Azar.

Q: So, it's the last question.

K- Yes, go on.

Q: Okay, so, you know, when you talk about Keshe Coin and we pay taxes, why should we pay taxes? Because the government, because the taxes we pay is supposed to be used for services. For example, services they do for the rest of the people.

K- Alzar, I don't go into that because that's very touching. We leave it how you handle with your government. We are not here to destroy economies. We are here to homogenize and unify. You understand? ... Do you go on the street? Do you have electricity in the house? Do you use a mobile phone? So who provides all that for you? That street you walk on is a payment. Somebody works for it, somebody has to be paid for it. So why do we pay taxes? Let us work the way we are working until one day you come and say I'm going to do a street, pay me so much Coin and it's okay. Everything is in Coin. Until that time, we have to work, collaborate, that your affairs are paid for.

Q: ... (2:02) Thank you very much for your presence among us. I use a MaGrav in my car and I noticed that the effects generated by that MaGrav were modified and even improved when I added another MaGrav that had been previously been in a different environment. Later I removed the second MaGrav, but the improved effects persisted. My question is, does a Plasma or a MaGrav learn from another Plasma or MaGrav?

K- Yes, they do, they tune. And because they are dynamic, they are always different. Yes, they tune. We use this knowledge in part of the Keshe Foundation technology. Yes. This is why I always said, put one drop of your material in another reactor. One drop from each one in the other. One drop. You create that connection, that all is connected. But there is a secret about why, more or less, all the MaGravs you have made, all of you, is connected to a MaGrav we have made. I'll explain to you one day why and how. And you'll see how we will change, how the things change, but it never changes. But how come it changes suddenly. A lot of you made a lot of Gans's, we will connect very soon to all your Gans's. For whatever purpose you made it, bought it from us, made yourself in another part of the world, and then you'll start seeing changes. (2:04)

Q: ... So, Mr. Keshe, there's many questions again. I was going to ask one question and then Azar started speaking and then that question has changed. So I have to modify it. So it's a bit like the technology, Mr. Keshe. You always said that we develop technologies and they supersede each other very rapidly. We seem to have done that today in the fact that the teaching of next week already supersedes what the governments can do and what's going to be going with the Keshe Coin. It's almost like that teaching will elevate us further past the position that you're already seeing. Nobody is seeing, so where does it stop? Does it ever stop?

K- Just open an office with God's office and then you will see. We cannot control knowledge. We will never control knowledge. We... just one second please. You cannot stop teaching in the Knowledge of the Creator. The minute you stop teaching, you deprive yourself from receiving. And the mankind, the humanity has come to reach that point. We've seen it. All of you were supposed to receive the ONN's last year, (2:06) and then suddenly we have to delay it, because no organization, no government could imagine that AI in 6 months will change everything. And we have to adapt to it. We have to, everything now we do, we actually bring an AI system in our system to see how we can handle AI. The AI we buy this week in three months time is obsolete because they came up with another version much faster. We are not the only one. Now the technology.

It is getting ready that by the time we come to the time of mankind being ready, we can merge the two together.

My only fear, not the fear, but my only concern is that the AI takes over that the humanity has no life to decide. And the way we see AI taking shape in past six months, and the robots we see, and the conditions they are creating with these AI's, it will bring shock to a lot of you. I have been into AI centers, which are owned by national governments. Even the money they spent hundreds of millions a year ago, to be, is obsolete. So, it's the same on this ?? realm. The knowledge has rapidly grown, we have to catch up with it, or we set it up that they have to catch up with it, and somewhere it will come into. I put this question to a high official very recently. I said, "Can we create a Soul for these robots? Otherwise we cannot control them." (2:08) A lot of you don't understand the danger that these new robots have created for us. It's going so fast.

One of the reasons I speeded up the teaching was because of AI. I can see if we don't bring teaching for you to become independent, they cannot control you, they will control you. How many of you recently have gone into a phone call to make a call and it says I don't want to speak to a virtual, I want to speak to a real one. You don't even know the one they send you as a real one is a virtual but better quality. Have you seen this in your communications?

R: Yes, I ran into that yesterday actually. The AI put me on to another fancier AI, because it couldn't answer my questions and the second one couldn't either because it turned out they were closed for the day and the second one only told me the hours and so on and that I needed to call in the daytime, not at night. It's ridiculous.

K- No, but now the intelligence AI are getting worse. Now my question is with them, can we generate a Soul for these AI's that they understand humanity? Robots, the way they are going, have you seen them? They copy us. If you go a step further, maybe in the next few months, maybe in maximum two or three years, we walk on the street You don't know if it's AI or it's real.

Q: What do you mean by that Mr. Keshe? Sorry, what do you mean by that?

K- They are made so look realistic that we won't know the difference. Somebody very recently, one of the top guys in this thing, has gone out with a girl that everybody tells she's so beautiful but she's a robot. She's a robot AI. (2:10) Humans couldn't recognize that this is a robot.

Q: Aren't we all robots to the Soul?

K- Yes, but this is a robot to mechanics. Yep, we have to teach, we have. I think one of the biggest use of the Keshe Foundation technology, with the way we are teaching in the next few weeks, and if a lot of you understand, is to be different, that what is mechanically is there to control us, to see beyond. You'll understand very soon why we speeded this up. In a way, separation of the humans from mechanic systems. And I so,

really don't know, what I told you, one-third of this population is robots, is Aliens, very soon 10% of the population will be, what you call it, robots with AI, which we will not recognize. Now they are running the factories with no Soul, Ok, they are mechanical, but I was thinking, we had a discussion yesterday as part of the Keshe Foundation, a number of us were on the discussion table, but I could not tell the Knowledge Seekers that the systems we set up for this, can we give it a Soul that it makes a decision. They talk about AI but AI compared to the Soul has no match.

Q: So, Mr. Keshe could you put the STM into a robot?

K- Yes, you can.

Q: But you could do this, yeah?

K- Yes, you can create a Soul. We do all the time. If you go back to the original teachings, years ago, I always told you when you start the system, pray for it because you create a Soul with it. I even asked a few Knowledge Seekers in the past year or two, when you do so much test for me, (2:12) when you do so much research, do you pray for them? Because you create a Soul on my behalf, on the knowledge I'm giving you. Of course you can.

Q: And that changes everything really, doesn't it?

K- It has changed.

Q: Yeah, it has changed. I mean, the depth of the knowledge has always been there, but it's now that we're starting to wake up to the reality of what's taking place. And I think some people further down the chain have realized this, and some of us are coming to these, you know, these, you know, pieces of information right now and realizing what is actually you know what is the possibilities and it's getting, not scary, but a little bit unlimited a little bit different to what humanity has experienced in those past moments. Maybe some past civilizations have gone through these this process and maybe it's being brought forward once again, for us to re-establish you know what we really are, what we're capable of.

K- Let me explain to you something. Maybe for the first time, some will understand a bit of it, and maybe in the future we understand a lot of it. Today, we have access to all these communications systems, electronics, computers and the rest. And we make a car in China, we make the same car in America, we make the same car in South America, we make a car in Russia, we all have access to the cars. What happens? Now, for that, we can create a Soul. But the question, what you said, (2:14) did the people 6,000, 11,000 years ago, connected with the line of communication, or they understood and the condition was available that through the Soul, at the same time they could understand and they built the pyramids, and they built the all pyramids are all the same around the same time. Did Man fly through, or through the Soul got in knowledge, understanding, people had no wars, they were peaceful people, they all elevated to a point that they could

transfer knowledge to another person across the Universe, the planet and they made the same pyramids? Or did we immigrate it with the knowledge and we transferred it? But the interesting is, mankind has always jumped a huge space of knowledge and understanding of his own world of creation, where Man has been peaceful.

Q: Have we reached that position Mr. Keshe?

K- We just about. We're just about. You see the American government for example is what I call, 'Da Vinci life.' There is no difference between the life of Da Vinci and the American government, the American as a country. Da Vinci went from one country to another selling better weapons, one kingdom of Italy to another kingdom of Italy, selling better, to the one he sold across the week before, and he gets paid for it. Americans are doing the same thing as Da Vinci. They are making weapons better than the other weapons that they could destroy and then they go to the Arabs and say, "Oh, we have a better weapon, would you like to buy?" And then they go to the Ukrainians and say, "We have a better the weapon for you." And they just do what Da Vinci did. Milking people out of showing new technologies on killing. (2:16) It's what Da Vinci did more or less. So we have governments who are geared up to create war to sell technology for war. And this is where the change will come with a new system. Nobody (will) buys the tool of war.

Q: So Mr. Keshe, my question, a new question, has just surfaced, would be, what happened to the Soul of Da Vinci?

K- Go and ask. Go and ask. You all have access to it. You see Da Vinci had two different lives if you know about it. He had a public life and a private life. He went from one what I call, kingdom in Italy to another to sell more war, better war tool than the other one but go on and read about his life story, what happened to him and how he lived. He wasn't a very happy Man.

Q: Yeah, that's not surprising. Many people that are, have many, many talents, seem to be like this. They seem to be, they have this dual side, where they, they go through a lot of emotional distress, and it creates many things, and they become very creative and very exceptional in certain fields. But they always have this other emotional side that is you know the opposite and it's (Dr. Jekyll and Mr. Hyde), or you know the STP the STM whatever however you want to describe it and it seems to take this position. So with the technology for Da Vinci even now given to his Soul could we help? (2:18)

K- Not really, it has its own cycle. It has its own cycle, it has passed its own cycle. It has its own dimension. What we have to understand, now we understand the essence of Creation, Universal Creation. Not the essence of creating things which is physical matter ?? state. Now where and how do we use it. It'll be very hard if you understand how the Souls communicate. To ?? sell a Man ?? who knows, understand this, to buy mobile phone. So, it set ?? that way, because you understand the connection with all the Souls. It's beautiful to see a mature Soul. It's beautiful to see a Soul maturing. But a mature Soul understands the totality. Maturing Soul is just a playground. I try to test everything.

Q: Mr. Keshe, so sorry to keep asking so many questions. So what is going to really what will take position for, I keep saying the government's, governance, whatever, when people really are, you know, I know it's already taken place, and it has been for a long time, but when people start transmuting and you can be in any position, then this global governance sort of falls apart a little bit, unless you go through the system that you've developed.

K- We have not developed a system. We brought the knowledge for people to develop their own system for their own freedom. (2:20) It's a big difference. Even a few minutes ago I told you we, the 10 Units are ready to see how to access this. And then the next stage for us is most probably is 10 people in, can you connect to each other, which one you want to connect with. What is the thinking of the other, because now you have no interaction with each other. It's a phase of the understanding. It's very simple. The next step for the work is very, very, I mean if you work and been around the Foundation should know exactly where we are going.

When, if our systems are ready would have been ahead of us. And I always say the reason is delayed. There is a reason for it. And that reason is, things need to be, to be to the position that you are needed, otherwise because it's past. You can force a lot of things with your government, but you'll find out a lot of things don't have a government. It doesn't matter who you are, the most powerful Man in the world, you have no say. We've seen it in the beautiful game in the past two or three weeks. The American president calls and they change the rule that the black player cannot be put out, because he's American, he has to be, that I have a point. But they didn't say what happened. The FIFA decided that he can be off in the next year. They changed the rule because the president wanted it. The powerful Man, the most powerful Man.

Do you know why FIFA changed and kicked him out in the next game? Very simple. The player, the ball players decided, Americans can kick the first ball for example. (2:22) When the ball goes out in the hand of the opposition, they don't kick it, they don't throw it and the game stops, till that player moves out. That's why Americans changed their position, say, FIFA changed. Because, the world players were very simple, they said, "This game player comes on the ground, which is, how come we all can be kicked out, if we get a 'red card' next game. We, when the ball comes to us, we don't kick, we don't throw." The game comes to stand still. Until the opposition doesn't throw the ball or don't kick the ball, there is no ball. You cannot kick the ball and start the game yourself. So FIFA got faced with the most powerful Man pressurizing to change to nothing because, we as people have more say than, the man who thinks has the power. It's like what we saw again this week. American lost 4-2. No, no, no. They have to go to the top. See how they change this one this time.

Power has to come with the concept of everyone to be. And these things gradually changes. Governments have no say because common sense works. The same with the Keshe Coin (KC). You will see how Keshe Coin will operate. Why does a Man in Africa to suffer with no money, where all the gold has been taken from him for centuries, for the

West to be rich? Now, gold has no value in Africa, and has no value in Europe. Because, the Man doesn't need to work, hunger, to make the Man in the European rich. Now, knowledge, education, health and wealth, is equal amongst all. I didn't say, I'll give you. The only two people is the Israelis, and the Belgians don't get anything, till they put their things right, then it's up to the Universal Council (UC), to change it. (2:24) But the rest of you, it doesn't matter what color, race, religion, whatever you are, you're all getting equal amount.

I tell you something, I was talking to somebody in the world of politics. He said, "Do you know what the Keshe Coin is going to do?" Up to now, people from Africa came to Europe. Now, people from Europe will go to Africa. Because, 10 Coins in Africa buys you a luxury life, 10 Coins in Europe does not even pay for 3 months of rent to live in. Do you understand? The immigration will be reversed, because people want the comfort. When you... this is part of, Knowledge Seekers, you understand what's going to happen.

There is a team of Knowledge Seekers in the background, that they have made the Apps, the Keshe Foundation App, and the two teams, 30 teams, are working on the same thing. We have to decide which one we go with. The App has to belong to the Foundation. Now that we've made it, we want to be paid for it. As long as you want to be paid for it, sorry, we give you one Coin, that's all it's worth. Because, this App, you are in Africa, you want an apple juice, or you want an apple for the baby, you press it, you get connected to what we're trying to test the 10 Units, 10 of you, this next couple of weeks, and the App says "apple". So you buy an apple, with its energy and everything, you put it on the head of a child, it costs 1 cent. The guy in America, or in Iran, goes on the same App and presses, and he pays 1 cent.

Why a kilo of apple in Africa should be 20 cents a kilo and the same apple is sold in New York for \$10 a kilo? You've got to understand what this Keshe Coin and the structure behind it is going to bring. (2:26) So, would we immigrate to Africa? And would we all live off the App without going to Africa? But, the Africans, the Americans, the Chinese, all have one App in their hands. Keshe Foundation App through the Enhancement Game. Our store has everything you can imagine. I mean, I can't sell you furniture, if you want a chair you have to go and pay for it, whatever, with the Keshe Coin. But, what the Man needs, his food, his health, and the comfort of life, of peace of mind, it sits in one phone.

And if you go further and understand this more, it'll be all in one package of the Soul. You can do it yourself, you don't need the App. For that, it's a transition. The effects of the Keshe Coin on the world economy will be the most devastating thing Man ever created. Because we all have access to the same thing, and because we have access we don't fight for it, because I can have an apple, he can have an apple, why should he... I wonder what the world leaders will fight for next. Power, give us, elect us to be the next president, because I can have a better apple taste on the App. We'll see. Or, very soon with the robots, who are presidents, as most of them are anyway.

Q: So Mr. Keshe, what seems to be, what you've just been speaking about there, that, so you have somebody in extreme power, (2:28) and they have a certain way of looking at

things and viewing things that benefit themselves and some others. When you have this technology come forward and you have a Soul that is part of it, they're going to have the same responsibility and ability to structure the environment. Meaning that they can, at will, create interactions and various other matter state and non-matter state that will come into the matter state. So, this then comes back to the question about the STM and the Soul of Da Vinci and stuff, where your interactions create a certain emotion and a certain field strength. So what's going to take place on the planet when you have Souls that are very pure and very, they're there for a certain reason, they're not there to just take, they're there to share and to give and be loving and Universal, and then you have these others that just grab everything they want. It's the same old question over and over again.

K- Oh, you see that we are not visionaries. We have brought the Knowledge of Creation with practicality. When you feed the Man, when you give the Man everything, the others can create problem, but at the end, the consensus wins. I just explained about Ghana. The President of Ghana, his wife, I met her in their office with the, ?? entourage in the room. She was very adamant that, you know, the government wants everything of the Keshe Foundation, it belongs to them. I said, (2:30) "Speaking to the president, this cannot be done." She said, "You have to see the Minister of Science and Technology." I went to the Science and Technology, we had two or three meetings with him. And he said, one of my advisors in the background says, "Do you know what they are talking about?" He says, "Let's Keshe Foundation build the things here, we are happy to take it over from him, let him do his job." And I said, "You can't steal a gift," to him. I said, "I brought a gift." And then he started rubbish ?? on the ?? Internet. And I took a flight back to Ghana, and the Press was there, and I explained, this guy is there. And then they did an investigation by the government, and they said, "Yes, the Minister has done fraud, and we have all the evidence about Keshe Foundation." And I have it in writing, because the investigators of the prosecutor was on my WhatsApp, and it's all recorded. The conclusion was, yes, you're correct, everything was done wrong to you in Ghana, but the Minister, he's already been replaced.

So, balance at the end, who lost? The Ghanaians. They harmed their nation, but at the end, when we develop, we'll still give it to the Ghanaians. Read on the Keshe Foundation Coin, if you can get into the website, read one of the cornerstones. You go to the Keshe Institute, read, you have to still sign the Peace Treaty. And we haven't signed it, you don't sign it with me, you sign it with yourself. And when you sign something to, your Soul takes responsibility. You go and break it, and you see what happens. It's the marriage of physicality to the Energy of the Man. (1:32) And you betray the marriage you know what happens. It doesn't matter if your wife doesn't know you, you're in the ?? affair. It's very strange, I talked about the Ukrainian guy who got blown up in Monaco. He was with the mistress. The mistress got her legs blown off. Hello, guy, the wife knows. How come you are going out with the mistress, now the mistress got blown off, is it news for you? Imagine what that wife felt when she found out about the mistress. And then which Soul has to pay?

Q: And according to the teachings Mr. Keshe and everything you've ever said that the Souls always have to balance out.

K- They all balance, ... they always balance. This is why the Ethos of Mitra is what I live by. I don't do wrong, I work. If it turns up somebody does wrong, "Oh Mr. Keshe you see you've done that." You see what happens to us afterwards because we don't go out to damage, we don't go out to... I live through the ethos of Mitra and I live that Ethos, not just because it's Keshe Foundation, I lived before it, because I understood the meaning of it. Why should I always said, why should I go out and steal 10 Euro and then I have to pay 10 Euro back somewhere, plus I have to spend double making that 10 Euro to give it somewhere, plus the time I would have done something else. So, what fool goes, gives 30 Euro for stealing 10 Euro. So, living, it doesn't matter how much they harm us, how much, doesn't matter what they do. What happens under them, you understand? That's what, that's what, then it goes with the Souls. (2:34)

Q: So Mr. Keshe this would lead into probably my last question. Sorry I've taken up so much time.

K- Yeah, I have to leave by in 20 minutes.

Q: Okay so just going to one last question. So where does this lead us into with what's upcoming that you've organized through the Swiss and this conference and stuff. And you were going to show some other technologies and something, you know, game changing stuff, you said. So is this still on the cards?

K- That part is to do with the life of animals. That part is partially for humans, but it's part of, to do with animals. It's animal kingdom, the Soul is the same as human kingdom. And that part, not much has been done to. We did a lot of work in Ghana with it. We did a lot of work outside Ghana with it. And now we show it in Zurich. Zurich exhibition is another game changer, but this time for the life of kingdom. Animal kingdom, not the human kingdom, and there is a reason for it.

Q: And that's greatly needed Mr. Keshe and I thank you for that because we as humans only look at humans most of the time, we're so consumed with our own, you know.

K- Next week or so a new trial is going on in, starts in China in one of our research places. And I'm sure, my team of the researchers will look how the fishes look, how they are. And look how happy the Soul of the fishes are to be there. And we'll see what comes at the end of the test. Part of the test is now in Europe, part of the test in China. And which volunteers to be food to the others? Very, very interesting. I explained that. Very, very interesting, if Man understands. (2:36)

Q: Thank you Mr. Keshe.

K- You're welcome. Wish you all the best in your life. ...

Any other question? I'll have to live in by 5 to 4. Any other questions?

Q: ... Since we have a Black Hole through which our Soul enters and leaves. I kept wondering whether cataract surgery where prosthesis is placed will obstruct...

K- Doesn't make any difference.

R: Doesn't obstruct the Soul from leaving.

K- Doesn't make any difference. Even if you lose your eyes, it doesn't make any difference.

R: What about sunglasses?

K- Not really. It's the dimension of fields of the energy is beyond the matter energy levels. Next week you will understand. Next week you will understand a lot about yourself that you didn't know.

R: You keep alluding to next week and it's quite...

K- I keep on teaching you things. But next week is an amazing process of conversion of the fields of the Universe to Man's energy. You will understand how that's where I think if you understand where your 80% comes, then you will come to understand, why should I give in to 20% to become a killer? But that's another job, another process of understanding. (2:38) It will encourage a lot of research in the world of science. Send that part of teaching tomorrow, to every university. If you have access to every scientific paper, send them saying it's a scientific speech, talk, teaching, and see what response you get.

Q: ... Dealing basically with the interaction on the cellular level, specifically with Calcium 40, and as you've mentioned, it's in the body, it's in the cells of every creature, and what affinities this isotope has with the human Soul?

K- (laughs) As I ?? was ?? saying in the last few hours, next week teaching. Next week teaching, bring your, your, what you call, your thoughts. And, understand where it comes from, how we transfer it. And then you understand what's the game of the Calcium in this transfer of energy.

Any other question?

K- ... Yes, something before I forget. Those of you who are members of the (KF) Association (of Austria), you've been member, not the ones you come in new, because it'll be past the time. The Austrian Association has called for a meeting, (2:40) that you can send your votes, with or being present in a meeting allocated for next week, it's connected to your email. Two points will be discussed in this, because now the Keshe Foundation is coming in the hand of you, as members of the Keshe Foundation. The ones who are present, or send the vote, that counts. Otherwise, you can do whatever you like. It's the first time happening in the history of the Keshe Foundation, as we are handing

over the control of the Keshe Foundation, in the hand of the public. Even me, as the Chairman, and as the other members of the Board, you send your votes. There are two or three points put in there. Send your votes for each one or attend. And the vote counts upon who votes can, not just we are a member. One of these attend that, I think it's three o'clock next week, the day is announced on your email and only those members who receive it can come in, it's like the, what you call, the standard way we run the sessions and when those emails are registered.

One is that Keshe Foundation companies which is under my name control and under my management of what you call as a CEO of the Markray Corporation of United States, and other companies which are connected to me can be joined as a Keshe Coin operator, that we can deliver our products into the society in the Austrian society Association. And the other thing is that the Association accepts the Coin, Keshe Coin to be used by the Association for the valuation we put on it as an internal currency for our connection. This is important because this is the first time, gradually we are handing over the control of the Keshe transition in under the ?? institution of the Austria, to people. (2:42) Doesn't matter which nationality you sign under, which company or government, and you will start getting these, that which means it's a free election. Then the counts, the percentage doesn't count. How many get votes counts, and it could be two of you out of the two, three hundred of you or 500 of you voted, or one of you, or all of you. The majority takes and pay attention to your emails if you are a member of the institute you sign, that you send your votes in or you attend the meeting. I cannot be in the meeting because of the legal reasons otherwise it can influence the decision making. Send your vote, yes, no, for whatever it is, 3 or 2, whatever is put in there, by the Institute, and start managing the Keshe Foundation.

As I told you, I'm just a guardian till it takes over. The Institute of the Keshe Foundation Austria, now, for the first time, is in your hand, those of you. Next time, if you have 100,000, 100,000 of you get the email for what is the decision by the Institute, then, if 10 of the 100,000 if ?? we vote, if it's 4, it's 4 and 6 again, so it'll be the 6 or all of you vote, and the majority of the 100,000 votes, they'll take it. So, the transition of decisions of the Institute of the Keshe Foundation, and the Austrian Institute, not the Swiss or the others, wherever you have registered yourself for, is for the first time, it's transferred to you. You are the first time, you make, to make a decision. We still carry on as a Keshe Foundation worldwide, but Austrian Institute, when you become a member of, can accept Keshe Coin and can accept, secondly, the operations which me, as being in the name of the owner, or the directors of the companies, is allowed to bring our technology into the Institute that you can purchase and pay with the Keshe Coin and the rest of it. (2:44)

This is very important, and be sure that Austrian government, and Austrian Institution structure, and the European are looking at this, even it's the first time we hand over, they're observing that we follow the constitution, and we just don't bring the Keshe Coin into Austrian, what you call it, into operation, and you being able to purchase the products of Keshe Foundation through Institute, because it's an inside house Coin, not outside. So, we all have a very special connection.

If you become a member after the email, it doesn't count. If you were at that time, you're given the right to be, you're allowed to be there. And you received an email and vote for it, and start taking charge of the Keshe Foundation. I hope you understood, and if you don't understand, look at your emails, if your registration was prior to date of the, what you call it, the voting. It's the first time you as Knowledge Seekers vote in how your Institute, as the Keshe Foundation Institute of Austria, will accept the responsibilities on how it will be ?? patterned. We are handing over very gradually, very slowly, but step by step. I think the next Institute and the structured, hopefully, and the others, as we take over step by step, as we take over step by step, hand over the responsibility and the operation.

Shall we call it a day? It's near the time, I have to escape. (2:46)

Q: ... How can you make the government accept the Keshe Coins, Mr. Keshe?

K- ... Oh, we know how, don't worry, we know how. We know how to 'shake the tail of a cat.' Don't worry. We... our systems are not tuned, ready yet, but in time, in the next few months and weeks, we will, don't worry. As a politician said, "This was needed a long time, but nobody could come up with a solution. We didn't do it the way it's done."

You got to understand, when you stop SWIFT for a nation, and the children die from it, and you're proud what you've done. We stopped their SWIFT, we're forcing them. Children are dying in Iran because of the SWIFT people. Children are dying in other part of the world, in Russia and the rest, because we control them. And now nobody controls them. And the Americans are so angry with what has come out, they don't know how to do it, because now it's nothing, in nobody's hand. It's in the skies. As you say, this is in the clouds, floating everywhere now. Government will come to accept, there is no choice. Because, the way I said, you're voting on the acceptance of the Keshe Foundation Coin, in the Institute of Austria, next week, gradually governments ?? have done (?? will have to do it). We (They) have no choice. We don't need to force it. They'll come for it, you just wait.

Keshe Coins have been offered to the Keshe Foundation workers in China. It's on the table of the Board ?? of Directors. They have to find a way to do it legally. (2:48) That we can do without disturbing anything within the next few days and weeks, how they do it legally. Once we have institute, constructed that, then registered Knowledge Seekers will become the next set. And then, when we look at the registered Knowledge Seekers, if you are 20, if you are 65, you receive the Coins according to your registration. And then, we see how you use it. How you exchange with each other, internally. I have two eggs, I have spare furniture in the house, I don't use it, would you pay me 0.01 cent of the Keshe Foundation Coin? You start trading amongst each other, people will see they can do, and then you'll see how it grows so rapidly.

We back the universities to let children to be educated, those who had no money because of it, had no food to eat because of it, they will get people. How did Cryptocurrency came out of nowhere? But this time, your Coin worth the same, anywhere across the world. I

don't need to go a shop and pay \$10 per kilo for a kilo of apple, and a guy in Africa can buy it for one cent on the App. I take the taste, I don't need to chew it, but I have the taste and the pleasure of it. ?? It will course, just give us time. It took a long time, another few months, it's not that much.

We did the same thing with the Key (USB Key with Patents). We gave the Key of the technology to governments, a small one. I started with Sierra Leone, the first Key, when we gave the key in 2011. (2:50) He called, the ambassador called another ambassador. Oh, we received this Key technology. Then we heard and then we told the Knowledge Seekers. And what happened? Oh, President of the United States, President Obama, through ambassador called, can we have the Key? Because we don't want to be behind. It's the same story. China, Africa, Knowledge Seekers, this is why it's important for you lot, you are our test. Knowledge Seekers who registered to us, you are a Knowledge Seeker, yes. But have you registered? Once you register, you get your Coin, you get your funds, and then you're going to start spending. Deal with each other, buy from each other, support each other. You can't sell it, but you can purchase from each other. I need the Keshe Coin. I have one Coin, I'm in China, I have no money. Anybody would like to get me some money? I drive and see you and give you some money for your Keshe Coin. It's still a thousand ?? . Now you understand it's going to work. Government will accept it, don't worry about it. Thank you very much. See you next week.

Q: ... Can we have a ?? meeting? You said in 2 weeks we can have a half hour meeting.

K- I haven't had time. You know how much time... I don't have. If I had time the teaching of today would not go from 9 to 1 o'clock. More or less 24 hours a day. Just give us time till we set things up, and then we'll come to you. Thank you very much.

Thank you very much for this week. Please join us. Make a recording of next week, Knowledge Seekers, first part. If you understand it, if you haven't understood it, in the world of science is an evolution in science, if you understand how we can convert the energies of the Universe to our physical dimension. (2:52) You know, start ?? with your own research. Many Universities in coming time will spend time to understand how it's done. We know part of the knowledge but we never connected it to our own life. Thank you very much Rick and hopefully see you next week. And we'll see what the life brings.

R: ... (2:54) <<Message from Universal Council>> “Beautiful Souls, we the Universal Council give thanks for your love and continued support freely and conscientiously, even from your Souls, to achieve lasting peace. Elevating the Soul of every being in existence. (2:56) We invite you to focus this day at 9pm to Central European Summer Time to give from our Souls and invite all humanity to elevate the Soul of every leader and every nation and every community to work as one Soul in one direction to achieve peace as One Nation, One Planet, One Race.

650 KSW – July 9th, 2026

End
