

652nd Knowledge Seekers Workshop July 23, 2026

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Melanin & Myelin Framework (MM) system; Need new knowledge to live in Space; Bones & matter problem in Space; STM exists without P; Not keep Earth body - wrong beliefs; Space move by emotions; Every cell has Soul - our internal energy; Soul of Cells - not fed with energy of blood; Blood interacts with lymph through pulse - converts to matter frequency - feeds Cell Souls - Not sufficient energy; MM system - absorbs Cosmic Rays (CR) through melanin in skin - transfers energy through myelin - feeds Cell Souls; 2-way communication system across body; Science of Calories not include STM or Cell Souls; MM system for feeding Soul Cells; Can't compare gravity on Moon, Mars to Earth; Cells grow evenly; Soul travel manifest new P; All teachings connected; STM manages & feeds Soul Cells - cell by cell; Energy carried by blood cells - only release to match strength with specific cell; Number of cells in body - matches exactly to number of blood cells - deviation - change emotion - cancer & diseases; Emotion adds energy to cell - loses match, not fed etc; Specific foods match missing energy in blood - mystery cure; Ways to change disease by lymph; Melanin absorption disturbed by field energy & emotion - not fed by blood - becomes psychosomatic illness; Herbs can match strength in blood - chanting; Pain relief - breathing method - use emotion, attention & contract muscles; Culmination past teachings; Exercise without moving muscles; Change anything by sequence of breathing - movements & position - use emotion - change absorption of energy through skin; Lungs, skin, brain same & biggest tissue; Detach leg & re-grow - ancestors; We were reptiles; Forgot how to handle emotion; Measure strength of emotion when tail cut; Every Soul receives energy from environment; How snake sheds skin; Psychosomatic through skin; Stronger melanin feeds weaker myelin transfers to nerve; Soul gets through emotion from skin; Cells weaker fields; How body heats itself; Interfere with CR energy absorption - feelings; Create life - matching energies confirm existence - Yin & Yang - space between lymph; Emotion of Soul through skin & nerves - problems - not synchronized; Emotion of STM tells skin what to absorb - transferred to myelin, completes cycle; Heart feeds, also fed by; Control breathing, attention, transmute; Method to heal body pain; Transfer energy from toe to brain; Create double M field between emotion & Soul - travel; Do exercise; Every cell transmutes energy from melanin to myelin - then to Soul; How death comes; How you'll transmute; Take all body parts; Boundaries of energy, how to breathe, attention, emotion; Method: 4,4,6,2; Move energy; Given key to transmute; ONN Units - testing KC - how security can handle until September; First 24 ONN Units - keep confidential; Enlightenment Game; Give government 10% taxes - register KF; Go to universities, shopkeepers, businesses; Need more support; People respect money - use human greed; Problems with Cryptocurrency; KC already mined - only spend; ONN System operate through Soul of Humanity - if defraud you lose - Souls balance; Members of Army, etc, no KC; Soul gives punishment; Understand knowledge - work out of strength - not fear; Fraud against KF - court issued warrant; One pled guilty; Help from KS in nations; Corruption in European banks - CEO organizer; Create Children of Mitra; Learn to interact energies with Soul; Child with Aliens - womb of love - Virgin Birth; Return to Earth body; Myelin sheath - Parkinson, etc; Emotion is key; Unconditional love;

Chernobyl - creatures black melanin - convert high energy; Brain changed from high radiation - changed genes; Parkinson's disappear; products out of China; Understand energy change - no chemicals; Melanin creates Nano coating - Black Hole - Parkinson's; Create own Alzheimer's - release energy - Nano coating, isolates nerves; Historical age - 300 years; Historical Man - lived thousand years; Handles high radiation - no problem; Plasma burns gone in 48 hours; Each one - transfers energy through emotions; My mission is peace - nothing higher; Emotion of yearning & trying to achieve always succeeds; Problems in Middle East - start WWII to fulfill Jewish prophecy by August 2 - force Messiah - Iran reverse - defending - Methi; Americans making trillions off war contracts - Trump family - no care for human life; End of Judaism - coming of Messiah; Informed Iran - Khamenei killed - betrayed by insider; KC Wallet; Exhale longer than inhale - releases; Where emotion & P meet; Gradual practice; Any health problems; Check posture; If KF mentioned - PhD rejected; Gans paintings; T release already set - China expanding; Breathing method - pain is stronger, gives to weaker; Hold breath - makes weaker - take excess energy of pain; Satellite Souls take place of ONN; U Council members - deliver fields.

ENGLISH TRANSCRIPTION

(:16)

K- Thank you very much, good afternoon to you, and as usual wherever, whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. As we said with the last week teaching, we put the 'cats among the pigeons,' and now we have to show how the cats survives, and the pigeons can stay where they are. Now we have to find co-existence, understand in much detail, in much more detail, how the framework of the teaching of last week was set, and how we build a framework around this new knowledge. This knowledge is what we need in Space. Up to now you had a knowledge, Gans's was in matter state. Now you have to come to a point, you're becoming traveler of the Universe (U), your bones and your other bits are troublesome.

In a way if you look at what was the last pictures of the Intro and what we told last week is very simple. Ask yourself a single question. When you die, the moment the Soul separates from the physicality, does it carry any bones? Does it have muscles? And why should the dimension of physicality (P) of the Man comes to be to have if he survives the Space? We have conditioned ourselves to this understanding that we'll keep our body as it is, as we accepted till very recently, till we discussed about two years ago, that the life of the planet is more than 4 billion and now apparently everybody agrees it's 13 billion and that very soon be 50 billion and the rest of it. (:18) So we accepted, we've been by illiterate scientists forced to accept that we need our bones, we need our physical structure.

We went through evolution. We lost some bits, we still most of us carry the bits we don't need with the evolution. And we do call it appendix, it's just a thing they're doing nothing or whatever bits of what job it does it's not needed because in the past was needed when we were in the process of evolution. In the evolution of the Space do we need bones? Do

we need muscles? And as we understood the work of the teaching of the past, do we need a brain? Or the interaction of the emotions create a condition that brings that motion in the body of the Man which allows us to interact. A few interesting points will come to be understood as we go deeper into this understanding of the Creation. In the writings of the Holy Books they say even a stone has a Soul because it's the center of it is an energy. Every cell in the body of the Man has a Soul, which is his internal energy. And that Soul cannot be fed with a matter state energy from the blood. Lions with lions and pigeons with pigeons. The physical body of the Man, the blood circulation and interaction with the lymph as a pulse repetition and the conversion of the frequency in creating a ?? matter of, (:20) this is to do with a physical part who feeds the Soul of the cell, and so it needs more energy than the physical.

So now you understand the teaching of last week. Melanin, myelin, feeding in interaction across the skin to the, what we call, the cell in between them, the Souls of the cells. Otherwise the system doesn't work. It's a two-way communication, the leech spans the whole structure and not just in the Soul of the Man (STM), in the brain of the Man. Now you understand why we put this process in motion as of last week. The blood, the food you eat feeds your physicality and we have all the formulas. Ten times your weight is the energy you need a day, but 100 times the weight is the, more or less, something our body uses. So, if you go, you know, 80 kilo times 10, you need 800 calories. Let's say, or actually, no, per pound you go, the Americans do, and multiply it by 4, you need 320 calories. Or, as a ?? ghost, the energy needed because the Soul is much more active and is much more dynamic and it feeds, controls the operation of every bits which is in that cell. Scientists have broken down the cells so many bits and everything but they don't tell you where the energy of it comes from, where the control of it comes from, it's just there, they do the job. (:22)

Now you understand the Soul of the cell provides energy the same as it does with the rest of our physicality. Now you understand why melanin, myelin, and the Soul of the cell. Physical food you eat is an energy of the matter state conversion into Gans which cannot, is not strong enough, is not sufficient enough to feed the Soul of the cell. So, yeah, melanin and myelin are there to cover between the, what we call, the skin and the other skin, a central tube to feed the energy needed for central control of the system. And when you are in a deep Space, you are in a new condition, gravity higher or lower, your bones will stretch, your bones have to shrink and brings you death. So automatically there is no combination unless you became a chewing gum, elasticated bones and muscles, cannot survive in Space. What do we say? Gravity on the Moon is compared to the Earth and gravity on the Mars is so much compared to the Earth. Yeah, but it cannot do, even in our evolution doesn't do. In our evolution, if you're a teenager, and you suddenly grow that your muscles and ligaments pull, but the bone doesn't pull, you know what it does to you? If it's strong enough, breaks your bone, and if it's the other way around, the bone grows faster than the ligaments and muscle tissues, (:24) muscle tissues pull apart and everything else. Can you expect to do this? Going from Earth to Mars in a few seconds, go through the evolution of all, or transform into energy and according to the Time, Place and Position, manifest in the dimension (D) of what can exist on time and place.

We force the condition of physicality with a, what we call the monkey suit for Man to be. The Man cannot sleep on the planetary systems, on the moon systems and the rest, inside, what we call a monkey suit outside. And to evolve, it will take billions of years. So, the only way for Man to enjoy immediate travel from the villages of Africa to sit on the surround of the Mars, needs to be on the energy level. And physicality has to be protected by the energy, unless physicality takes condition in connection with the, what we call, the energy of the Soul, to manifest the entity which can live in that place, position and what we call the strength.

Now you understand how the teaching is getting connected. The Soul dictates to the Soul of the cell, at the same time dictates to the skin near that cell, how much the Soul of the cell needs to feedback that it can guarantee survival. Interesting point for many scientists is that, (:26) if you've been with our teachings in the past, God knows, decade or so, and according to the world of science, your cell of your skin, lasts 28 days, your blood cell lasts same time, more or less, because it matches it, the blood circulation, energy gives, has to be compared from cell by cell, to the cell of the skin. At a given point, it releases energy that confirms and conducts what we call its activity. You have billions of blood cells floating in your vein, but that cell will not release its energy till it reaches its given position in balance with the cell and with the Soul of the cell and the Soul of the skin melanin. It's a switch, match, go.

Now you understand why you have so many blood cells, because it goes everywhere till it gets to the point that it can release it. The cell which carries the energy in the blood cell, even it carries the Soul of that cell in the blood cell, till it doesn't reach at the point, let's say, the cell of the kidney, that not releases energy there. It doesn't release that energy to the brain cells, it doesn't release the energy to the whole cell, only matches to that cell of what we call the kidney for example. The ?? time, the position, the cycle now is understood is dictated by the combination of the Soul of the cell and the energy of the blood which carries match to match. (:28)

If you understood this and one day scientists can literally go down to the last bit of the understanding, it comes to one conclusion. Measure the number of cells you carry in your body, and then measure the number of cells you carry in your blood. They match. If you take the total cell of the body of the Man, and the total cell within the blood circulation of the Man, is exactly the same numbers. Any deviation in numbers, which changes the emotion, which comes through the, what we call the compression of melanin, to myelin, to the cell, leads to your cancer. And any dimension (?? diversion) in the matter state will leads to cancer too, because the energy is higher. Emotion is added to that cell and there is no match for it in the blood to feed it, to interact with it, and to take the waste away of the energy level. So, the matter stays there, the energy stays there, the pulse is there, the lymph is there. So, there's one thing left alone, to change into a harder, that I stay here, till I receive the energy from the blood cell.

This is why many of the people in the world of science and technology (T), they say if you eat this thing or that thing it can cure your cancer, (:30) it can get rid of diabetic and the rest of it. Now you understand the process. And if you go in the world of the

extension of life, if you understand the working of the cycle of life, then you understand at the same time that how by changing the circulation the speed and concentrating by repetition of the energy by the lymph at a given point you can do much more than what we call for example, in the exercises of curing yourself. You've got cancer. You find you carry a cancer cell. Why that cancer is there? The field energy and the emotional side which is your Soul side, which works through your dimension of the melanin is disturbed, and at the same time what energy comes through the blood circulation on the matter conversion which gives your physicality doesn't match. I stay there till I find a match and then it becomes psychosomatic. And because the emotion has changed energy level at a given point when the physicality doesn't have the match of it What does it do? It changes the cycle, the frequency and the pulse, and it leads to creation of the much more denser till I find the solution, the energy matching me in the blood and it's not there.

And then if you take herb or whatever which can boost the energy of all the blood cells given the strength which matches, (:32) let's say to the kidney, then you say, oh, you eat this and the cancer goes, or disease disappears. And then go back to the what we call, monks way of thinking. What did they do? How did they cure themselves? They bring emotion to their body which changes the absorption of the Universal field, they change the motion (?? emotion). And I have a pain in my knee, what do I do? I bring the emotion to that point, I bring my attention to that point and by contraction and the release and change of the breathing, I change tell where the energy of the cell of the emotion and physicality need to do their work. Now you understand how the teaching of the past comes together. Why your breath, how you breathe, how you hold your, what we call, inhale and exhale, and bringing attention to the point where the pain is, in conjunction with ?? emotion of the Soul can change. Because you change the dimension, the energy level of the blood cells. by contracting in that position the muscle tissue you change the condition of the what we call the lymph, and then through the emotion of the pain you carry concentrating, (:34) you bring in the energy from the Soul.

Now you see how the system works. Your antibiotic, your ibuprofen, your aspirin comes through your emotion, through your skin and in respect to the nervous system which is and where the cells sit within ?? two. You create a pressure, in a way you change the environment, you create a new moon, and now the energies of what you brought in changes the lymph, strength changes and to that position, because you put it on the contraction, which releases higher energy and you take it lower energy, takes the pain away from it. And it can do the same thing with the food the way what you eat you don't need.

If you change your breathing system, recall back in the teaching of God knows, 400-500, I explained this, how the guy came at the beginning, I think it's in the first few years, the guy came to Desenzano, being a guru and the guy that had bent in front of him, that he cannot touch the ground, when I told him, I know you're cheating, how you eat by changing your breathing, nothing has changed, now you understand the process. But you do that in your lungs, you change your breathing, you move different capacity. Now you come to the monks, what do they do? Look at the present sports phenomena, you run as much as you can and you lift, you lift heavy weights and the rest of it. But you see the

people who have no muscles, no exaggeration, they don't do the marathon runs, they sit very calmly, (:36) they, what they call, exercise the underlying muscles, which works only through the lymph, and the foundation is strong, you don't need bigger muscles.

Now you understand how the system works, and if you can change that, you can change anything in your body, and by breathing, the sequence of breathing, the sequence of the motion and the position, and then understanding how through emotion, you change the absorption through the skin of the body of the Man. Brain, skin and lung are the same tissue, the biggest tissue of the body of the Man. The biggest tissue is not your intestine, it's your skin, which is connected to your brain and it's part of the lung, interface. The skin interfaces with the environment, the lung interfaces with the gases of the environment, and they're all connected to the interface with the STM, which is the brain. Now you can see how the system works, and if you could understand this, you get trapped, your arm gets trapped in a, God knows, let's say, on the door, between two stones, and you can't go anywhere. Our ancestors knew how to change the emotion in the brain, that it transfers through the skin, and at that point, in a way, it detaches itself, but at the same time creates a condition, that the hand and arm can grow.

We used to be reptiles, because we knew this. We lost our tail, we created it, we lost our kidney, we brought it back. But in the process of not knowing how to handle the emotion, Man has forgotten. (:38) If one day the scientists gather what we call little lizards and connect in the right way, they can see the emotion that loss of a tail would create in the brain of the reptile. What happens to the snake when it changes the skin? We look at the, what we call, physical image. But internally, every Soul receives energy from its environment and from its, what we call, resources to create that condition. And in a way, if you look at it, when a snake sheds its skin, the pressure, the emotion of the pressure not fitting into the jacket of the skin, it allows it to change it. Without the emotion, it will never change. And that emotion, which comes through the emotions, which comes through the interaction of the Soul and the Soul of the Physicality (STP), needs energy which is in no food in the life of the Man. It comes through Cosmic Ray (CR). It comes through the energy Man absorbs from the Space.

Then now you understand how emotion through the skin creates the psychosomatic and interaction with that field which is connected in a way, circle completes through your nervous system and you live. Your skin through melanin absorbs energy, you pass it on through the Space gap energy difference as the stronger feeds the weaker to the myelin. Myelin transfers it in a way directly into the nerve system going back up, picks up what the emotion wants through the Soul, goes back down the skin and what you get. Circle completed. (:40) Energy balance is between what is absorbed on the skin by melanin, and the weaker through myelin, and the weaker through the cell, and then transfers all to the neural system to create the condition of transfer of the energy, what we call the heat body of the Man. Now even you understand why your skin is cold and you feel the emotion inside. Why you get excited when you touch another skin? Because you interfere with the energy which the rest of the Cosmic Rays (CR) of the body has absorbed. Then we understand much more in the structure of the life of the Man. Mankind needs to

understand the process of the Creation and mankind needs to understand the double side of physical energy part of what we call, the life.

In so many ways they match, they have to match otherwise they cannot create life, they cannot create tangibility, visibility or what's called physicality and even condition of the survival. This is why matching energies are needed to be able to confirm existence, 'Yin and Yang,' Soul mate, and how many other names mankind has found for this simple interaction of the matter state with the energy and the space in between what we call, the lymph of the Man. The identity of the matter state for the lymph comes when it ?? (?? reeves) and receives the emotion of the Soul through the skin of the Man and through the nervous system. If you can change one or control one, (:42) or bring one to work not in synchronization with another you create all sorts of mayhems, because the emotion comes ?? out of the STM telling the skin what to absorb, then that goes to, what transferred to myelin and then the rest of it, and the circle is completed.

The beauty of this is that even the heart which creates the circulation of the matter state energy itself has a Soul, which is connected to the STM. What I feed, I'm fed by. 'I am the beginning and I am the end.' And now you understand how the system works. And if you understand this and if you understood how to control your breathing, how to bring attention to a given point, how to change the dimension, you can transmute.

You see, as I explained, when you do the pain on the knee, you bring the tension, you bring the motion of physical condition, that's where I want it, you change your lymph, your breathing, and then energy ?? gets distributed, I can heal myself. Now instead of using, let's say your knee, bring the ?? attention to your Soul in the dimension of physicality of the brain of the Man. And then you'll see the Soul flies, it does not need the physicality for its transmutation. You had a knee pain, you change your breathing, you brought underlying motions to your muscles to that area to interact with the lymph of it, you brought the pressure and the pain in motion by the skin to feed it and the pain goes. (:44) Now do that with your emotion and do that with your Soul. Now you understand you can fly the span of the Universe in dimension of the Soul and you need no physicality. Unless you expand the what we call, capsulation energy beyond the physicality of the Man that, yes okay, you can take it with you, but sorry this is going to be a burden on the moon. The ?? is different, and the pressures are different, and physicality has a problem to move. But the Soul is free.

Test it, move your toe, bring the pressure to it. The motion does not be ?? moving it (gently move it). Just know that you are moving it. And then transfer the energy to it, the thought and the emotion of the Soul, and the breathing. And then you'll see how the pain goes. Move it next to the ankle, next to the knee, next to your head, next to the part of organ of your body, and then to the neck, and then put it inside the Soul. And then you see how you become what we call the 'Passengers of the Universe,' because you have created double magnetic field between your emotion, which does not need the physicality of the brain and the Soul. Double reactors. Two different energies. Finding balance in position in respect to the what we call, gravitational field of the Earth, and then voila. You propel the Space of the Universe.

Now you understand how you exercise, how you start to do. (:46) Start from your extremities and move up and see what changes and then observe, then you bring it to your Soul we know where it is, and try to encapsulate the energy in the what we call, the structure of the brain. Instead of your blood vessels interacting the magnetic (M) field motion with a Soul you create the energy to the same process yourself. Now you dictate the gravitational magnetic (GM) field. Now you dictate the motion of the Soul and where the Soul goes, the physicality will follow, but it changes that it can follow, and you'll transmute. This is how every cell in your body transmutes energy from what we call, melanin to myelin and then to the dimension of the Soul. The weaker one receives energy, and then when it changes the Soul takes over, and becomes a dimension of life.

This is how you die. This is how the end of life comes for Man. The energy of the physicality in conjunction with what is circulating, what is set up, creates a dimension of double reactor energy which allows the Soul to travel the span of the Universe, and this cascade which is there is actually another protector of the STM, is that egg shell that membrane that is over the egg, the Soul still sits within. Once you understand this, but you have to exercise, you have to practice, you have to understand, then would I buy a Rolls Royce with a ?? engine and kill myself to do 200 and if I do 120 my police stops me and gives me a ticket, where I use the Rolls Royce of my brain my Soul and travel the span of Universe that there is no policeman and Man can travel the speed beyond his own imagination. (:48)

Now you understand how it works. Now this is your exercise till next week. Learn, fast movement, and you fail. Energy movement is what you're targeting. Start with your toe, and move it gradually up to your knee, to your hip, to your back. And don't shake hands with no one because then you transfer energies, which you might need and you have to start from zero. Now you understand the process of the transmutation. Now you understand why we teach about myelin and melanin and the rest. Because it's the way you transfer energy, it's the way you create energy, it's the way you distribute energy, it's the way you have the energy of the Soul, and not energy of the physicality.

Gradually, in next few weeks we teach you more. But start practicing. Start practicing how you are going to be able to transmute. But you have to understand the structure of your physicality. That in Space you don't leave your toes and your foot behind and come back, "Oh my God, I used to have a foot on the Moon and now I have none." Learn the boundaries of the energy, learns how to breathe, learn how to bring attention to the point, learn how to divert the energy of the emotion to that point. And point it, put your finger on it, that's where I need you. Four second breath in, 4 second hold, 6 second breathe out, 2 seconds hold. (:50) This changes the rhythm of the heart. This changes the energy which is given to the lymph. This now tells where I want you to do your work. My knee to get rid of the pain, my brain to make me a transmuter of the Space.

Let's see what you learn. This is the first time we put the exercise to you. Try it till next week and see how you can move the energy from the toe, feel it, into your muscles, into

your knee, in your hip and in your brain and then you see you start transmuting. It's not that hard, not hard at all. And you can do the same if you have a partner transfer that emotion to them and see how they feel. I'm not going to tell my partner he does something wrong ... this happened to it. No, I just gave the emotion to the motion of the Soul of him. You do wrong, I have already set the limit. The energy about that is something you don't have, you cannot handle, and you suffer with it. The Day of Judgment, as long as you stay within the limit I put, because this is what keeps me happy and you accept it to make me happy. That's your limitation.

Understand the process of the Creation it's not just one piece that's why doctors and the scientific world has always been in problem with the body of the Man. They never understood the energy, they never understood the effect of the lymph, they never understood the effect of the blood circulation, and as you go back to the teachings always said every cell of the body of the Man is 'address posted' (taxi destination) and only delivers to that post. (:52) Now you can see what dictates that post. The energy which absorbs from the Cosmos through the melanin and myelin, and says this is the address, give me the energy, give me the cycle that I can live and I can energize the cell. The process of Creation is very simple. Understanding it with what they have taught us it's a little bit hard, but once you understand totality of it, then you see life is different you understand more than you thought you ever knew.

Try to fully understand the work, the purpose, the emotion, and the energy, and bring it up to your chest, bring it up to your brain, and cascade your Soul. Now you have a double core. You have gravitational and magnetical. How you adjust this emotion allows you to lift your physicality or allows you to condition yourself to travel the span of the Universe, as I don't need the physical life to take with me. Not necessary. I'm going to let it die. But it can hang there till I come back. I'll give you a lifeline, we use the energy what's it left in the lung. We go for a break, we come back, and then you understand more about yourself. And I have given you the key, how to transmute. Try it till next week, and if you have the courage to tell us, let us know if you succeeded with any part of it. We go for a break and we come back, and we leave it to answer any questions.

>> **BREAK** >> 652 KSW July 23rd ... (1:04).

<< Rick put a video of the Keshe Coin >>

K- Thank you very much. Yeah, we have few announcement to make. As of next week, we start allocating Keshe point amongst Knowledge Seekers (KS). small amounts for our system to check, follow and find any problems. The what we call, ONN (One Nation Network) Units start moving to their position in next few days and weeks, and we only can test when we start seeing transactions. When we start seeing how Coin moves, how it follows, how our security handles it, and this will go on till sometime in September, October where we increase the numbers.

The 24 of you which will receive or is receiving the ONN Units, please keep it confidential. It's very important for us, and the minute you plug it, your system appears on our system, we see it as plugged in. The minute you disconnect it, our system will see it. We monitor how you, we try to use your system, try to use your connections with the systems, that we can see how the phases interact. There is a team set up in the background to develop all parts of it. The developers are working, and there is a structure, you have to go to the, what you call, (?? KFimport at .at), (1:06), register, go into the game, register, and then connect yourself to, through the Game, on the same position on the top left hand side you see the Coins CC and KC. And if we allocate to you the Coins you'll see it on the circle KC, we might send you one Coin. This is part of your 30 Coin annually, but it's for us to see how the fraction works, how the system works, how we can trace it, and then we build it up.

The minute you receive it (ONN Unit), it has carries a cable connected to your, what we call, (Internet) network. It has to be connected to the network and connected to its power. This is the first part of the system. Once this is set up and we pass the numbers we require, we add the second part of the system, which is what we call the Cosmic Ray Units (Plasma Antennae). These are expected sometime between the end of this year and beginning of next year and then somewhere in the very near future we tell you to unplug your system from the power supply, which means we take over everything else. There will be Apps which allows you to work within the structure to order food and see if you receive it as an energy, not the fish and chips down the line, somebody knocking at the door. And then you have a condition, you are going to be happy, whatever, gradually we build into this the whole structure.

In next few weeks we will announce the last (Monthly Flight) session which was left with a lot of you to come in and the system is set up that 10 of you as I said can come in, (1:08) like before everybody could hear everybody, it will not be there. We ask you why you're coming in, your addiction, you are hungry, you want food, you are depressed for whatever reason. We ask you beforehand. We set our systems up and then at the end of the session we ask you if you received it, if you haven't received it we have to tune our system. So once you start playing the game you become part of the structure and it's exactly taken us 12 months to put the first ONN's out to the people.

Remember those of you who receive it you all know who you are more or less, you're asked for your addresses your details and everything else. Arrives, don't show it to anyone, just hide it, plug and play it, and let us monitor what we want to do. What we see our team in the background sees what it is. Don't come and say, oh, there is this problem.

Of course the problems there. Put your problems to us that we see that we can pass it on to the developers what it is as they are monitoring themselves. Once our team says the 24 Units, 25 Units across this planet is working, they can monitor it, then we'll release the Coins. The Coins for you will spend it, one Coin is a thousand Euro, evaluated by internally by us. You go on a Keshe Foundation store, you buy an item, it says 30% is Coin, you can value it, the others you pay accordingly. We deducted it, you pay it. You will see what we call Keshe Foundation, what we call wallet. You pay into the wallet, it's directed to that way. We get a confirmation, we know you paid for what you wanted, and we move forward.

We try across all continents. (1:10) South America, Central America, North America, Europe, different locations, Africa, Australia, Asia, and those who have actually came in and participated in the system. The interesting part is, most probably, after the first month, we test our system to see you see two Coins added to your circle, that's your first payment for operating the system. We might not do it the first month we're not ready might be done in next ... And accumulates on from the day you started. Go to your shop, say, I have a Keshe Coin, if you ?? pay this and I buy this. And then they give you money too. You go to your friends, universities, register, you get this. It worth so much and they pay you every month. And then how the system starts.

You bring the ?? Game as part of the collaboration and cooperation with the Keshe Foundation worldwide. You go to your governments. I registered for Keshe Foundation work. They are giving you 10,000 for me for the next 10 years, would you like to go and register and get it? That's how you handle it. Each government, as you heard, will get 100 Coins, 10 Coins a year. The minute you get your registration and you receive your Coins, you go to your, you write to your government, why don't you claim my 10,000 for you that you can improve my services? And this is how you go, you go to your universities, you go to your shopkeeper, go on ?? your business, you get 30 Coins that's 30,000 then you can do it. (1:12)

We are doing our work, spreading the Keshe technology and with it the Keshe Coin which comes with it the peace and everything else, is your side. It's the story of 2011-12 when we gave the Key to the government. Now you have become the governments. And then we gave it to the public in 2016. It's your 2016. You have to go to people. Have you registered? Use it. I ?? want your tabletop. I ?? want an apple from you. Would you accept a Coin? We have offered to our employees and system is getting signed, that they will be paid partially by Coin. Once a legal claim is put in, you can get and you will receive Keshe Coins as the employees of the Keshe Foundation worldwide.

The system is up and running. Those of you who received your Units, please do not let anybody know you received. You have received, you received special Units from us and these Units are the first line. Then in September, October we release another maybe 50 to 100 Units. Once our team says let's try bigger. But once they said it's okay, then we have to release the Coins to you that you test. You can play with the Coins, we can play with the system. What is the hiccups? There is a problem in the Game you want to change, and the rest of it. So we are testing till September, October, November, when our team says

ready, when they say they have seen it, they want to increase the base numbers, we might go to another 50, 100 and gradually by the end of the year we want to make it to a thousand.

We need more support to put more Units in process. (1:14) And then after next year Keshe Foundation tries to in a way through its own operational organization spread the 10,000 Units, but we still need a number of Units to be bought, to be given to us that we can set the structure. We need work done by us, we need work done by you, you want it, and is your job, you all went teaching the people Gans's. This is how the Gans's were made. They laughed at you, they joked. They made every possible thing. You joined what we call, mystical method. Go to them and says they give you 30 Coins. Would you refuse 30,000? See how many of them will laugh at you. This is how you have to do. All your member of family ridiculed you, KF and see how they're going to 'kiss your hand.'

\Now you understand how it works. You go to your government, you go to the companies, there is money there for you. Why don't you cash (it in), why don't you use it that you can pay for this and that. They will go, they will ask for it to be changed. This is the money given free, and we see who refuses and who gets addicted to use it. We've seen this process, and I learned this process from my family years and years ago. When people get free they can do something with it, then you see they have respect for it, because now they can get something for it. I cannot buy an apple with it. Why don't you put your apple for sale? Then you see how much of it you get, who gives you what, we get for your apple.

We are going back to our ancestors that money had no value, everything was barter, (1:16) but now your barter is guaranteed through the Coins. Technical development. And then you understand, how easily we all work and will bring that change. It's taken us 40 years to get here. It should take not even four months to make Keshe Coin (KC) to be international recognized Coin by the people who join us, they work among us. Register them, register yourself. Your husband was laughing at you, say sign get 30 Coins. Don't use it today, maybe next year you get another 30, 60, 60,000. You might do something The Keshe Foundation might give you a holiday to the Moon for 20,000 of it. Or you can buy a pillow or whatever else, or a fruit from the Keshe Foundation guy from around the world. And see how many of them will laugh. We know how to get and use human greed.

So 24 of you will receive your Unit in next few days or some next few weeks or three weeks. Don't let nobody knows, plug and play. You don't need to tell us anything, we know who you are, we contacted you, we've taken your addresses and telephone numbers and everything else, we know it's going to be IP to you, and leave it there. Let us do tests, and then we ask you to play games which connects you to the system and register and play then we want to monitor when we give you the first Coin what it is. You have to understand the beauty of what we've done in the background.

In the Cryptocurrency of today they are using millions of dollars to mine. (1:18) They are putting pressure on the nations to mine to find a Coin that it might worth a thousand or ten thousand or whatever. Keshe Foundation has mined, you don't need to look for it.

The only thing you need to look for, is to spend it, but wisely. Don't defraud yourself, because you lose yourself. These systems has a Soul, this system operates through the Soul of Humanity. Nobody can put a gun to your head, and nobody can do anything else. And you wait and see, if we fail, you are the cause of the failure. We set the system up. We are moving.

And there is one thing, if you are a member of an Armed Force (Army), we will not give you a Coin. If you take from us by deception, you'll pay by deception, yourself through your Soul. When you lose something, when you see a damage, know your Soul gave you the punishment for it. Very simple. This system has a Soul, collective Soul of those who are setting it up, with a change of the humanity, and if you abuse it, you pay for it yourself. So understand, don't work out of the fear, work out of the strength.

And you've been told, Keshe Foundation is a religious group and they think. Tell them this religious group pays you to spend money, hold it. Don't do like what people did with Bitcoin and now they're looking for it, a guy spending every year hundreds of thousands to find where they dumped his hard disk, that he has so many Bitcoin on it. We have (already) mined it. We mined it, to mind you, to protect you, to protect humanity and don't spend waste so much energy to mine it. (1:20) Nations 10-20% of power supply is going to those who said, mining activity is using energy and everything else of the nation. We've done exactly what it said, it's mined. All the Coins you receive is already in our possession, safe, kept. All you need is to understand how to use it to create peace. We are giving it to you as attachment, live by the Ethos of Mitra when you receive it. And you sign the Peace Treaty when you receive it. The game started, and I hope humanity enjoys the game. Let's play.

We come to another point. Keshe Foundation will announce a very important position in regarding the fraud which were we were defrauded some five years ago. This case has reached court this week and a team of lawyers and everybody is working for it. If you are, you have a connection, you can find members of this group. The warrant for finding them and arresting them has been issued by the judges in Austria today, this week. One has committed his guilty (plead guilty) but has not appeared. If you live in Uganda, have a connection with the security services in Uganda, you have connection with security in Nigeria, connection security services in United Arab Emirates in Qatar and Dubai, (1:22) we need your help for the warrants to be enforced, and brought back to Austria for the judgment, and the funds which has been what we call, stolen from the Keshe Foundation. The judge has issued the warrants for the rest this week.

If you are connection, you have connection in Uganda, especially in the church system of Uganda. In Dubai, United Arab Emirates, in Qatar. We need your help. Write to info@keshe.foundation. We, the Austrian and Interpol will bring these people back and the funds stolen damages done to Keshe Foundation will be returned with ?? we'll spend the ?? gain on more Units for you, and more peace work, and the rest of the research and development. We... our losses is in tens of millions. We never told you how much, but you'll find out when the judgment is published. Keshe Foundation lost heavily. We were stolen from.

Now we ask you, Uganda, South Africa, United Arab Emirates, Qatar. If you have connection you can help us or you know structures which can help us to track these people down to bring them the Austrian International Interpol Police Force as all will bring them back in for the judgment and then we can recuperate tens of millions we lost. Three of you helped us a few thousand. We honor you, it will be returned to you now that the process is completed. (1:24)

On Tuesday of this week the judge has made a decision and the warrants has been issued. One of the party has confirmed to his guilt and waiting for judgment, but we have to bring him back to Austria. He has confirmed to the court, he accepts, has defrauded the Keshe Foundation and waits for the judgment of the court. Help us, Uganda, Tanzania, South Africa, you have connections, we need your help. Nigeria, we need your help. United Arab Emirates, you have a connection that can help us to bring these people back to justice. In Austria, the judge has issued the warrants. Helping us to find these people helps you to have a better Keshe Foundation to be set up. To be there to deliver more services to all of you.

Our team of lawyers are still 3-4 days later on. They're still working on it. The judges are working on it. The prosecutor of Austria is on it. And we need to complete this very quickly within next week or two. We know some of our Knowledge Seekers are strongly based in Uganda. We need you to get in touch with the authorities to bring them back into Austria. They're using fake false passports, they're using Nigerian fake passports, and now all was on the warrant issued. We were correct and we never lied to you and now is in the hand of the what we call, not in the hand, is completely cycle with the judges. Now we need the warrants to be brought back to see where is the fund, how much was left and what it is, who's involved in it, that some of the funds of the KF can be brought back. But they're working in Uganda, (1:26) if you know people who work in the church services, white woman from Eastern Bloc, you send us to us. If you've seen a white woman working around the church, we need to get access by the police. Nigerian men working in Uganda. South African white working in Uganda in the church services. We need you to tell us who they are, what they are. They have set up the same fraud in the church service of Uganda. Collecting money and sending it to Europe.

Please help us to bring this case now completed. It's taken its position in the courts and the international warrants is being issued as I said one of the criminals has written to the judge and said my term whatever you decide on the judgment. We need to bring him back, claim to be living in Dubai. We need address. If you know if you have a connection contact us through info@keshe.foundation and tens of millions which has been stolen from the Keshe Foundation damages. Will be returned to ourselves. We know one of these people holds a 29 million trust in United Kingdom stolen from the others the same way. Thank you very much for helping us because it helps us to what we're doing to be expanded and extended. Our lawyers team, everything is still in position. We're still holding on till all the direction that mission is completed and the arrest of what we call search warrant to be found, to be brought back in, is on the move.

Any questions? (1:28)

Q: ... Hello Mr. Keshe and everybody, thank you very much, I hope, I wish you very love very much luck for all these cases you have I hope it you will win it in it.

K- We don't win, we already, it's not winning it. We spend the money for the Keshe Foundation to become bigger, and these people stole the money instead of winning, we're just getting what is ours back and this is the biggest fraud. I should thank the prosecutor the chief prosecutor of Austria for his services. He spent two years. I thank the Austrian police, their due diligence. I asked the judiciary, the judge, beautiful lady in the court of the Austria. They are not letting none of this go. It's one of the biggest cases in Austria for a long time. And we kept quiet. As we told you in November of last year, started this process now. The court structure set up on Tuesday. Now the warrants are issued and it's not a we get things or we did something wrong. We work on sincerity and as I said, especially the prosecutor's office of Austria, they have spent thousands of hours to bring this case into court. And I thank the authorities in Austria for their support and bringing this to this position, especially the police of Linz, the prosecutor's office in Linz. They did not stop from the second we told them. (1:30) How it is done?

There's a big problem with the banking system. This thing has brought forth one of the biggest, what we call, deceptions by the banking system. Negligence of the banks has been the cause of this loss for us, and apparently there is other people who've been hit by, the same as us, and they've shown a big weakness in the banking monitoring of the Europe. Where once the banks realize they made a mistake they got involved in a big fraud which they should have had their due diligence, then they make the company who was there not to in a way to silence them, a terrorist organization. And they have no say in it, have no say when they do this, money laundering and terrorism and they pass it on to the police. In a way their fault, their mistakes, becomes your headache. And now we're taking this to the European what we call, central finance system that the banks can no longer can independently what we call, call close an account on the false pretenses, because of their misjudgment or offices in their bank working with the fraudsters.

This size of a scale of fraud can never happen by people abusing it. Somebody inside tells them where the victims are. They organize themselves. And this has to go that we are asking from the authorities, because we've been through it, that banks from now on if they want to make allegations the company or individual is part of the terrorism and money laundering has to go to a judge. A judge has to decide not the banks to cover the shortfalls, because if they find such a thing by European standards Central European Bank will charge a 500 million penalties. And they have used this on Keshe Foundation heavily, (1:32) and now it's on the table and we are requesting the European Central Bank to take this power from the, what we call, the banks. No one, no individual account can be closed without a verdict by a judge.

And a lot of things in this case has come up how bank officers are working hand in hand with these criminal groups. They know where the victim is. They tell them where to go and look for. And so it's not a lock. It's in a way what happened to us can bring the peace

to many, many companies, which the bank inside, officers and criminals work together. And the minute the case is found out, the bank officer calls it terrorism and what we call money laundering to cover themselves. But now we have the name of the officers, we have the name of the CEO of one of the major banks in Europe is involved. His name is recorded. How much he has received is recorded. And now you will see one of the triple A banks in Europe will come into the court. The CEO was the organizer of the biggest fraud in Europe. And so it's a good move. It's a fantastic move. At least our pain and what we went through will give a chance to the others not to go through it and takes (out) one of the biggest loopholes in the banking system in Europe.

Q: Thank you for your transparency and sharing it with us. I wish that...

K- We could not say anything. Now the case has sat in the court and the judgment is made and warrants are issued now by the judge. Before we had a warrant which was issued by prosecutor they don't carry much weight. But once one of the senior in the criminal court issues a warrants then Interpol and the European governments have to respond to it. (1:34) Now we have received that it's on the move and we'll see how it happens and what it takes shape. But again we are looking for Knowledge Seekers in these countries we know these people are operating out of now they're defrauding more people to be brought into justice.

Q: Thank you very much. I hope you're successful in that part also.

K- Yes, now it is in ?? with government.

Q: So my question is, you talked about emotion and the double core dynamic, and I wanted to see the state of emotion and this double core how does it does it show in an image, how and what...

K- It is the force you feel, it is the force you feel. Many of you once you learn this, especially of those even of an older age, your dream was to have a child. And if you learn how to bring this energy in position and how to release it, you can release the seed of your child. This is how Daughters of Mitra will be born. This is... We teach you in the future how to do it. You feel it. And if it's been a dream of people in the old age, or people who cannot have children, through what they call DNA mismatch, and then what we call, every other name, you can create your own child through the dimensions of the energies, but you have to learn how. (1:36) And this is something, it's not theory, it's been tested and it works. And now you have to learn the way you learn how to feed yourself, the way you learn how to write, how to read, the learn you start enjoying certain music's, now you have to learn how to carry the energies of your body, that allows you to interact with your own Soul and then the rest of it is in your hand. You decide where energy is released, you decide how the energy is released, you decide you want to have a child with another human, or another the energy you fell in love in the Universe with. Sorry, they have no penis and they have no vagina, but they carry the womb of love in their ?? lives and you need to understand how it works.

Q: You said they carry the womb of love, where?

K- Of course, every creature has. In the body of the woman we carry in the womb of the woman. It's just we always look that the physical things comes in and you get egg and a sperm and then you get there whatever you call it the seed of the life. If you listen to teaching of today, every cell has a Soul. When you release the Soul you create the life. When the body completes, when it's the central Soul is created why don't you create children through the interaction of the Souls? And then the environment of the womb of the mother to be the condition of physicality to manifest. Virgin birth. Now maybe you understand exactly what it means. (1:38)

Q: That's all so beautiful and so...

K- It's not beautiful, it's the way it will work. It's the way it will work. It's the only way we can become part of the Universal Community. We don't say you're Chinese, you can't have a child with the African. We don't say because you are European, you can't have a child with the Australian Aborigines. We fall in love and we create children of Man. Now we become Passengers of the Universe we create the children of the Universe and unfortunately as we see them they don't have any mouth, they don't have any sexual reproduction that you can play with.

Q: Yes, when you said transmutation is it, can it be just by Soul?

K- Of course, it's the energy field, you call it a Soul, we call it a Soul, because it's easier for people to understand. But it's the energy field, it has emotion, it knows. How come you know where you go at night when you dream? Yeah? So does the Soul. But, sorry, your addresses are not GPS Earth anymore, your addresses in your, what we call your GPS of your Soul, is everything on the Earth plus what's in the Universe.

Q: Yeah, how long can we transmute? Is there a deadline to go and come back?

K- Oh, you can transmute for the life of the Universe.

Q: And come back to the body?

K- You create the body, the Time, Place and Position. If you manage to find your way back to Earth, yes, why not?

Q: Okay, thank you very much. Yeah, I just stop here to let others to ask. (1:40) Thank you very much. Thank you for the exciting future waiting for us.

K- Thank you very much. We have to finish at about what we call 20-30 European Central Time in another 45 minutes. I have to go into another session of work.

Any other questions?

Q: ... Hi Mr. Keshe.

K- ... Which part of the world are you in? South America, Central America, Europe, Iran?

Q: No, I'm in Mexico Mr. Keshe.

K- Oh, thank you very much. Hot and spicy. Carry on.

Q: Yes. Okay. And before I ask my question, you gave the name of the countries that you're looking for these people. but you gave no name so how people going to look for them?

K- Send us the information, who you are, how you can help us, we put you in touch with the Interpol with the police in Austria and the court and you can release everything to them. It's very official because now the court structure is set and... The hardest thing was one of the what we call it criminals to come to be convicted or to confirm to the crime. And now that one of the top people in the in the fraud case has written to the court and accepting the judgment of the court about himself confirming their crime, it's made it very easy for us, now we have to get the rest of them back in to Austria for their prison sentences and all the penalties and everything and ?? find out better. The police knows where the money are sitting. (1:42) So, once the case closes, still we disclose to us what is left of the looting.

Q: Okay, my question goes back to that myelin and... melanoma. So, because we know the melanin, they get the Cosmic Ray and then transfer to myelin. And we know like, the whole nervous system is covered, we call it myelinated sheath. Without the myelinated sheath, is no, nothing happen. Like in case of Parkinson and Alzheimer, we actually see there is no myelinated sheath, they lose that. So...

K- Yes, but you have to understand why.

Q: So that's my question. You see, because when you, because without the myelin, just because myelin sheath is just like a copper wire, like when you have a copper wire that has plastic on it and you take it and make it naked, that's how that plastic is going to become naked. The nervous system is naked, so there is no plastic. So now the connection between the melanin in the skin and the myelin in the sheath is this is the emotion.

K- Of course.

Q: So, our emotion actually is a uh key, is key to everything because...

K- Of course, that's what all the teaching is...

Q: So the whole thing is if we if we have only and become like God Himself, because we are image of God become like God Himself, and only thing we carry is love. We can do anything we want but we have these ideas about love that is something that you have sometimes towards some people and not towards some other people. We have to be constantly love all. It doesn't matter... (1:44)

K- It's unconditional. It's not love, it's unconditional. Being aware of that are not the most important thing. Let me explain to you something very easily because scientifically we can refer to it. As we see in Chernobyl, the myelin (melanin) goes dark because of the energy conversion it receives. The melanin ... The myelin, which is the replication connection to melanin, inside the brain, when it receives the extra energy from the Soul, from emotion, it goes dark, we see gray spots in where they say the Parkinson grows, we see change of composition. It's the same as it goes black in the in Chernobyl. So we don't create more of, we convert, we change it, more energy comes in an emotional level, there is no myelin cover, whatever. And then we see melanin inside the brain cell and usually associated where we see Alzheimer's, where we see Parkinson's.

So we understand how melanin inside the brain converts energy, receives so much energy at the Cosmic Ray level from the Soul, that it converts it into a dark. We see the gray patches on the brain. If you understand this, we have a clear we could not understand this till Chernobyl in 1990s. Chernobyl disaster brought a huge insight into nuclear industry and what we call the structure of the melanin. But it was kept, it's kept away, nobody knows about it. Unless you work like us in nuclear industry, we watched it, we monitored it. We've seen the change in the structure of the animals around the Chernobyl. (1:46) Even the brain structure has a different composition than we have to because the high radiation, melanin in the brain has received so much energy that it changes just change the gene of the animals.

And so if you can reduce that field strength you can have no, what we call, Parkinson. Very soon, Keshe Foundation in Chinese operation will test this, we bring this as a product, certified. Because we understand the energy change. There is no need, once we understand this, to go through this rigmarole we had with all these nonsense of chemicals and the rest of it. You look at Chernobyl, go and study Chernobyl, melanin production, dark black, white and black, because it literally creates a melanin Nano coating to absorb more energy from this environment that it can protect itself from it. In a way the Nano coated melanin becomes that black, what we call Black Hole, protecting the Sun inside it. That's what it is. And we have the same in the brain of the Man.

It's a huge, huge structure in the pharmaceutical which goes to the wall with this. And we have on our plans in next coming months, that this we understand it through energy we'll transfer what we call, the conditions in hospitals and as a system in China. You have a Parkinson go to China, in Chinese hospitals go through the process and then you understand it's not there anymore. (1:48) And it's very clear, you just don't see any more gray spots, that's it. We get emotionally depressed we don't want to remember we create our own Alzheimer's. We release so much energy that we isolate, we bring Nano coating, we isolate and it shows us gray in the brain. It's very, very simple.

Q: And Mr. Keshe, in terms of the melanin, you see, is it melanin in African-American people, different from white people? Because a 55 year old woman, African- -American looks 35. But 35-year-old Danish woman looks 55. So they wrinkle quickly. So it should be a melanin that causes them to become young and the other one become older quicker. Is it right?

K- Can you repeat?

Q: So the melanin is different from African-American to white people. So a 55-year-old African looks 35 year old when you look at their skin there's no wrinkle, but 35 year old Danish woman looks 55 they have so wrinkly so quickly. Is it the melanin cause of that wrinkle or it has to do with the melanin and emotion? Because, I don't know, but most of African American when you see them men and women I've seen many of them they don't age I mean they don't age like white people.

K- Yes, it's just the way we perceive them. The absorption of the fields is the cause of this problem. And this is... (1:50)

Q: When you say, when you say, it's my perception, it means I'm blind, I don't, I see the...

K- No, they look that they're young first out 30, 40. You see, we have historical age, what you call it, people, historically lived in 200, 200, 300. There are people who are followed, historically. And they lived into, what we call... There is one historical Man in the history of the Man. They think he lived a thousand or something (years). But in 200 and 300 (years old) we have many who lived this span. It's not just something we do. When you look at their skin, it's not what we see in the normal people, shrink or wrinkly. It's part of genetic, part of how they live and part of how the skin absorbs energy.

How you... you... it's partially emotion. As I said many times before, from very young age I could stand high level of radiation. But why? Why I can handle nuclear materials, everybody else dies of it for 20-30 years. I handle nuclear materials as you handle forks and spoons. And some people, the minute they come in touch with it, they get all sorts of diseases. What allows us to? I get the plasma burns. If you ever work with me, I get, I carry a huge plasma burns. If it's left in the hand of... if you have the plasma burns I have, (1:52) you have first, second, third degree, every kind of burn in your body. Takes months to repair. Plasma burns on my skin last 24 to 48 hours. And you don't see any sign of it. There is no skin damage. Each one of us does different kind of energy transfer and to the emotion.

And I said this in a talk to someone very recently, that my mission is peace. And no energy level exists to stop that. Anything else you just overcome it. The emotion of creating a balanced life, a peaceful life on this planet, is higher than anything else. I don't care where I live, how I live, whether it's how I eat, as long as at the end of the day, in five years time, in two years time, leads to establishment of peace, and a lot of it goes on. A lot of Knowledge Seekers, especially in past few weeks, they say, we see how you're

coming back, helping us, giving us your technologies, giving us your knowledge, sharing with us. And a couple of Knowledge Seekers recently in the Keshe Foundation said, "Mr. Keshe, you gave it free and now it's all coming back." I said, "That's what the life is. I didn't ask for anything." And we see it. It's the love of peace creating condition. I need something, I go to the Knowledge Seekers. How many Knowledge Seekers in past few weeks and months, have approached? I need this, can you help us? You, you have the knowledge, can you join us? You can support us financially, can you help us to bring there? You can support us through your connections, that you can make it easier for us to work. (1:54) We gave it free, they tested it, and now they're putting it back in. Emotion and what we call the yearn emotion of trying to achieve always succeeds.

Q: Mr. Keshe talking about peace isn't it time to give this energy thing to bring it... I mean I was actually got some color painting and then I was making a diagram of all the wires and how you can make the energy with ?? Magrav of like infinite energy with almost nothing. But then when I look at how many people are dying in Middle East you know from both side, is any time to just...

K- No, you see Azarjan, there is a thing where the Jews in the Torah. Sometime from... I was discussing this with some high-ranking officials, why Israel is doing and how they are planning. And what Chinese said, if one nuclear bombs start happens in Iran, there'll be no state of Israel. It's a warning coming directly from the CPC and the Military of China, it means they're going to go.

But you have to understand how these people think. From last Monday till the 2nd of August is the time according the Jewish prophecy the war has to start to finish in the benefit of the Israel, and then the Jews by the October will not exist. And that's what they're trying that's why everything was done this way. And by next Sunday 2nd of August this cycle passes. If the Jews do not create a third world war to bring the nation of Iran to an end, (1:56) they lose their window of Messiah to come. You have to understand a lot of things when you speak about Iran. Americans have spent approximately 30 to 35 billion dollars on equipment bombs and losses. Americans have signed 2.5 trillion contracts arms defense in the same period with the nations in Middle East has been hundred times more profitable to keep this war going. Trump family has made over 250 billion in this war. They've spent 30 billion. They have received 2.5 trillion contracts. Now you understand why the war is going on.

Q: I mean these nations are so stupid.

K- It's what it is. This is, there has, this has been one of the most profitable wars for the American industry. And all the ones which made money in it, are the ones which Trump has put shares in it and keeps on announcing why it is. Lockheed Martin, Mr. Smart Guy, everybody else. No war. How can you invest 13 million, maybe a few thousand lives of Americans, and make 2.5 trillion? It's in the public, go and see how many contracts they've signed and they're still signing. All signed by, by what you call it, the Trump's family. You think they care about life? But they take life. (1:58) But this prophecy, that he has to complete by 2nd of August, is on the card. And that's why they're trying to push

the war in the next 10 days. If they miss this chance, the Messiah will not come for the Jews in October. Even if he means the last day on the 2nd, 1st, 2nd of August, they use a nuclear bomb in Iran, they will do. Because they work on this philosophy of what we call. And then we see nothing will happen in October. They are working on windows and that's why they started the heavy bombing in past 7, 8, 10 days. Because they need this window. They are fulfilling their prophecy.

Q: So, what's going to happen if nothing happens by August 2nd? It means they're going to die?

K- We wait and see. No, it's the prophecy of the end of Judaism, and the coming of Messiah. They are working this. You have to see the Iranians work on the reverse of this. And the Jews are working on the other reverse side. If you listen to the Iranian forces, they call it the forces of Methi, has come into operation. They're defending. This is, this is how ridiculous. People don't listen, they just pass it on. They just, because you're not aware of what's going on. We watch, we monitor.

Q: But Mr. Keshe, you know, I was listening to ?? interview and the way they bombed Ayatollah Khamenei and all of the other groups, they all did it in one day, all building at the same time and ?? was one of them and he actually came out of the rubble. I mean he was lucky but then... I mean how could you kill all the... (2:00)

K- We knew in Intelligence services we knew that Khamenei and his son will be killed in the first day, we knew weeks before. It's not something... In the operation of international security we knew. We informed Iran, because this was part of the... the closest person to him was appointed, he gave the code where they are, everybody is, he got on the plane went to Turkey. And he signed a two trillion contract with Mr. Trump. Mr. Trump has a 2 trillion contract to come into Iran to build all the bridges and it's already signed. The guy who was the head of the security of Ayatollah Khamenei. You don't know, forget about it. We knew, this was, we, we knew. It's just, they couldn't find a person, for weeks they were looking for him. It's all set up, it's all part of their philosophy and their belief, but they have to finish this by the second of August, next Sunday. It's a phase of it, has to be done.

This phase completes, then the next phase starts for Trump to be called the forth comer of Messiah, his son-in-law, becomes the Messiah and the rest of it. It's all set up. This guy who's running around with his son-in-law is supposed to be the Promised One. He's the guy who brings everything back to Israel. That's why he's signing all the contracts on behalf of. (2:02) You look at any contract signed with America, he is not in there and he's not in the name of ?? his or Israel. Next question, Azarjan, I have to go.

Q: ... Is it going to be mandatory to have a Keshe Coin ID wallet to play the Keshe Game of Peace and Enlightenment?

K- Keshe Coin Wallet is set up for the Keshe Coin, not for the game. We can use it, we provide it, we can use it, but the system is getting upgraded. A new, what you call, IT

team has been put together this week. To speed up everything else. And thanks to Knowledge Seekers arranging these things, providing us with all this support. And we explained to you how it's going to work. Let us get this 25 Units, what you call it, in operation. They're coming in phases. And then once they tell us all the things are done, the games are connected to the Coins, all the systems talking to each other, everything else which goes behind it, all the programs of the security works on the background with it. Then we release the first Coins.

If you have a wallet or you have a Keshe Coin wallet, you start seeing it. Because nobody has received the Coins yet. Your Keshe Coin on the circle on the left hand side, top left hand side (of the screen), is all zero. When you receive it, you'll see it, and then we ask you to spend it. (2:04) We want to see how it operates in spending, how it works with transferring from one to another. What keys do you use? Do you use his ?? treasures? Which model? All that has to be checked. Are you keeping it in a safe wallet? How your wallet safe it is? We come and structure to steal your Coin, most probably to see if your Coin is stolen, how does it show in our system? Can we track it? All this needs to be done in the next 2 or 3 months, and then we'll see. Because we guaranteed if somebody steal your Coin, people have a heart attack and die. Because they lose their investments, what they saved. We don't do that, we replace it, but we check first. See where it's gone, how it is, can we check it?

Any other question?

Q: ... Do new players who have not been Knowledge Seekers need to buy wallets to receive Coins? Or can they play a while and later buy the wallet?

K- We tell you. Let's just work on it. We tell you in more detail how we're going to do it.

R: So for now, just play the game and don't worry too much about the wallet.

K- Don't worry about the wallet at the moment. We test it ourselves. We're going... The Units should land in your front, what we call, doors in next hours or days, gradually. And just don't do anything with it. Just plug and play it. Just plug it, connect a cable to the logistic, connect a cable to the Internet. You have to have a landline. If you don't have a landline, we check one by one. You will not receive your Unit. You have to wait till we check. It's important you have a... If you have a high speed cables, Internet connection at home, (2:06) it's perfect for us. If you have a problem in connecting using Wi-Fi, at the moment we prefer to... for the first 100 or 200 to connect the people with landline, that we can see our problems. Wi-Fi always have problems, in and out, and it can cause... When we set up our backup structure, then we handle the people with the Wi-Fi, but it's normal.

R: To be clear about that, do people play the game through the Units?

K- No, no, no.

R: They use their own Internet service to play the game.

K- They use their own Internet. Don't touch these things. Just plug and play, this for us to create an infrastructure. You're literally one of the legs of a building. You're not the rooms in the building, you can do whatever you like in your rooms. But this is the foundation of the work and we have to reach 10,000 by next year. But we have to find a way to do it properly. And we need just a lot of help to get the first phase done. And thanks to one of the Knowledge Seekers, he brought a team of his expertise with us, with him to us, this weekend they're working on it. Now we, you will see a lot of things will move more speedily from now on, I hope.

Any other questions?

Q: ... I've been doing this with my pain and it is happening exactly the way he described. He being you, Mr. Keshe. I started doing it after he taught about clearing the lymph. I don't know how the idea came into my mind, but I felt that if I focused my thoughts and my energy on the place where I was feeling the pain, (2:08) connecting it to the STM, together with the emotion, something would happen. And that is exactly what has been happening to me. Whenever I feel the pain, I do this and it disappears immediately. Thank you Mr. Keshe for everything you are teaching us. May the Creator and the Universal Council always be with you.

K- Thank you. But you have to remember, not only putting it your emotion intention to, you have to pinpoint physically where that point is. You do the breathing one cycle of it, I mean one part of it is that, the other is you have to bring the muscle tissues in that position into action. It means, let's say, you have a pain in your knee, you contract the pain, you contract the muscle tissue. When you contract the muscle tissue, you have to breathe in. Let's say four counts or six counts. Then when you hold but you're not breathing, let's say four counts, you still hold the tightness. And then when you let the muscle go, you breathe out. Your breathe out should be always more than your breathe in because you're taking the pain out. And then you need that gap of 2-3 points what you call it, counts at the end of when you breathe out to bring balance to the point. And that point at this time when you're breathing in and you're breathing out you bring the concentration of emotion to the same place. Now you tell him where it is, that contraction gives him the address where the emotion has to go, where the energy has put to the Soul of the muscle tissue there. All these steps. This is how it works.

This is how we could lose our leg and grow it back. But that's another technique. (2:10) It goes, not just thinking. You... you have a pain in your joint, let's say in your elbow. Your muscle tissue in that elbow, where it is, you contract. You say this is where I would ... you put an address on it. And then in that contraction, when you contract, you breathe in. You have to breathe in, because now you're changing the dimension of the forces, fields, lymph in that point. And then you hold it. That holding time is handing over, switching, getting the pain, releasing the pain. And then you breathe out. Because you collected the pain, pain has more energy than when you're breathing in. So if you count for six or four counts of one, two, three, four, and you hold it for one or two, four, and

then you breathe out six because you absorb more energy, you have to get more out, otherwise it stays in. And then you leave two seconds or two counts or three counts at the end that it goes. You can do this with anything.

If you are men and you have a problem with your, God knows, private part, understand how to use your muscles, then you can become like a 18 year old. If you are a 60 year old and you cannot, 70 year old, you cannot walk. You have a pain in your hip, try to contract the hip, but breathe into it. Tell him where you want it, there's no you're sending a letter out when he's got no address. You contract the muscle tissue where it's a pain, and you breathe in so the lymph knows, this is where I have to work. With the breathing in, the energy in the blood goes to that position. You hold hand over time, and then you breathe out, you take the pain out, and then you hold. (2:12) Body physiology with the emotion, but you have to give the emotion, this is what I want to happen. It's not just by breathing, you're just doing another exercise. Then the, what we call, melanin and myelin, in that position, bring the energy to change the Soul. That's where it is, the emotion and physicality meet each other. And if you know what to do, how to do it, put the emotion to it, you can, you haven't walked for 20 years, you walk in 20 minutes.

Any other question?

R: Um, do you think in that situation it, would it be better to work in silence, or to work with certain music or other types of influences?

K- No. You can do it walking in jungle...

R: It is whatever works at the time, whatever you need at the time.

K- But you have to do it repetitively to clean out. You'll find out for example you can't hold more than five, two counts three counts. And then next time will be three four counts, a week later be five or ten counts, because the pain is gone now there is more flexibility. It doesn't happen magic, sometimes does, but it needs working on, it needs to be done. You can even do it with your heart, you can do it with your... any part of your body. If you are... if you look, take a picture of yourself, (from the)side. ?? Not just eyes, stand up, take a picture. Can someone take a picture of you from your side while you're not paying attention, and then watch how your tip of your shoulders are aligned with each other with your neck. (2:14) If it's folded forward, it means you're under mental pressure, bring it back, open the chest air intake changes air intake, changes and then you bring your breathing to the air intake, and then you feel, I feel better. I have no emotional problem, my body (pain) goes away, on its own direction. We can do a lot, because we don't understand it we are trapped into it. You can live hundreds of years, you feed yourself.

Any other question?

Q: ... No one has a landline in rural areas but connects to the Internet with a router, or data SIM card. There may be a dish to concentrate the signal. Would that be sufficient?

At the present time the signal does reduce and Zoom room connection is lost and most of the time connects again. Do we have to have a connection that is never lost, is that possible?

K- At the moment yes, at the moment for us yes, but in the future. Because when these things expands to thousands they monitor all the time, how long it's come, when it comes. I mean you are a fantastic person to give a Unit to Rick, but you always have a cut out, because you have problem where you live, you're a nightmare for us at the moment. But once we put the what we call, Cosmic Ray Antennas we can do whatever you like, you just throw the Antenna or what you call it, routers away, because the connection is made with everyone. This is the process of development, you just got to bear with us. At the moment we need a fixed line, high speed, that we can test our systems and then gradually, yes. (2:16)

Q: ... Respected Professor Keshe, given how disruptive plasma science and its technologies are, it is necessary to also lead an artistic movement such as postmodern week. This event could take place concurrently with the October 23rd 24th congress in Switzerland and thus promote and invite the great influencers in literature and the visual arts from all nations to encourage them to produce art for these new times of Plasma Science in people's daily lives. It is not enough to start to aspire to be at the forefront of science, nor will it make sense if it is not also at the forefront in literature, visual arts and all other arts.

K- You have to understand in a number of European countries, if in your thesis in universities, in your, what you refer to, if you refer to Keshe Foundation, your thesis will be rejected, you don't get your PhD. It's a law. The same law might give them 30 Coins and say you're going to spend 30,000 but you have to pay your taxes. They grab it. We know what we are doing. Just leave it to us. We use the greed of the Man. And then you see how fast everything Keshe Foundation says and does is correct, because I get my 30,000. You're a member of the military forces, you get none. You work in defense technology, arms, you get none. We'll find out, we see it. And then this is a disadvantage. (2:18) If you're a family of a military you receive none. Your neighbor gets 100,000 Coins a year. Now you understand how it works.

Q: ... In 1558 Peter Bruegel painted the landscape with the fall of Icarus a famous story from Greek mythology. The narrative power of this work was able to give longevity to the myth to this day. Moving from the 16th to the 20th, (actually 21st century), we have a group of intellectuals in Brazil leading the week of 22, which has influenced artistic Creation in the country to this day. Maybe he was, maybe that was in the 20th century. And then we have other information about what about using for example Gans and painting and...

K- We've done that, we have a lot of painting still sitting with us. ...

R: But what if it was over widespread so to speak and...

K- Actually the thing is the whole Foundation base work for the new technology is set. Our Chinese operation is extensively expanding in next 12 months. Then we have the Coins and these ONN Units expanding heavily. It's time for the technology to emerge and once people get paid money for it, they agree with it, it becomes 'to know.' We know what we are doing, don't worry. All you need to do to your husband is, you know, you hate Keshe Foundation, you can go now and sign Peace Treaty and say, "I want to be a member of the association" and get your 30 Coins. (2:20) Don't do anything. This year doesn't, you can do next year, you have 60. Because what you haven't claimed, this now is gone. It's next year, it's not there. If you are, if you're 64, 65, 60, you haven't claimed, it's gone. But if you're 60 and get 40 Coins, in a year time, 40 Coins can give you a lot of things, because now it gets accepted with more people. Yeah? So, then the technology is accepted because I get money from it. You understand? This is the habit of Man. And you have to sign every year, otherwise your Coin doesn't come out that year. Then you understand. A lot of people do fake signing. But there is attached, you sign Peace Treaty and you sign to the Foundation and this is how doctors become doctors, and sworn to secrecy, because I accept it, I do it... We know how to use the greed of the Man to change the mind of the Man.

Q: ... Thank you. Good evening.

K- Are you on Planet Zeus?

Q: Yeah, what can I do? Mr. Keshe, if I want to understand the breathing system, (2:22) is it like what we've done before with the patches? The pain is a strong source of energy and the patches is the low...

K- That's a physical, that's a physical method, now you can do it yourself, you don't need that way.

Q: Exactly, so you are we are using the breathing, which is going inside and holding the breathing for it to reduce the strength of the matter state to become Nano, in a way? And we're holding the pen and thinking about the point of the pain as a strong plasma, strong plasma always gives to the weaker plasma. So, I'm thinking in that way.

K- Yeah. You see, psychologically on the emotion side when you hold your breath is a panic, and panic brings weakness, and that's the time when you take the energy from the point. You understand? This is the way it works.

K- ... Dean, you have one question, five minutes.

Q: ... I've got one question one quick question, would be the ONN Units, how are they going to be linked, that they will I presume are linked to world events at the moment because this is a very significant move by the Foundation.

K- What do you mean?

Q: What I mean is like all the hostilities and everything that we see taking place on the planet right now and all the things directed towards Iran and everything, these Units are designed to bring in a structure to bring peace to humanity and are very powerful individuals on the planet aware of this... (2:24)

K- Let me, let me explain to you something a far distance, but not very far. At the moment we use these ONN's. In the coming time those of you who became Satellite (Souls) you take place, you'll take over this position of ONN's. Those of you who, because your brain is another computer, put it that way. Once we established the ONN through physical method, then we established the, what we call, the Cosmic Ray. The next step is what we have, we set up as the UBESUS, the Head Units. And then once your brain gets tuned to it connects direct. Those of you who wanted to become Satellite, many of you registered for it. Those of you are members of the Universal Council. You all get into this position. Set up. It's time to deliver. You become the ONN's.

Q: Then when that happens then Mr. Keshe, then it's a total game changer because those people are responsible and they have the Ethos of the Foundation. So it's a total game changer.

K- Yes, this is why members of Universal Council volunteer themselves to serve. They're not chosen. The Soul is already set for that purpose.

Thank you for today. Thank you very much. See you next week. And in the next couple of weeks, once our team in the background are ready, (2:26) we call a date for that meeting of you who's registered to be on the first lot on the Cosmic Ray remote system individuals, which is now more or less operational. Please, please, those of you who received the ONN's in your packages, in your posts, in the coming days and weeks, do not announce it. Do not make yourself a target. Just plug it, we know where you are. We'll see your system coming online, our people watching, they know what it is. And if you have a breakdown, let us know. If something happens, you're in trouble, you lose it. Let us know, that we understand, you are aware of it. Thank you very much and see you next week. And I hope we have a fantastic time next week.

R: And will next week be at the 6 p.m. time?

K- No, no, the normal time. This time was, yeah, this time the reason we changed it was because of this court case. Now you know. The reason has been all to do with this evolution, with this court case, which has taken five years to come into the courts now. The judge has issued the whole, what you call it, the search and international warrant, the rest which comes with it, then we move on. Thank you very much indeed, and see you next week.

R: ... (2:28) << Message from Universal Council. >> The first time I say thank you so much, Mr. Keshe, for your permanent work, and your knowledge and love you give to us. Thank you for that. Second, invite to the people, the all communities, please ask to your Soul to apply for be part of the Universal Council because need one people represent for

each community in any language. So one for the country, I think. And next you say thank you so much beautiful Soul because we are the Soul of peace, and you give unconditionally, you Soul, all time, freely for achieved peace. And in that direction, I invite daily to 9pm Central European Summer Time to elevate the Soul of the world leaders. In every nation, in all communities, all communities, scientist community, religious leaders, I think artists, leaders, all leaders, all communities, to work as one Soul, in one direction, to achieve peace, (2:30) as One Nation, One Planet, One Race. In that moment, it's possible to unify our Souls. In that meeting, please connect your Soul of Physicality, to your Soul, to expand, to unify all beings in existence. Pay ?? attention to that wish for one minute. Thank you.

652 KSW – July 23rd, 2026

End
