

654th Knowledge Seekers Workshop August 6, 2026

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

10 Keshe Coin (KC) gifted to KS - honor of Mr. Keshe birthday; KF Association Austria; Register without fee; Need country, tax ID number, address of tax office; 10% taxes to Government - have to register to receive - acceptance & collaboration; What percentage can pay in KC; Hospitals using T - escalate hundreds of millions for governments; Water cleanup, medical application, etc; List of jobs - research centers China; Internal coin only for members; Connect to stock markets - production of materials, rare Earth materials; Buy products KF China website - KF resellers - KF Store; Register companies into KF Association; Everything transparent - fulfilling promise; Receive fields & energy from Space and convert to body - together with STP - muscle tissues, legs, bones, etc; Central energy control - STM - brain controls P; Soul connects to U - like center of Earth - layers; STM has same pattern as Soul of Solar System (SS), Galaxy, etc; Energy manifests P at edge of SS - goes back to center - like rain cycle; We're created from interaction with Earth, like 2 magnets - field flow between - creates separation; M fields of Earth pulls out fields of Soul - get legs; Distance from Earth - length body; Body shape - field interactions between STM & Soul of Planet & Inertia of materials beneath us & G core Earth; Cells - same structure as STM - same pattern creates shape; Interaction with Universal Energy (UE); Cell Souls interact with environment creates shape of kidney, liver, etc; Transmute - connect to destination - cut GM field of Earth; Soul becomes free; What death is; Enough energy reverse gravity - anti-gravity - flight; Do when sleep- keep anchored to P; Other side beautiful - commit suicide; Suicide forbidden - Soul not matured - won't function properly; Death at birth - Soul has matured; Transmute before death; Detach from planet; Expand STM over Cell Souls - envelop P take with; How KC benefits governments; Absolute Zero - minus 273 degrees - only matter stops - M fields - not affected by temperature or pressure; Gans - temperature independent - work on Energy; Travel center of Earth through Soul - embed P - see with eyes; Understand Ethos of Mitra; Persia - biggest crime to lie; Muslims - made killing; How lying diverts fields; Understand details; Detachment - move P; Integrate knowledge; Reach heart of Creator - instantly; Restrictions on speed; Science listens KF teachings - change theories; No time; Soul always same; Body - systems getting rid of & storing energy - Kidney & liver, etc; STM has same structures on Energy level; SS same - Jupiter & Saturn capture things & Earth confirms existence; Creator & Creation same; 80% energy outside - SS energy from galaxy; SS - wobbly jelly; Earth's fields affects Soul; Restrictions in thinking; What is within Creator is within created - intelligence, justice, love; Detach from Earth - connected UE; Bring balance & justice between STM, STP P - travel U - instantly reach heart of Creator; 10 KC gift to KS; Governments claim free money; New technologies implemented; KS spread KC; KF Store & website being updated; Shopify added - credit cards; Re-register; Donations; Distribution KC - monitor not get addicted, become lazy, abuse; Block - drugs and trafficking, etc; Teach humanity - receive fields; Develop Space T; ONN units connected; Testimonial - breathing; Earth (body), Wind (breathe), Fire (Soul); Ignite Fire; Learn how to position tongue; We provide knowledge - teach yourselves by practicing; Japan Med Beds; T release - 100 year shortcut; Trump - fixed price Cryptocurrency Coin; Listen to KF; Register without fee; Not billions in bribes for

FDA & CE certificates - have Chinese certificate; Fly to China - get 150 Gans medicines; Governments - sign Peace Treaty - receive KC; Members of Military, illegal activities, do not claim KC; KC has Soul - gift for Soul of Humanity - punishment harsh; National KF Associations - created on model of Austria; Do not allow one person to dominate others in KF Associations - strict rules; All in decision making; Deception - pay back worse; KS who betrayed KF - horrible life; We made you; Publish list of those deviated; Israeli & Belgian passports denied; Never said sound is way to transmute; Owls hear Soul departure; See energy released from body - 18 Hiroshima bombs; Signs when Soul ready to depart; Empty Box of U; T to measure strength of plasma; Cosmic Stone; Start playing with fields; Counterinsurgency - US in Iran - Media lies about casualties; Gives long list - damages of war; America lost over 15,000 active soldiers & 35,000 injured; Warning to Trump & Netanyahu - all Iranian missiles targeted at one point; China - no state of Israel left - why war stopped; Trump and family making billions off war; Iran collecting billions in taxes in Hormuz from American ships; Government changed by own people; Betrayal by Iranian leaders - US passports; Expect Iranian uprising after war; Israelis killing Palestinians - selling organs - synagogues; US out of missiles to defend itself - China can quickly defeat them; American AI systems are Chinese; KS from Palestinian camp - tell story; About Messiah August 2nd; Messiah has spoken - they backed down; October 28th - Trump will announce son-in-law as Messiah; They listen to KF; Name for KC remains; Robots registering; Not many Jews will be left - Godless people - isolating Jews; 5 years to register 9 billion; Aliens get KC; Robots as wives; Other planets - no money; Free to explore U - add to knowledge; Americans Israelis purposely bombed Iranian schools, universities, research centers, kill scientists - make nation illiterate - to abuse; Soldiers have to let go of killing; We wish you a beautiful time.

ENGLISH TRANSCRIPTION

(:13)

K- Thank you very much. Good morning, good day to you as usual, wherever, whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back. We're going to divert a little bit in the first 5 or 10 minutes of teaching of today, to bring us a very important information to all Knowledge Seekers, that it will bring everything we said to the next step, and then we go back to teach. (:14)

As you heard in the Intro, the introduction of Keshe Foundation to governments and collaboration, many of you have received a gift on my birthday on Sunday as you wished me a beautiful birthday day from last week. I returned your love and your kindness with offering all you Knowledge Seekers (KS) because many of you have already received a email, and many of you will receive more of it in the coming days as a gift of my birthday to all of you. In this message we ask you first to sign into the Keshe Foundation Association in Austria that makes you eligible to receive the Coin. If you haven't registered into the Keshe Foundation Austria Association, we cannot give you the Coin. We have sorted and we are sorting the situation that many of you cannot pay to become a

member to make it in a way available for those who cannot due to like governments or place where you are and the facility doesn't exist like in Africa and some Asian countries and some American, South American countries, that you don't need to pay to be registered. We are facilitating that hopefully should be cleared. That you can register for the association.

And once you register for the association, you go into the game, and then in the game, you send us your, not a Keshe (?? Cash) Coin, not a CC Coin, but KC Coin, Keshe Coin, your account number. Please send us the, the QR code, don't send me the digit, because it takes a long time to put your digits in. (:16) And we send you a gift. The first gift is, in a way, 10 Coins to each one of you who goes through the process on this. But, as we said, you heard in the beginning, the tape of the Intro today, you have to send us which authority, which government, and what is your tax number to the government. You all were paid taxes, you have a social security, you have a tax association, somewhere you pay taxes to your government. You have to provide us with that tax number. In that process, we send a message to your government, to tax office where you pay, that on you registering for the Coin, your government has become entitled to receive 100 Coin, 100,000 for your registration, which means they can accept the Coin and be registered by the Keshe Association. We tell them the procedure they have to follow and if let's say 50 of you, 20 of you are from let's say England, or China or whatever, your government receives literally 2 million Euro in Coins.

This brings the acceptance in, and once they accept to receive the Coins, it brings the collaboration between you and your government, and you declare your Coin you received to your government. But as long as you don't spend the Coin, you don't pay taxes on it, you can keep it in your wallet. And this was the purpose we send this out. We need you to give us your tax registration, and where you pay it to. That we get in touch with your government, with your tax office and say we have such a person who has registered with us as part of our promise. (:18) We make available in the next 10 years 10 Coins per year for this person who has registered and they'll be receiving 30 Coins a year. And the 10 Coins you receive this year and the request we send to you does not count as part of the 30 Coins. So this year you will receive the 30 Coins in association, around maybe 2, 2.5, or 3 Coins per month to cover it. We don't release all 30 Coins in one go. We release to you on a systematic way.

The system will be set up in the background that on a given time, randomly, we don't make you addict to ?? wait for the first of the month, then play games the way people do with their lives. Once a month you receive allocation that it covers you with 30 Coins a year. When you spend this Coin, you'll transfer how much you spend the Coin and what you did with it and become your income you declare it if they ask you to pay tax maybe 20% 10% you pay back the rest of the Coin you keep. At the same time the Keshe Foundation Store which hopefully open in next few days and gradually in the next few weeks you will see you can pay option on the Coin part of the products, or some of the products can be for your services can be fully paid with the Coin into the Keshe Coin section of the Game. Keshe Foundation will open its own account on the game and you

pay to that and then the people responsible and the system in the background check what you paid, or partially is a Coin, partially is payment.

And the same goes with the government. We offer services to government that they can pay with the Coins they receive from you or on your behalf when you registered. (:20) So this week is important to us. Many of you just sent us the number of your KC account. Please send us QR code. It's easier for us to handle. It's there on the site. And secondly, provide us with the authorities and your tax number, that we can send a message to the authorities, that they're entitled to a hundred thousand per year registration in the next 10 years. And if a thousand people register and the government receives 10,000 per person this year, it's a lot of money. Gradually as the systems and technologies become available, our services becomes available to the governments, which means they can, they want to open a hospital, they want to use our technology (T), they don't need to go and find a budget in their cash accounts of the government, they can pay us with our Coin. And these Coins will be used again in the system to in a way, pay back to you and run the services.

So collaborate with us. You register, if you don't have, if you have not registered with the Association in Austria, we cannot release your Coin. You have to tell us you have signed and the references were rechecked. You become entitled for the Keshe Coin and at the same time you have to provide us your tax detail and the authorities you pay to references or whatever. And then we start a process collaboration between the governments you registering and the beginning of the Keshe Coin become international structure in the worldwide structure of the Keshe Foundation.

If we receive a thousand members registration from you from the invitations we sent you, then if let's say 50 or 100 of you from the United States, (:22) we inform the United Treasury, or the states you are in that they're entitled to this 100,000 per registration over the next 10 years. So you can see how it escalates into 10 million, hundreds of millions for governments, especially third world nations. We negotiate between countries, we have already started, that they accept Keshe Coin in partial payment for services, or full services. Systems like water cleanup, systems like using Keshe Foundation Internet system for medical application. We can do this because we have the power to do it. The technology is getting set up.

This week in the new website reopening, you will see a list of jobs, which we are offering for the research centers in China. Expertise and the field of expertise we need. If you have, contact us back and then we structure you. We interview, understanding you can, and moving you into Chinese safe center to start working from 1st of January or 1st month of January, February of next year. We have moved into directly what we promised and the Keshe Coin has become the backbone of the work. Please follow. Many of you have received the offer, the gift of the Coin. Now you know it's 10 Coins. But you need to give us feedback that we can allocate. You have to register with the Association that makes you eligible to use the Coin. It's an internal Coin. And then we get your governments to sign into the Keshe Foundation Association the same, that they can use the allocation and claim the 100,000 per individual registered. (:24)

Remember one thing, once you sign yourself in this system you can sign your wife, your daughters, your children, your grandchildren with their authorization into the system, and they start receiving the 30 Coin, 10 Coin, 20 Coin, 50 Coin, your parents, your grandparents. At this moment of time, it might not be able for you to value much, but in the coming time, as we connect the Keshe Coin to stock market valuation of the Keshe Foundation, organizations owned in Markray cooperation and in Shanghai cooperation, and in connection to production of the materials, rare Earth materials which we produce, it gains value. It's very much like when the Bitcoin came in, a lot of people dug it and they put it away and they forgot about it and now that it's gained values of 50, 60, 100 thousand, they're all looking for it.

Now you are in the same position. Claim it, store it, this year you might be able to spend a thousand of it, next year ten thousand of it, and then gradually build up the situation. And this is for your benefit, your family benefit. So you increase. But every member of your family has to register with the Keshe Foundation Association. Your parents. And for the first time, as I said, on the Keshe Foundation Store opening, you get access to the Chinese website of the Keshe Foundation gradually in the next few weeks. You can buy a product directly from Chinese side. We have many Knowledge Seekers which produce products and they, what you call, they become resellers of the Keshe Foundation. You can ask our team to connect your shop to our shop and we arrange services that in that place part of your products can be in a way paid by Keshe Coin and we back you to do it. (:26) You have companies who can benefit by the Keshe Coin. Register your companies again. You work for associations, register yourself that we can connect you, your companies into Keshe Coin and you can ask your staff to register for a Keshe Coin. Follow the same system.

We have to have them to register at the Association that they are part of the Keshe Foundation structure. We cannot give Coins to people who are not registered. And secondly, we need to know which authorities, your company, your loved ones, your institute works that claims the Coin, that we pay directly within a few weeks, or whatever, the Coins to the authorities. It's their treasury. And we follow it, how they spend it, who they spend it with, and it doesn't get gobbled up because everything is transparent. I thank you for being with us, supporting us, and now we entered what we promised. Your registration, with what we gifted you, brings your government, your nation, as part of the Keshe Foundation, to claim, to bring the structure in, that we can move to the next step. I thank you for all your support for past years, and now we entered, working as One Nation, One Planet, One Race. Thank you very much.

Going back into the structure of the teaching of the past months and weeks, we have understood that we work within the structure of our body, we receive fields, we receive energy from the Space. We convert this energy into many things in our body. (:28) Some in conjunction with the Spirit of the Man (STP) changes to matter structure of the Man, your muscle tissue, your legs, your bones. But one thing is important for us to understand deeper. As we said and as we all understood that every human body has a central energy control. We call it a Soul. We call it the Soul of the Man (STM). In a way, the energy

center. We always considered our brain to be the center of the control. But this is the physical control. The energy control which connects us to the Universe (U) comes within the center of that one. And that is our Soul.

In a way, our Soul is the center of the planet as we see on Earth and then the layers on top of it is magma and the surface and the rest of it. But in essence the Soul in the center is the same as the Soul of a star, Soul of the galaxy, the central center of energy and the rest is built on it. In the galaxies we see more and more stars on the fringes getting created, they gain, go back to the center and they do the same. We see this with the operation of the Earth, with its materials, the rain going up and falling back, but in a way it's the energy from the center which creates this motion. So it's the same with the brain of the Man. The STM is in the center, central energy, and the brain of the Man and the body of the Man in interaction with the physical condition of the Earth, it creates us as you've seen when you put two magnets together, there's a field flow between each other and it's got a tail to get to the other one. That pull of the fields, the separation you see, is the same as our legs now because the other magnets is the center of the Earth and we are connected to it, and it's our field of our Soul connects to it, (:30) stretches down to it, creates the body of the Man, how far you are from it. So we understand this principle.

And now we understand that the structure of the physicality (P) of the body of the Man, as we see even on the screen, there is in the center of the brain, (I can use this very nicely actually). You see your brain, your Soul sits somewhere I just marked, and the Soul of the planet is somewhere down here. So as it gets pulled, it creates your shape. If it wasn't there, your Soul stays on its own and it has no connection and it has no interaction. So what is important for us to understand this process?

And that we understand further, that if you have this energy center, which interaction of its field with the field of the Earth and the Inertia of the material beneath us, creates the shape of the Man, then this energy center, what we call, the STM, has as we understood, the same structure in every cell of the Man. Every cell of the Man has a Soul, has a center. And how its position dictates what it makes the shape of. The position of the STM on the top in the center of the brain and in interaction with the Inertia and the central gravitational core of the Earth, pulls the fields and in interaction with the universal energy makes the body of the Man. So if you understood this, you understand every Soul, every cell has a Soul and interaction of that Soul in the environment creates the shape of the kidney, creates the shape of the liver, it creates the shape of the lung of the Man. (:32)

And once we understand this, we come to another point, which is the most important thing all you as Knowledge Seekers, we've been trying to achieve, to transmute. So you have to learn, if you create or connect to a field somewhere in a, what we call, (somehow my screen has... Okay, I'll go back to it again). If you place the, let's say, the Soul of the position you want to go to on this side, then all you need to do is to transmute, in balance to that point. You change the gravitational magnetic (GM) field of the Earth to create you the long body of the Man in his reaction to it, to another position. If you understand this, it gives you an amazing power. How you detach yourself from connection to this earthly,

what we call, gravitational magnetic fields, that now it makes your Soul free, makes your central energy free and can go to any dimension. This is what we do when we die. We cut off the fields which are connected to the Inertia and the gravitational magnetic field of the Earth. That's all we do. When you've done that, your body gets ready to do that, that separation, then the energy, what we call, the STM, is free. That's what death is. Our body gathers enough energy to reverse what we call, anti-gravity for our Soul. That's what death is, there is no other meaning to it, because then we have no connection with it. We have chosen the same word again, different words for the same thing. (:34)

We are searching to create a flying machine, we are searching to build the system we call, anti-gravity, to separate us from, to create a distance from us, to detach us that we can fly without connecting to the planet, without this gravitational field. This is what our body does. We fuel our reactors, we build the fields that the system can interact with the field of the Earth and moves away, becomes detached from it. This is what a life is. Our life, our cycle of life. With eating food, with killing all these animals, we're using 80% of the field of the Universe is to pop (pump) up the energy that the Soul can be detached, take off, we call it, anti-gravity system. The STM has no connection to the physicality of this Earth and you transmute. We know how to do this and we are good at doing this with what we do with our body. We go to sleep and we create that field of separation just about. We are just the early learners, practicing for 60, 70, 80 years, that when I take off what I do, but I still keep anchor to my physicality.

I've said many times, if you knew how beautiful the Universe is, if you knew what freedom is given to Man to transmute, all of you would have committed suicide. The reason suicide is forbidden to mankind is that the body has not matured enough to find its place in the Space. (:36) It's just sending a Man with one leg out to do a marathon race for a lifetime of the energy of the STM. You cannot send a partially part made finished goods for somebody to use it and expect to function. This is the same. This is why we forbid suicide. Because the Soul will go in with one limb, two limbs missing. Those who are born and die, that they have reached that point during the womb of the mother, because the cycle of life doesn't start from the point you come out of the womb. It is started from the minute your Soul is created within the womb. The cycle of receiving the energies of the Universe to become detached from the field of the Earth is already established within the womb of the mother.

We cry that they had an unborn child or the child born after. It's the beauty of the life. The Soul has matured detached from this position. You suffer for 80 years, 100 years, and you pay more to be here, more, to delay that separation, that take-off, which you yearn for all your life. You go and you pay to the mosque, you go and pay to the rabbi, to free yourself, to elevate yourself, you become charitable, that I get a better position. But you don't understand your cycle of life, connected to how you detach yourself from the dimension (D) of physicality of the Soul of this planet that makes you free to fly. You don't need to die to transmute. You do that every night you sleep. The minute the system 'kicks in,' the energy balance between the Soul of Physicality (STP) and the STM balances itself. The Soul is ?? waloo. You hold on to the field on this side, I come back. (:38)

Now we understand the process of the Creation. Now we have to understand how to create that detachment, which I keep on talking about, to the field of this planet. But there is a game you can play. You cannot commit suicide and release the Soul, because the Soul is connected to the Soul of the cells of the body of the Man. You create a field that expands and the physicality is enveloped by the field of the Soul. Because when you sleep, the Soul goes on one track. Does not take the physicality with it, because it cannot envelop it to take it with. If you can create a field that envelops the whole of the physicality, you can travel with the speed of light through the time. Time of the fields, this is instantaneous. Now you understand more, why we teach this way. Why we bring the knowledge to Man on the way that you stand, understand step by step.

As part of what I just explained previously with the Coins. When your government gets with us, they receive a Coin. They can use the Coin for free education of the new knowledge to their students. Now we come into teaching how the STM through what we call, the funds we made available to your government. To understand how gradually Man walks away as a nation from killing and moves into dimension of the world of the energy, magnetic fields and everything else.

If you are a nuclear physicist like me, and you studied the structure of the atomic structure, nuclear structure, magnetic field structure, they tell you one piece of rubbish, which is fact rubbish, but they don't tell you the others, which they haven't understood. (:40) In the world of physics today, this is what I threw at my professors and people who talked to me when I was a early twenties and teenager, and nobody could answer me. And I explained this by showing it in the nuclear reactors at Queen Mary College to my professor, and he said, "Mehran, walk away. You know too much. We have no answer." And after 40 years, I put the same question to you Knowledge Seekers and you (will) understand how much you've been, not misguided, but never understood.

The world of the Creation works on the matter state. And our scientists tell us one thing. If you go to -273 degrees, absolute zero, everything stops. Yes, correct. But they don't tell you something. Magnetic fields carries on. You cannot freeze magnetic fields. The whole Universe has places below minus hundred, 270 degrees. Now you understand where the knowledge has been misplaced. And this is where you work with the knowledge of the Keshe Foundation. Cosmic Ray (CR) Technology, Plasma Technology, and you have answer for the other half. You go through all the literatures. You go through all technologies of Man, which has gone up to now. You go to fields in the center of the reactors.

We see now China is building a temperature of hundreds of thousands of degrees, the center of the Sun to give you a fusion and a free energy, which is still again magnetic fields. The same when the scientists tell us at -273 nothing moves, physically everything stops. (:42) Yes, matter stops, magnetic field does not. World of Creation feeds you even at -273°C. World of Creation still feeds you at 100,000 degrees, billions of degrees. Because magnetic fields are never touched by temperature, by pressure. Life exists in the bottom of the oceans, hundreds of thousands of meters below, because those animals

don't have the physical body. It's a Gans body, and it's magnetic field, and it interacts with the fields of it. Does not need light, does not need pressure, does not need anything else. This is part of the world of physics, which has never been explained. And this is the battle I had with the world of the science for a long time. You tell us everything stops, all motion stops at -273, but magnetic fields doesn't stop. Your Soul does not stop working. Magnetic field, the Gans's are temperature independent. They work without interaction of the fields, does not matter in the energy fields, and not in the matter state of manifestation.

Now you understand where we are going for, and what we are trying to explain to you. Your Soul can take place, its place on the separation from the STM, or you decide, I want to go and see what's in the center of the Earth through your Soul, because it has temperature, doesn't affect it. You can go into the deepest oceans, on the highest, deepest pressures, and the most frozen places in the Universe, your Soul still exists. (:44) Because physicality has dimension of the restriction of its Inertia, its field matter state. Once you become educated how to expand your Soul and embed your body within it, you can take your physicality for a tour of the center of the Earth, because the eyes shall see, as is the Soul transparent from inside, and then I've been there, I went in the ocean, I went into the center of the Earth, of course, it means you have managed to embed the STP inside, with the physicality inside the STM.

Now you understand why we are taking you this way, why every week, step by step, we're peeling the knowledge of the Man to get to the center, to his Creator, to understand the Ethos of Mitra. Every diversion, talk good, think good, act good, diverts you from that position. If you go back to the history of Iran, the biggest crime ever, today they hang people for killing. The biggest crime in the culture of Iran has been, lying. Bigger crime than killing. Till the Muslims got their way into Iran and they made a killing as a way of living. Because when you lie, you create a field that diverts. It's just little push, pushing your Soul away from the direction to reach the Creator, position to the Creator. It's that little jet fires to divert your aircraft, or your Soul in the path to its Creator. (:46)

Now you understand. To lie you need to create a field and that field interacts with the Soul and the Soul has to move away from it, the physicality and everything else. Now you see how things are connected to each other. If once we understand these nitty-gritty's, these questions which is burning in the knowledge of the Man for centuries, then you understand how we can answer it now that we are opening the knowledge of the Creation. Next time somebody tells you everything stops at minus 273, you say no it doesn't, matter state does, but the fields exist, my Soul is that field, has no matter state. Then you understand Man can reach anywhere in the Universe through the dimension of his Soul.

Transmutation is not a dream. Transmutation is reality that you do every night and then you deny it because you never understood it. Now you understand it. Try to see if you can move the physicality, you have to be detached from the fields of this planet, that you can embed the fields of the motion and emotion of the physicality inside it. Then you find MaGrav positioning of the Soul in respect to the Soul of the planet, while the body is embedded within it.

Today's teaching is so in-depth, it brings and he has brought you new knowledge. Understand how to use it and bring it in conjunction with the rest of what we have taught you in the past. And see how quickly you as Knowledge Seekers will pass the understanding of the present science. (:48) And you become the true travelers. And then the most interesting thing is, as we go back to what has been said, in respect to the knowledge of the Man, you'll find out you can travel the Moon, the Mars, the other galaxies instantaneously, and you don't need to do as it was in the Star War, what, 9 and 6 and whatever else, to go and cross the Universe in one million years, in one year, and the rest of it. You can reach the corners of the Universe, you can reach the heart of the Creator, in seconds that you cannot even count, millionth of a second. Man puts restriction on the speed because again, he has expanded his knowledge a little bit, he can accept that much, but he cannot go further.

Up to recently, planet Earth and Universe was 4.5 billion. In the teaching I explained this impossibility. And now we see in the past year or two, science, listens to the Keshe Foundation, has changed the direction. Now the Universe is 13 billion. The Universe is much, much, much, much, much, much older than 13 billion. Then you understand, you can carry the Soul of the Creator (STC) and be as young as him, because there's no time. Time doesn't exist. It's only Man who's got busy with the rotation of this planet, and the age of it. Which has created for himself. The Soul is always as young as the day he was born. And it has the same systems as you have in your body. You have a kidney, you have a liver, you store energy, you take energy, clear energy. (:50) The Soul has the same system. He has a system which gathers the liquid, gathers the surplus energy, he has a system which creates as a storage and the rest.

When you want to see the function of your Soul, how it is, it's not just a ball of energy, look at the Solar System. He has a center, he has a planet which capture the outer boundary things, we call it, Jupiter and Saturn, and then we have the Earth, and the, which confirms the existence. So you see your Soul, and they all work together, and they all function in some one way or another, to create their position. Even your Soul, being a ball of energy, has the same system functionality, but in energy level, that in the matter state, he has kidney, clears materials, doesn't need, it takes energy from outside. Our Solar System (SS) doesn't get all its energy from the center. Where do you think all these materials come in, all the energies coming from the galaxies and from the Universe into us, just goes touches everything else except our system? No! The same as you and me take 80% of our energy from our environment, it's the same thing with our Solar System. It takes, regurgitates its own material, planets, meteorites and the rest, but it takes energy from outside because they dictate how they go.

If one day mankind sits outside and look at the planet Earth's magnetic field and look at the magnetic field of our solar system, you see it is like a wobbly jelly. It's not the way they tell you because depends which star, which galaxy, our planet and our galaxies interacting with. And we get ?? (woofed), the gravitational magnetic field of the Earth dragged the energy of the STM ?? engaged creates the physicality of the Man. (:52) The same thing happens to our solar system. The same thing happens to our Earth. There is no

exception. If the STM created the physicality of the Man by interacting his fields with the field of Inertia of the planet Earth, the same shape exists between our solar system and the central field of the galaxy. Are we part of the cell of the kidney of the solar system or this galaxy? That's why we see, they tell us, there are clusters of stars which behave that way. That cluster is a kidney. That cluster is the heart of the system. That cluster is one of the cells of the kidney because it has to be there because it absorbs energies or vitamin C or calcium which is too much in the blood of the Universe.

There is no difference in knowledge. It is only Man who has made restriction in understanding the totality of the creation. I made Man in the image of Myself. If Man has a kidney, if Man has a system to filter out what has been used, if the Man needs a heartbeat that he can circulate in the field of the, what we call, the energy of the Universe around, if the Man needs a digestion system, if the Man needs a lung to breathe in the environment exists, so the same functionality is within the STM, and the same functionalities within the structure of the Creator of the Man.

Now you understand, you have to take this shackle of restriction, because they tell you, and look beyond, and then you will see what we see as teachers. You become the teacher of your own Soul, you become the teacher of your own understanding of the World of the Creation. (:54) We are not here to make Prophets out of ourselves to become Messengers. We are not here to make profit to live in the luxuries of the world of the Universe. I made Man in the image of Myself. What is within me is within what I have created. Intelligence, justice, love. And that's what is the essence of Me as the Creator.

Now you understood more today about yourself. And what and how you attach yourself to this planet. And how you are connected to the field of the Universe. Try to understand how you can bring a balance and justice between your Soul and your STP and your physicality you'll travel the span of Universe in time that no one needs to walk 10, 20 or billions of years. Instantaneously you reach the heart of the Creator. We go for a break and we come back and we try to understand more about our own World of Creation in the future as time comes. Rick, would you take us for a break and we come back. (:56)

>> **BREAK** >> 654 KSW August 6th ... (1:09).

K- Doesn't he always have something to say? You're correct. Thank you very much. As I said, we try to bring this more and more. We showed you in the other videos of the Keshe Foundation regarding the Keshe Coin. What benefit has to you, when you have a new child. What you can have, when you have teenagers. And what you get, when you start

the cycle of life. And, as I said to other Knowledge Seekers, we respect our elderly. And we have given them the maximum Coin. Which means the time they serve the world, it's time to enjoy the world.

According to the insurance companies, 60% of the people die, (1:10) people who worked all their life, within 6 to 8 years from the time they retire. Because the worries of where the money comes from, what can I do? I used to have 2,000, now I have to live with 800. Half of the brain locked into poverty and survival. Now we give those a chance to enjoy. And this joy, as they get their pensions, connects to the government that it can support. And this is where the change comes in. This is where, from this week on, I gave a gift to humanity. You will understand how powerful the Keshe Coins will come in the coming weeks and months, as governments come claim their free money, what they can do with, and we trace them how they serve you. They will ask us for services, they will ask us for technologies to be invested, they pay with the Coins for us to be there, we'll be there. We serve through what we give, and then you understand how the change will come. It's now again, as we say, "The ball is in your court." You have to bring your government into play.

Last time when we gave patents to the government, you shout and howled, and a big percentage of Knowledge Seekers walked away, he's another one, now this time it's you who's going to bring your governments in. We give 10,000 of you, we'll bring 100 governments to come, and by the law of the greed of the nations, and governments, ?? they'll claim hundreds of millions. We have enough to support humanity for centuries to come. It's been set up that way. And we have a structure that, as I said to a guy, you can give them the ?? gold to your Soul to spend the money in the other planets and other Universes. And still get paid, (1:12) make a way by the energy, and not by killing and what we call, the fashion ?? goods.

A lot of you Knowledge Seekers have been trying to go to the Store and the Keshe Foundation website for past few weeks. The whole thing has gone, you won't see much difference on the website, especially because it's gone through a security checkup, changing, and titling the whole system. We had to do it, as all of us know, AI has become too clever and people use it for different kind of entering into websites and people email. So we had to close down, upgrade, secure that 'little AI boys' cannot play AI with us. And the same has gone with the shop. The store has been totally lifted to Shopify and you can pay with credit cards, you can pay with everything else and everything is re-categorized. A lot of things have been moved to the position. You need to re-register to be able to use in the system. And the whole structure has changed. All your donations go directly to one place. You have to talk to us if you make a big donation, how we arrange it. And for small donations you go and pay into the association, because that's where the fund at the moment donations can go. We separate it in a deep way very soon that we have the funds to be able to do. If you want to donate Coin to the Foundation, you go to the Keshe Foundation Coin and make it Foundation gift to the Foundation, the Keshe Coin, and we use it to give and provide other facilities for the whole structure.

Please work with us, hand in hand as you've done for years, to bring your governments into play. (1:14) I did not explain fully to you before now you understand how we use Keshe Coin to bring your governments, ask your companies to join KF and all the staff can benefit by it by registering and getting access to and gradually getting companies to use partial payment of the Coin, and the Coin in exchange for payment of the goods and products. How we succeed from now on is in the hand of you Knowledge Seekers, how you introduce your corner shopkeeper, your children, your schools, and universities, and governments into accepting a free gift. No Man has ever refused a free gift. And then, always tell them, it's like Bitcoin, in the future has value up to a thousand, it doesn't fluctuate. Secure, stable Coins are the future of humanity. It doesn't matter where you are, a thousand is a thousand. And you don't need to be rich to worry if it comes 10,000 tomorrow, I'm going to lose or 50, I'm going to gain. Either way.

So, understand our work and as we say, it's your turn. We've done our job. Our team is still settling things up. And it takes time. We have 3-4 different groups working in different parts of the Keshe Foundation websites, the Coin. And everything else of the Keshe Foundation and the team of IT is growing, step by step. More and more people, trying to cover all aspects of the Foundation work. And we are just at the infancy, we're testing. And we need your support. You signed for the Coin, you send us your QR code, you signed to Association, again you thought, "Oh, I receive a gift." This gift has an attachment to it. It's your job to give this gift to the others, your family, your nation, and even the shopkeeper around the corner. (1:16) When many people go in and he says to his customers, "If you get a Coin, it's free, you don't know it's going to be 10,000." You will see how many shoppers will add to it.

The biggest problem for us is to meet the traffic. And that's why we are doing it in a step at a time. Some of you Knowledge Seekers have received the gift since Sunday. And some of you will receive it. It's not that we don't love you more and we made a separation. It's just that our system needs to be tested. And the next lot, and the next lot will be receiving the gifts. And those of you who received a gift of 10 Coins, you still are entitled from 1st of January of 2027 to your 30 Coins. We don't give you all 30 in one go. We decide, but we cover the 30 over a month, that people don't become addicted. And stay there some months, you might not receive any. You say, "Oh, come up to the end of the year, I'll get it." Don't count on this Keshe Foundation. We look after you, that you don't become addicted to it.

This comes out of experience, not just trying to be nasty. And I explain to you why, how it comes. When I was a young boy, when I went to university, in the first months of my university, Iran went through a revolution. We were not sure what will be tomorrow. As usual being me, the thing is, I had to secure the future of me and my siblings, that if anything happens to Iran, we are stable. I went at that time, safest thing was to go into the investment property. And I bought buildings in Manchester, trying to guarantee the income supports the family, if the revolution goes belly up again and we get no money, as it happened in the beginning of the revolution. (1:18) And I sold this property after a few months with a very good profit. But after a year, it came back in the market. I went to see if I can buy a cheap back in. And I went in, the door was open. I went to the building, it

had a number of apartments. And I saw on the top floor a guy sitting with a bunch of other people's social books. That time the government gave you money monthly and you had a book you had to go to claim it from the post office. And I said to the guy, "What are you doing here, sitting here with all these books?" He said to me, "It's none of your business." I said, "Listen, I explained to him who I am and I said what I can do with it." He said, "This is the money I give drugs to people, and they leave the books and I cash to pay for my drugs."

And that became something that stayed with me, "Structure should not be that people rely on and then abuse it." This is a lot of wealth. And it takes people to understand, but they have to become independent, and not to give it to get into all sorts of problems. And for this reason, we don't create a pattern, that people rely on it. The youngsters say, "I don't need to work, because I get the Coin from the Keshe Foundation and the rest of it." We give, but we know how we're giving, and we're collecting, and we see how the pattern is, to make sure our Coins, our technology, is not used for abuse, drug trafficking, and drugs, and everything else which has become fashionable on this planet.

Gradually, as part of the structure of the Keshe Foundation, in the coming months and years, anybody who wants to receive the Coin has to go through a system structure which we set up, (1:20) as part of your family insurance, which many of you participated in, to guarantee you pay monthly, annually, and we get your cover. We cover you in a different way. So, these people have to go through all sorts of things that gradually it costs nothing but in a way, it's ?? like the game. You have to play the game we set up that were you to get, and this part of games is to make sure you're not addicted, you don't do things, and it creates a life you participate in the development of the humanity and not just, oh, I get the money I stay in bed. Don't forget you have to trust what you listen to in the teaching, and then through those processes of teaching we know how to, the way many of you paid us money to come in the Friday sessions, how to change the structure that everybody becomes a positive thinking, working person in the society of Man, walks away from any many, many other devious things we've seen happening.

In a way, you cannot sell your Coins to the guy to give you a joint for one shot. You'll understand very soon how we do it. As our team gets better in structuring it, we bring, we build these things together. That no Coin can be used for trafficking. ?? If we see the diversion of the flow of the Coins in certain direction, we start building straightaway blockage in it, because we can smell it. We can see we have a huge amount of experience to follow these patterns. I worked with the narcotic division of the British government for years, and I know quite a bit how to handle these things and don't allow the Keshe Foundation going to be used for these kind of activities. Then you see the others. You can smell it, and you can see it, and you can follow it. (1:22) And every protection we'll put in, that we don't create a lazy generation, we don't create people just there, I get it, what should I do with it, and they give it to me. Step by step, we don't create a world of more useless people. We create the people who can become useful in the running of the humanity, for space development and connection with the Universal Community.

I hope we can collectively now move this, from now on it's in your hand. You receive your Coins, you have to tell us where you pay your taxes. And which authority and what's your tax number, that first of all stays in our file. Secondly, we send a message that from today you are entitled and the videos you've seen will be given to your communities. Your tax people would you like to deny 100,000 Coins? Today might not worth much, in the future it's 100,000, in the next two years, five years. And you'll see governments come to register because they want these hundreds of thousands of Coins which you have received. And we tell them you receive 10 Coins, you can go and tax them if they spend it, and you'll see how it comes. Because the percentage doesn't change, the value will stay steady and then we'll see stability in the nations.

Any questions?

R: Thank you Mr. Keshe. One of the questions that is popping up is where is the QR code that you speak of?

K- You go to the game, you have to register in the game. On the left hand side you have two circles. The very far circle on the top is the KC Coin. (1:24) Because it's what you call, digital Coin. It gives all of you have a number. You see it, you send me the numbers, but near to it, around that area, you see a QR code. Send us that QR code. Because systems transfer from one system to another. And it becomes very hard to type your things and transfer it into another. It's very difficult. And initially we do this for the first few hundreds, but the rest is automatic screening. It's in your system. You have to look for it, find it. You have one number for receiving and one number for sending. And that's your, your number. That you receive funds and where you send the funds. And that's all it needs to be.

R: I don't see a QR code anywhere in the game.

K- It should be. Some people have sent it to us. I've seen a few QR codes has been sent back. I'll ask the people responsible for making it prominent, that you can see it. And it should be easy to access. As I said, there's a lot of teething going on. This is why we try to do the large number, but a small amount of Knowledge Seekers. And then it goes to the next step. These are the things which, that's why we find out where the problems are, what is the teething, and this is one of them. I'm sure our team in the background are listening to it and somehow they'll make it easier for you to see the QR code by next few days.

R: Okay, thank you. I had a question. When we register for our family members, can we use the same email for all? (1:26)

K- Your family members, they have to register themselves if they are adults.

R: It's a different email address.

K- Everybody has to have his own email address, yeah. Not one person can claim for everyone. It doesn't happen. So it has to be set up and it has to be checked. We put more and more security in checking into this as the time comes. You know millions have voted in the American voting system which died 300 years ago and they're still voting. These things we'll block, these things gradually will be checked, cross-checked with your government. Everything has to read. It's not going to be easy and secondly it's going to take time, months to get this sorted, properly. Something... I've just seen somebody found it. It says the QR code has been added in the version blah, blah, which will be distributed within the next hour. So, there we are. Your QR code is there.

R: There you go. It's fast service.

K- This is Keshe Foundation. We are slow in some things, but we are as fast as a flag to others. As we say, this is from the horse's mouth, so it's exactly what it is. You have to make sure you inform your authorities when you send us that they are ready to receive the Coin. You call your tax officer, this is how it becomes, and they give a gift. You have to register to receive the gift, and it's like a Bitcoin. You have a value of 1000, but you have to do it now. I've registered, I want you to register that I can pay my taxes for it. (1:28) We should have at least 100 countries in the next few months registering, especially if you're from African nations.

The point is that we couldn't do this now. A number of ONN's have been sent and Knowledge Seekers have connected it to the, what we call, our circuit. This is why now we can do this. By end of the month, there'll be about 30 Units operating around the world. Some, around 10 or 12, 15, now it's already connected. So when we give you the Coin, you become part of the network. By the end of month, it will be around about 30. And then, as we just now, we saw the problem with QR code, it had to be sorted. There's a lot of little, little things we need to adjust and correct. Somewhere in October, September, October, 100 Units will be released, and the 100 Units will be released, and the 100 Units will be released. That our system, we can bring people to manage the whole system, we can monitor and everything else. Don't forget, very simple, you do not receive your 10 Coins and your monthly, or annual payments from me. You receive it from Keshe Foundation account in the Game. So you deal with the Foundation, not with me. And this is very crucial for you to understand. The Association has got nothing to do with owning the Coin and the Keshe Foundation sets up the Coins which is under our control into the portal of the Keshe Foundation in the Game. Keshe Foundation gets registered with the association that allows us to make it available to the member of the Associations. (1:30)

And this is very important that you all understand. You do not receive your Coins from me, you receive your Coins in the portal. What you call, is your point interaction with Association. And every year you have to renew your association. If your association membership is not renewed, your Coin will not come up. And then there is performances we watch. We do a lot of things. And I just had a reminder on the other line. It says that 26th end of the month in the hand of people. But, there are others which makes about 35, 30-35, something between 30-35, is within the worldwide operation of the Keshe

Foundation. Control systems, are control panels and the rest of it. We can do this and we reach hopefully to a thousand by the end of the year. Everything is done and a lot of work is going in the background different teams of the Keshe Foundation to make sure things are done and we have beautiful Knowledge Seekers from all over the world working to see this is correct and this gets done and different aspects of it is met.

Any other question?

Q: ... Good morning Mr. Keshe, I'd like to share a comment about my experience trying to piece together the information you've shared with us in the last teachings. Regarding the tongue and breathing, when I inhale and hold my breath, I realize that instead, excuse me, instead of just closing off my throat to prevent the air from passing through, I can make a movement as if drawing the air into my Soul. (1:32) I don't know how to explain it, perhaps as if I were swallowing the air upward. This movement makes me smile, and I realized it brings joy. Another thing I've been doing is trying to coordinate my vision with my breathing, and the sound moving through my body. At first the sound only reached certain parts, but the other day I felt the vibration throughout my whole body, and a physical issue I had been having stopped immediately when I managed to direct the sound there. Well that's it, I just wanted to share these experiences. Thank you so much for everything.

K- You're welcome. You have to learn because this is part of the life of Man. There used to be a band called, 'Earth, Wind and Fire,' if you remember, in 70s. And all three has to work in sequence and in what you call, synchronized. And if you treat the body like that, that Earth is your body. Wind is the air you breathe and Fire is your Soul. You can do anything, but you have to understand how to match that fire, how to ignite it. And how you create that condition to be there. When you talk about your tongue, you have to understand how to position and what pressure you put on. And then where it is for. (1:34) The pressure you put with your tongue into the roof of your mouth, behind your sinuses. It's not just one thing. It's literally, it's like the way you shout, and you whisper, and you talk loud and fair. The pressure you put with your tongue into the roof of your mouth has a direct effect. How it all ?? is created, for what part and which, where you call it, in for. It'll take you centuries to learn this properly. And you see the step by step, step by step.

Any other question?

A lot of people sending me message, Mr. Keshe, can you confirm, is there straight up breathing? I can't answer you this, you have to go and learn it yourself. We are not here teaching measurements. You have to understand the concept and see what applies to where and to what. And if you don't answer, yes, ?? we've done a ?? big crime, Mr. Keshe doesn't want ?? us to know. This is, we give you the principle, the home work is with you, how you work it.

Q: ... There is big news that in Japan the medical Med Beds has already been released in public hospitals. So they asked what's happening with the Universal Body Enhancement Units? ...

K- When they release a Bed we release a Head Unit. They are about half a century behind us.

R: You've gone from bed to head.

K- We've gone from bed to head. (1:36) They're still trying to fix the physicality where we work with the Soul and we do it. I think the first most advanced version should be gone out last Friday before our company goes into summer holidays, or will go out immediately after the holidays. Med Bed is what we thought and a lot of people try to do it. But when you deal with the boss why do you want to work with the servant? We are far ahead. Med Bed says move from that way. Actually those two Units which became what we call, the UBESUS are on the way. I think they arrive in next few days to become part of the Exhibition Hall in China. They're on the rail track back to where they came, to be exhibited in the Keshe Foundation Research and Space Research Center in China. Because they're obsolete, and a new cycle will come in, and you will see it very, very soon.

A lot of Knowledge Seekers ?? go with it. Oh, you see our people said, is not just there, it says the UBESUS arrived in railway port yesterday in China. We have, we have moved a lot of the material back to China for the new Space Center, which is getting opened up at the moment. Then you will see the UBESUS and then you see the new UBESUS. Med Bed is finished. They are decades behind. If you understood how the teaching of past, especially even what we spoke few minutes ago, with the breathing and using of the new UBESUS systems, then you can see how fast you can change the condition. (1:38) Gradually we teach, gradually we bring this into open. Med Bed is obsolete, it's gone. Let them play with toys of last century, as I call it.

Q: ... Respected Professor Keshe. This is a follow up to his previous question regarding the arts. So he's reframing the question as, "Is it precisely because scientific researchers face an academic blockade regarding references to plasma in their work, that the Keshe Foundation needs to join forces with avant-garde cultural and artistic movements to promote this new school of thought?"

K- .. If you listen to what we discussed in past, half an hour, the way we have a structured and you Knowledge Seekers do, we don't need to do these things. We are using different way to bring the knowledge across the governments. Gradually you'll understand, we took a shortcut, maybe about 100 years, in what we just even gave you as a gift last Sunday. We don't... When we proposed the Keshe Coin in 2017, and many of you worked with it, bought it, kept it, spent it, (1:40) everything sound something a secure fixed Coin. Look what President Trump did few days ago couple of weeks ago. He introduced fixed price Coins Cryptocurrency as the cornerstone of his presidency's office. They listen to us, there are people who sit there and watch what's coming and what's

about to do and now it's become what we, you Knowledge Seekers, received or receiving this weekend, the following weeks, has become the policy of the supposedly the strongest nation in the world. He just signed the presidential decree to become.

The difference is by time they catch up. Keshe Foundation is already across the planet with One Nation, One Planet. Their Coin, fixed value, is for a nation to again dominate. But they don't know their policy is already obsolete compared to what has been released by Keshe Foundation. We are years ahead of Med Bed, or governmental policy. Just go and see what President Trump has signed, fixed Coin, Cryptocurrency that they can again control. But there is for their own nation and they stay control. Keshe Foundation is for everybody across the planet. Their work never takes up.

R: I believe Trump is also doing a thousand dollars fund for each newborn child and that's supposed to be not accessible until they turn 18 and then used for their education.

K- How do you feed the child? How do you educate the child? (1:42) This is all pension promises that they will not be there when it comes.

R: Yes, likely.

K- Yeah, there is not there... What I would like to do, especially with Knowledge Seekers in Africa, go to your governments, go to people and get inside. We saw this problem coming up, especially one of our beautiful Knowledge Seekers in Egypt brought it right into my face last week. I cannot pay from Cairo. And I went to our team and said I want it free. It's not in our structure. Find a way. We found a way, apparently, from what I saw last night coming in our system, that if you have the funds and you can pay \$1 or \$10, \$100 to register, register. Now it's depending on yourself and your own truth about yourself. If you don't, you take the option I can't pay, or an option I can pay in the future, and sign yourself in to become a member of the Foundation Association and then go into the game and play the game and what you call it, and our team has reduced the pricing I think if I'm correct you most probably see something coming up very quickly answering us. In the past you're getting one tenth of a tenth of the one million, God knows of a Coin. Now it's been brought up to one thousand, I think, which means you can reach the Coin money in one dollar per or two Coins per month, very rapidly. And your Coin you can keep in the Keshe Coin or move it to Keshe Coin in the 10% which we pay again to your government. The minute you want to exchange we have to have authorization for your government that you're exchanging. You're working into the real world of expenditure not in a fancy world of the Game. (1:44)

Let's see what we can do. You have, you should be able through the Keshe Foundation China, in the next few months, reach the latest developments in Wellness and Medicine, which is registered by Chinese, with Chinese authorities, as our factories come into line. And you can directly order and get the materials in anywhere, or travel to China and receive the materials which you need to, you see on the website of the China, but we cannot get export for it. We will not attempt to spend billions getting FDA and CE certificate. We have a Chinese certificate, 1/5th of the world population obeys. We obey

the rule for them. It's your problem. Move to China, get it and come back. Nobody can stop you.

And we will introduce in the next, what you call, 12 months, a fundamental, deep, some maybe 100, 150 medicines, or medical application system, certified by the Chinese system in China, from all sorts of companies registered. And there is a plan that you will receive, we set up a cosmetic section of the Keshe Foundation in China, the same. You can order it, we don't carry certificate. Chinese certificate is as good as FDA, which doesn't take bribe. It's very correct, it's very detailed, it's very just, and we don't get the bribes and billions of dollars to be paid to get the certificate. (1:46) China allows its citizens to benefit by the latest technology, and the rest of humanity can use it. You can't import Chinese certificate goods, we don't pay for the bribes of FDA. You come in, take a flight, most of the about, 50 , 60 70 nations now have a free visa travel into China. Come in buy the bottle of whatever condition from the shelves of the Keshe Foundation's medicine in the pharmacies and in the hospitals and go back. We create a lot of tourism for Chinese government through Keshe Foundation technologies.

We will not, under no circumstances, certify any of our goods for European or American market certification. Chinese certification is used by 1.4 billion and it works. Why should we listen to the bribes of that? You want our latest system getting developed, sold in China, how it carries a certification of Chinese authorities is good enough for us. We don't waste time, capital, and attaining FDA, which you have to pay bribes, millions to get it. We've seen it with Corona, and we saw it with Dr. Fauci in Senate in the past few weeks. It's nothing but bribery, lies and cheats, and it doesn't work that way. Chinese system says the technology is good for 1.4 billion to be used. That's how it's going to be. You're American, you need the FDA. Tough luck. You can take a flight cheaper than paying FDA, come to China, take whatever the medicine, which is under Chinese regulation, back home.

We will not, under no circumstances, (1:48) apply for CE certificate, or FDA certification, for any of our medications, or medical equipment, which is produced in China. We get a Chinese certification, it's as good ?? for us. You have to understand, if you fly now to China, you cannot carry a ?? power bank with you anymore, as of very recent days. You need to carry a CCC, Chinese Power Bank (Lithium battery bank). If they get you at the airport, they destroy it, they take it off you, you can't get on board. Because many CE certificate, American certification, has caught fire and caused problems. The Chinese system is much safer, much more accurate, and we follow that. So, if you travel to China, and especially you want to do internal flights, make sure your power bank carries a CCC certificate, which is safer, hundreds of times safer than the European certification, and the, what you call, American certification. And we follow the same Chinese system for medicine, Chinese system for... everything else, is times better than the European and American system. We've not applied, we won't waste our time and money to get the European certification. You want our goods? Fly to China and get it. Thanks.

Q: ... First of all thank you for all your work and love. First question the governments do they need to sign the Peace Treaty before receiving the...

K- You see it there is on the... Should be if it's not our team is listening. You cannot finish signing unless you have signed the Peace Treaty. (1:50) I think it's already been done but just in case our team listening in the background they have to modify it that is there. You'll not be registered till you have signed the Peace Treaty. And you see the government's going back to the parliament's we want this hundred million Coins can you sign the peace treaty we stop the war. There's a lot of things which you ignite. If you are, ... if you are a member of armed forces, do not apply for Keshe Foundation Coin. If you are a member of work through illegal activities, you're a drug trafficker and then you're a very good one to get the 10,000, do not claim. This Coin has a Soul and you pay for it. You will understand very soon. This is not an ordinary gift, this is a gift for the Soul of Humanity and you'll pay for it faster then you can think. And I tell you, it will be so harsh you'll wish you never done it.

Q: ... Can you explain more about the process to create the associations to all the nations?

K- ... We have made the charter which applies the Austrian law and we can provide you, but you have to play with it to apply to your nation. And this is very, very strict. (1:52) The associations of, foundations now become a criminal thing to be a foundation, now they change it to an association, till the latest these associations are criminal things because they can't do things they want to do with it. But each association has its own in each country process. And when you set it up, the tradition has been that the Keshe Foundation or a member of the Keshe Foundation stays at the head. And we've seen something, I was discussing with Knowledge Seekers yesterday. Some people come to the Foundation, some people come around and then they get noted or people listen to them and they think they're God and everything else and they're stolen from me, and they see themselves bigger than us. We had this now in one of the European countries, which is going ?? for. Even they went as far as forging my signature and saying Mr. Keshe has stolen our technology, now it's mine. He just got around 10 years ago, we've been here 30 years.

So, understand that when you set up association, it doesn't get hauled by one person to become a chairman and then he dictates. Make association that your chairman has got his hand tied up behind his back by the law. That all members need to have a say in it. You saw it in the Keshe Foundation two weeks ago. We invited all those who are signed to be members to come in to change the charter. And the charter has to be applied. A lot of people they mean they get yes, there I am the Head, then they start making rules and stealing, and all sorts of things. This you have to set up in a structure that doesn't happen in your associations. Because the association carries the name of the Keshe Foundation, (1:54) then you put the country at the end of it, it's our name that is on it, all of us. And you have to follow the rules very closely, because once one of you gets it wrong and do something wrong in it, then I get involved in it, because it's my name on it. And deceiving and deception doesn't work if you pay back 100 times worst. We've seen that

with Knowledge Seekers. Those people who you thought you loved, they betrayed the Foundation, they stole from the Foundation, and now they live ?? (a life) God knows I don't even wish it on my dog or my enemy. You see some, you don't see some of the Knowledge Seekers anymore. They stole from the Foundation. They used the Keshe Foundation finances for drug trafficking, and all sorts of devious things. Then you go and see how they live? I don't wish their life for my dog.

You got to set up a system so secure that nobody is allowed to do wrong with it, that they get punished for it, or whatever you call it, to balance the book. When you set up an association, the way it's done with Austria, follow the rules to the point that nobody becomes the Head of association, they forget who they are. We offer a job to some of the Knowledge Seekers, Just because through Mr. Keshe they become teaching and very thinking influential, "No, no, if I come I can't do, I don't exist anymore." (1:56) See what happened to your works. We give, we take. But when we take, you pay for it heavy, because you take from all of us. We made you, you didn't become who you are.

So, be very careful, how you serve your association, Be very careful you don't damage ?? the Association, and be very careful you don't make some people who are power hungry, and whatever, to become the chairman, and then I'm the chairman of the Keshe Foundation, I do what I like, kick them out, make that system in. I sit as the chairman of the Keshe Foundation in Holland, as the top, and the chairman of the association in Austria. With no power. If you were in an annual meeting last time, I even moved out by law out of the meeting, that I cannot ?? vote to influence. Make a law that none of your leaders of association have any power to do a ?? Ego trip. You have to sign, when you become a member of association, you set up your association, you have to come and sign with Austrian Association, that you connect yourself with the rest, because the rest will sign into the Austrian Association. And Austrian Association is connected to the Keshe Foundation, so it locks everything in one place.

We can provide you the charts of the association of the Keshe Foundation, it's on their website or the rest of you can ask, we can provide you how to do it. But go again to that Keshe Foundation at and ask for it there and you get your responses. But don't play with us, don't waste our time. (1:58) But you have to have a secure structure, people who don't do Ego trips, and people just because they made a case and they spoke to Mr. Keshe, or somebody in the Keshe Foundation, now they more than everything, and they are very important. And we support, but when we pull out, it's the same.

We'll start announcing names and groups who have deviated from the work of the Foundation, but they use the name of the Foundation. We don't let them register with the KF. If anybody works with you or sell goods of the Keshe Foundation, have you registered with the Keshe Foundation Association? If their application is refused, you know it's not worth working with them. And we refuse application. We have refused number of people to become members of the Association. It's not something we are going to do, we already have done. You carry Israeli passport, you're denied. You carry Belgian passport, you're denied. You are a member of the armed forces, you're denied. Job description becomes part of the application. If you carry an American passport, but you

are, carry a second passport from any of the two states, you will see what happens when you lie to us. Don't come near, unless you change your way. We have returned a number of people who have these connections, and we get to know. When you do, you cannot play the game. When you do, you cannot go into the Keshe Coin. Because you're Keshe Coin and our system has to match. And very soon we match them. (2:00)

Any other question?

Q: ... Imagination accompanies joy and enthusiasm. Does it play a key role in the cosmos? Does it act as a guide? How much does imagination matter in transmutation?

K- In a way none and in a way a lot. As long as you don't imagine or fool yourself or face the reality of condition is very good. When you start fooling yourself with imagination then you have a problem.

Any other question?

Q: ... Good morning Mr. Keshe. You have now reached the point where sound plays an important role in transmutation. Does that mean that if we are able to perceive the sound of our own Soul, that we can use that sound to detach ourselves more effectively from matter?

K- You got it wrong way. Everything, collectively, the right way, creates the condition. Sound is part of it. Transfer of energy is another part of it. Understanding the work of magnetic field is part of it. The emotion is another part of it. But sound is nothing to do with transmutation, is to understand what it does in your dimension of physical. (2:02) There's the, you know I do silly things sometimes but it's nice. I was with some friends at midnight on my birthday and I start making a noise. Oh, I was calling and making noise. ?? They said, what's going on? I said, I'm just trying to go into the, you know, go through the birth tunnel of 68, and it's painful. It's like going to the birth tunnel, you know, you just say, it's 12 o'clock is your birth, I was trying to go through the gate of 68 and it was very, they made you think. That how life we just call it a name but does our Soul knows it's got an age? Or is it of physicality because the minute ?? ?? born. I'm saying I'm trying to go through the birth tunnel, I'm 68 it's very hard I can't get through. It's just how you perceive life and sound is part of the structure. Now that you said the sound is way ?? to transmute, we never said that. We showed you there is a process of sound in the evolution of the Man's life. You haven't heard deep enough to understand sounds and which sounds and how. Then maybe you will come close to transmutation.

R: Are there certain sounds that could be associated with transmutation?

K- Not really, unless when actually your Soul moves. (2:04) And that sounds, I call it the change of address, physical addresses, where the owls can hear it. It's a reality and science has proven. We see the energy transfer, energy released from the body. Energy released to be able to get your Soul moves from the point of its existence in the center brain of the body releases energy equal to 18 Hiroshima bomb. It's been measured. Then

you can see how much energy is in the... is holding your Soul inside. Energy of 18 Hiroshima bomb. In magnetic plasmatic fields is released at the time of separation of the Soul and the physicality. It's a reality, it's not just something you say. Now they have even filmed the departure of the energy of the Soul from the body. Go on the Internet, you'll find it. Don't look for the fake ones, but if you look into some researchers, you'll see it.

There's a number of signs when the body is ready to depart and then you can set things around to watch it. When it's you go blind, when you see the old friends, somebody says to come with me, some they call it the death reach, people they have put their hands up, all sorts of thing is with there. When you see the body gets ready, the energy balances, Soul has gained enough energy to be different than the attachment of its fields to the field of this planet, and then the body prepares for it. (2:06) Go into the cycle of death, people who die in well-documented, what they see. Weeks before, they see a friend come and say, "I'm here to take you." A few days before, they behave differently, they suddenly start eating and looking very good, to say all the family, "Oh, she's recovered, she remember what she couldn't remember." These are the last energies coming together, the body is sending energy back to be serviced. Then they lose their appetites and then they start reaching out in beds, as they are holding, want to hold someone, there is nobody there. They're just saying hello to the energy, they see as a father or mother ready to take them. And then we see the departure. And this is with all of us which go through natural death, with the old age. And people don't want to accept it, they read into what they like. But these things exist, these things we are part of us, then you see the energy of the, what we call, cells, weakens that the Soul can detach from. In a way, the Souls of the cells go back to the Mother ship, which is the Soul, to depart. And that separation, ?? turning apart the STM, from the physicality of the Man, releases 18 Hiroshima bomb energy.

Any other question?

Q: What level of government do we need to contact?

K- Nobody, just your tax office, where you paid your taxes. (2:08)

R: But would that be local taxes, state taxes, federal taxes and so on?

K- ... Excluding United States, more or less, it's your central government, or your local government, because if local government come to us and says they want to claim the 100, they have to tell us, they have informed their central government they're accepting this. I'm sure central government wants some of it. You got to realize 10,000 per capital is huge amount of money. I measured you, or in one of the videos, it says if you are a family with two children, if there are two teenagers, you're entitled to 100 Coins a year, equivalent to 100,000 expenditure across the Keshe Foundation. As the technologies, partnerships, everything else establishes. That's a huge amount of money. And government want a chunk of it because then they can spend it. And in our system, we don't allow more than a certain percentage. I think around 19-20% is the maximum, if the government allows too. Unless you are Swiss. We have to structure it that way. You go,

give us your... Local governments, local governments, they have to say they received on behalf of the central government. We give it to them, it's no problem, as long as the Treasury accepts. And when the government comes, they can go and battle with the local government, the so-called government's already taken the money for that nation, given. (2:10)

Q: ... Good morning Mr. Keshe. Can you please expand on the empty box of the Universe? It's a very holy tool, but it would be so nice to have some more details about the functioning of it. And further, more it functions as a plasma measurement tool.

K- Plasma measurement tool to measure the strength of the Gans's. We developed technology for this and very soon it will come as part of the structure of the products out of China, where you make a Gans, we give you a chart, you can measure what's the strength of your Gans. It doesn't exist anywhere else, but it's something we have, I have developed years ago and now it's time for it to release. In measuring structures and other things, we gradually introduce materials into it. In the next few months, we introduce a new material. We call it 'Cosmic stone,' where it will stand centuries of work, its property is much, much stronger than the present concrete. These are gradually coming out of us, out of what we call, the Keshe Foundation structure. So measuring tools and all these things will be introduced in coming time in the Keshe Foundation. China will release it. (2:12) And it's for Knowledge Seekers to follow the way we do things as we expand the research centers in China. I diverted a little bit away from your question. Sorry about that.

R: Let's see, do you want to continue with that, you mean? Or no?

K- Read the question that people understand, right?

Q: The question was, can you please expand on the empty box of the Universe? It's a handy tool and could function as a plasma measurement tool.

K- You mean the one we showed in one of the conferences? That's where I said the empty box of the Universe. The... it's a very big story, not a very... it's a beautiful story behind that box and when it was made we wanted to measure its different height, different position, different Nano coating and is a lot of pins if you look at it in the box. There's a big story in how the fields interact from the pins, from the position, from the wall. Part of the wall you don't see it but it was pre-Nano coated so we created this all sorts of things in it. (2:14) And we developed a system that you pour this into it and then you see the fields. They're all different, it's a fantastic thing. That's why I said the measurement of the fields will come out you will see it. And when you create the fields it's like the skin, it absorbs energy from outside because now you created a Black Hole of that field, the plasma of that field, it has to find its match. So it's empty looking but it has a lot of connections of all the Nano coated of the plastic, of the connections, of the Nano copper things and that's what it does, we just put the seed in and he absorbs the whole of the energy of the Universe in.

That box, if you look at it, it's got a yellow top and a green box, which we drilled a lot of parachutes, ?? according to the door. This box, it was a journey from my business time, and I had it in the house and I thought I'd try it, and we put the pins in different heights and different kind of pins to see to measure the electricity and everything and I showed this one into what you call it, the people to the son of the king of Belgium and he was shocked. He said this, I said, this is empty box, there's nothing in it, but you measure every pin has different voltages and currents. And I opened it and it was nothing in it. He said this belongs to us. I said take a walk. You just look. Nothing belongs to the King of Belgium. And Dirk Laureyssens was standing there and it was like a nod and wink to him to find out what's in there. (2:16) How it ?? talks, how it creates energy. But they couldn't understand it.

And this, the these parachutes are designed in a different way to absorb different energies like kidney and liver and everything else, and the interaction of the fields of the box itself which partially Nano coated in different ways creates a wind and that wind becomes like a Universe, and these pins are like galaxies and satellites in different positions, it's just then they create the ?? , the field of themselves through it. And when you fill this box, you see the motion every time you fill it, you see the lines of the fields. There is no technology that you can measure fields of the Gans's. We have developed it and soon will be the structure that people can buy it. It's a drop, you drop it even on your Gans's and you see the fields of it and we teach you how to measure the strength with these things. And this box was made for this.

This, as I said, this box was from my previous business life, and it was around the house when I was looking for something. It was, I could use it, and it was used. It's a lunchbox. If you're British, you know what it means. British put their food in this, and they take it for lunch. Usually a sandwich and an apple or an orange next to it. And it was... this box has a logo on it. It belongs to one of the most famous ?? butter production people in England at that time, Anchor butter, they are called. And they ordered hundreds of thousands, millions of these, that they thought everybody will buy a butter pack. (2:18) In the box and they have a lunch pack with it and it was a failure promotion. And one of my companies bought all these millions of boxes. And it ended up, because nobody wanted it. But you still had an Anchor butter stamp on it and on the side of it. It moved from our assets management into one of our companies which we used to produce baby wipes in ??, Liverpool, near Liverpool. And we produced wetties, what we call, wet nappies. And they went in these boxes, which everybody was fantastic. We sold these millions of boxes right across Europe. And some of these wetties through one of my companies still gets delivered into Germany. It's a very nice brand. We still own the holding, as part of the trust. Then it says Anchor Butter. And I used to say, look, I have anchored the fields of the Universe, and I buttered them up, and they're all coming in. And it's a beautiful, it's part of the archives of the Keshe Foundation. It's still somewhere. One day it will be shown. But it was from my previous business life. We used to have warehouse full of these stupid boxes and we always said, "Okay, we bought it." Because we bought it, it came with a mug. It had an Anchor Butter above. People liked to drink tea in it. And it was in this box. Then you had, you had, you get a cup and a box together, a mug in a box. We sold the mugs and we were lucky with the boxes. And one of my

officers goes, "Keshe, what can we do for promotion for our wetties?" What you call, the "wipes", you call it, "bed wipes". I said, "You know something, we got hundreds of thousands of these boxes, make a promotion out of it." (2:20) And it went like crazy.

Use of past to the future. And... it's the way we positioned, and the way we Nano coat it. You Knowledge Seekers need a lot to learn, to start playing with the fields. Maybe before around January we launched this Gans measurement technology (T). The minute it touches the Gans it shows the power of the Gans, and you have a few seconds to see it. You photograph it, it gives you the power of the strengths of the Gans, and then it dissolves and it's an amazing tool and I think my plan is to sell a bottle of 200 ml for about 10 Euro and you have to keep it away from children. It is not hazardous, but it's not something you can children play with it. And will be developed especially for Gans's because a lot of people have problem to see what's the power of my Gans, why is yellow today, black tomorrow and God knows green the other day. Every time we just use this structure we develop and it tells you if the energy is higher or lower of the ?? Gans.

Any other question? Or shall we ?? turn ?? our way?

Oh, how are you reading what he says? (2:22) He says, "Hello." He says, "Re-encrypting in the game and re-log in every time." What is it? Is this normal? That's in the Enlightenment Game.

R: Right, so that would be normal to re-log in each time and you get points each time that you log in as well.

K- ... Okay shall we call it, a day or do you have more questions? ...Ok we have time today.

Q: ... Could you share your analysis of one of the greatest strategic challenges of our time, counterinsurgency? Many analysts argue that success in counterinsurgency, not only through military means, but also through legitimacy, governance, trust, and the support of local populations, may become one of the defining factors of future geopolitics. In your view, has that future already begun in relation to Iran? Is the United States still capable of cultivating influence within Iranian society, or has that opportunity largely passed? If the current balance of power in the Middle East were to change significantly, would a future of regional coexistence between Iran and Israel be possible with both acting as stable regional powers rather than existential rivals. (2:24) More broadly what would constitute an effective and ethical strategy for achieving long-term stability and peace in the region without violating the principles of a genuine peace agreement.

K- Do we have about 2 or 3 weeks? This is very interesting point. You hear different things (in the Media), than what we see in reality. Let me, let me read you something very, very interesting and you see how far you are (away from) with what the truth is. As a senior advisor we look at everything. I read you something very, very interesting.

This is the damage suffered by the American forces in the past, in the first 30 days of the war. Radar and air defense, seven command and control centers totally gone. Three satellites communication system totally gone. Six Patriot and defense radar totally gone. Three air sea control and surveillance radars all gone. Eight early warning radars gone. Seven air and missile defense gone. Three FPS radar gone. Two AN FPS 117 radars gone. If you know what these things are, they cost millions, hundreds of millions, each one. Five long-range radars gone, two air defense radars gone, two tactical radars units gone. (2:26) This is just the radar defense. This is confirmed by the world analysis of world people (who) are in this game. Infrastructure and military operation. Six maintenance center for fighter jets and helicopters gone. Three support and logistics centers gone. Two fuel, twelve fuel depots gone. Seventeen depots for ammunition and spare parts and ship for aircrafts gone. Six missile storage facilities gone. Six hangars for MQ-9 drones with all fully drones inside them gone. You know this what MQ-9s are those huge ones which captured one years ago. One preparation hangar F-15 fighter jets in it gone with fighter jets actually inside it. Now you know what it is how many they lost. One hangar for drones containing eight new drones the latest one is gone. And I can read you again and again. 11 fighter jets. Why I read you these things is much important. Two command centers gone. In-flight refueling platform and aircraft carriers gone. One hangar for P-8 aircrafts gone. Two Hemorrhage missiles platform gone. Five hangars for fighter jets gone. Four Patriot air defense systems gone. Six missile launch platform gone. One major fuel pumping stations for the whole of Middle East is totally gone. Two transmission centers gone. One intelligence data center gone. Intelligence data centers carries hundreds of officers. The whole lot gone. And America only says there was 18. (2:28) One AI center gone. This was backed by Musk. One depot of remotely piloted aircrafts, fully trained officers, 300 gone. One refueling jetty gone. This is in Bahrain. Four fighter jet shelters gone, with the fighters in it. Six parking areas of access for ramps, which is needed to repair gone. And I can read you more.

So, they tell you America lost 18 lives. I read you and list 202 targets. This is the first 30 days. Was the hangar for jet planes empty? Missile platforms empty? Fuel pumping stations nobody there? What are they, all dummies sitting there or people there. America has lost over 15,000 active soldiers, which is nothing. If you see the list I read you, and it's confirmed independently, then you see what it means. When you run Patriot Air Defense Radar System, you have minimum 96 people you need for each station. Six of them have gone. There are 600 soldiers gone. They are active, they are sitting there, they are protecting, they didn't run away. Americans are very brave, they don't leave their post. You, then... << Break in audio. >> (2:30)

R: Hello Mr. Keshe?

K- Yes. What did you hear?

R: Just, you broke up about 10 seconds ago, something like that?

K- Yeah, what it is, you have 201 or 2 in the first 30 days target, fully manned officers gone. 15,000 American soldiers dead, plus 35,000 injured. And you only have 18

reported and 600 injured. You don't build a Patriot Center with empty people in. So, where does the insurgent come from? The only thing left for America is B-52s, like cowards, flying all the way across America, because loading them up and even they are running out of bombs. So when you listen to these things, just be a bit wise. There is not a single airbase left for Americans in around the Middle East.

And maybe you should know, maybe you shouldn't know, Iran will not touch any more air bases. Iran will not touch Kuwait, Qatar anymore. And the reason the war suddenly stopped on Saturday, the week before, and then it started and stopped again, was the warning which was given to President Trump and Netanyahu. All the Iran missiles will be targeted in one direction in the next time round. (2:32) And that's why they stopped. You can imagine 600 intercontinental or what we call, ?? round-the-world missiles will be targeted in one area only. And they know where. And Chinese foreign minister spokesman last week said, if America attacks Iran once more there'll be no state of Israel left and that's where the war stopped.

We don't see insurgency, yes they tried. But we see a powerful position that will change very soon and we get some senses back. This war created billions, trillions for Mr. Trump and his family, and brought Iran millions, and billions for state of Oman. What was thousands of ships going through free from now on they pay millions, because you'll get benefited by it, and it brings a huge revenue to do the damages. That's why Iran has put the revenue on the ships going through the Strait of Hormuz, to pay for what the Americans destroyed. And these are all American oil tankers going through, so they pay for it.

And you see it in the structure. They tried, they paid the Kurds a few days ago, and they lost so many soldiers. The Kurds, they just jumped back and went back. American bases in Iraq is totally empty by 30th of September of this year. (2:34) They used to have 50,000. If you're a winning nation you don't pack your bags and escape like a rat. So we wait. The Israelis played their game. They brought the Israeli prostitutes into Iran, put them black clothing on, then they slept with all the Iranian mullahs and leaders and they told them where they are, and they killed 163. The rest they don't have. So now we are dealing with the Sepah officers who are faithful to their wives and ?? the Mullahs were served with ?? Silah (prostitutes) every night. That's how they got killed. Any, any, so any of the Iranian 160 leaders died, it was done by the Israeli prostitutes who could speak Farsi. They came in and they connected themselves with the black clothes. Now they know nobody is there. They thought (it was) the telephones and everything. Now we know how it was done. No, a nation can only living by his prostitutes is the nation that he could hide by his prostitutes.

And so I don't see where it comes to your question. There is no superiority. We had no problem between the Arab states. We had no problem with other states. This was done primarily for one Man to become rich. All this war was for him to become rich. Signed a 2 trillion contract with who was supposed to be the Head of Iran. He signed 2 trillion contract with the Arab nations, 5 billion. But he won't come home. The minute the war stops, everything will be reneged. (2:36)

Everything is not correct with all the governments and all the nations. But you cannot put people to bring insurgency and try to change the government. Government has to be changed by its people according through the evolution of itself. And at the same time, you have to understand the government has to be fair, has to be correct. Not just we want, we've gone, we've done what we do. And we had, we have a president who is totally run by the Americans, and he always claimed this ?? broadest position. I'm going to resign. If I don't get here, he resigned I think 28 times in the past few months. And this time, he's been told, you resign, we accept, we bring a new president in. Somebody who's faithful to our nation.

You got to understand, insurgency in Iran came through its leadership, which have American passports in their pocket. Senior advisor, vice president of Iran, now advisor to him, Mr. Zarif, I call him, carries American passport and he worked in American military. We have a guy running us, telling the Americans exactly where it is going to be, and he's not there anymore. He only can have influence as long as Mr. ??, he said, "Mr. ?? says he's going to resign." We said, "Okay, we resign, this time we accept." And he has stopped his resignation treat (threat). A president of a nation cannot sleep in two nations. So we don't have insurgency what you imagine, but we have people who deceived our nation. (2:38)

And you got to understand, we expect uprising in Iran after the war, because people want to see the change. And the central government has to accommodate this. Two years ago, they get the freedom to woman, to be dressed the way they like. Now, with the sanctions to go, you get the economical freedom. But you have to understand, insurgency, the way you talk about, they tried it. Even a few weeks ago, they tried it. And some 600, 800 American soldiers died because of it. They were set up. They walked into what they thought is the center for what you call, the control of the Straits of Hormuz and base, military base, but they walked into a trap. None walked alive out of the base. That was insurgency. The time they could send 20 CIA agents and start a revolution is gone. Those are a long time ago.

If you look at the bombing of America and Iran, it's all the bridges which separates the ?? sat oil fields for them to capture. But they found out they bring a bridge down, within three days the bridge is back up. We expect uprising, we expect people asking, now they're tolerating the situation. You accept people asking for change. More food, more materials, the fuel has gone up to bring down. But the biggest failure in American history has happened. You have, they have no more bombs, more or less run out. (2:40) They even have to count their fuels, apparently we hear from places they're not getting enough fuel to their system. The soldiers are eating bread and water in some ships because the bread is even running out. And I said to one of the American guys, get your guys to fish over the side, at least they have some meat. You look at what comes out from the security from the American soldiers, their food plate is empty. They thought they come, they rob and they run, and they come and they're stuck and they're rubbing themselves of.

Iran is a big country and we have beautiful neighbors. And they just made Iran, roughly between Iran and ???. The north side of the Hormuz Canal will be used to come in. You pay the fee to the Iranian government to go into the Persian Gulf. The south side sits with Oman. And only ships through the south side can go. You have to pay to Oman. Around about a thousand ships go through this tunnel quite frequently, as long as a week. Now a million each gives Iran 1 billion income, oil tankers. A million for a million tankers, one dollar per barrel, they don't feel anything. But when you put a thousand tankers a month, that's one billion income for the nation to pay for the damages. But Oman has a very small population compared to Iran. So a percentage of what Oman collects again goes to Iran, but Iran is responsible for the whole. This is what the Americans don't like, because now the canal is split in two halves, south and north. (2:42) Iran controls incoming, you have to pay to go in, and then you go through the south. And this is what Mr. Trump has blown himself up. He thought he can bring it down, he has to deal with the nation of Oman. And Oman sits in a position that it can push into UAE side of the pipeline, which is in another kingdom of the UAE, the south, what you call it, east of it, and it's not very good. And the ??? Fajab one of the seven states of UAE, the Crown Prince and the Prince are close friends, we know what's happening.

And so, we understand there is no insurgency unless they do chemical mass murder or nuclear, but at that point there is no State of Israel, what are they fighting for? Over 600 supersonic missiles are targeted in one point, according to the information's of what's in the news. So we wait and see who wants to do, they want to invade, they don't have the forces, there's nobody behind them, and many of their soldiers have died. But you never know, the Jewish people have come up with different surprises every time, you have to see what's the next surprise. I said to some of our friends, the next surprise is to drop a lot of Jewish girls with their fancy bathing suits in the middle of Tehran, getting the mullahs busy with some soldiers, that they get a uprising. (2:44) They tried to, what we call, black whale, prostitutes into Iran. They got the leaders. Now they need to bring their naked woman. Maybe they do something for them.

You've got to realize something very big is happening. Ask yourself if you live in Western Europe, and in Europe, or China, or what you call it, in Japan, or the rest. Have you received, or you know anybody who's received a donor part (organ)? A heart, a liver, a kidney? It's suddenly become available. Ask those people to ask where it came from. Does it belong to the body of a young Palestinian? That's what the Jews are making their money out of. People should ask, I want a part but I'm not that desperate to take along with the life of a young person for me to receive a part. This is the biggest income at the moment for the Jewish state. Parts of the young people, Palestinians, all this bombing is to get bodies to sell as spare parts in synagogues in Europe and America. Ask them, "I want to see the certificate where the part came from." And then, if you accept, let life to be taken for you to live. In the past it was the (by) honor, you gave your parts for another. Now it's become Jewish state work. I'm half Jewish, but I don't sit with the blood on my hand.

Then you tell me where the insurgency comes. We expect upright, we expect people asking for food, shortages to be fulfilled, but America has to release the sanctions that it

created. (2:46) It takes USA to be locked up and defeated less than 10 minutes. They don't have any more missiles as such to defend their own nations. All been used up with the promise of Mr. Netanyahu. The most powerful nation in the world is so vulnerable, will be belly up, that it takes China just about two hours to finish it off, if they go for it. And something which a lot of you don't know, 80% of all your AIs in America now uses Chinese. If the Chinese close their AI to the Americans, you lose now most of your Internet and all your facilities from Google to Alibaba and the rest of it. Both in China and outside. 80% of all AI facilities used by major American companies are Chinese based. That's according to American, what you call it, statistics.

R: And 40% of the stock market are heavily invested in the AI functions. The American AI that is.

K- Yeah, but the American AI now connects to them, to the Chinese, because they can't meet them match, the power. It is, it is very strange. We don't expect. Yeah, we, Well, they tried it, they lost 800 soldiers insurgency, and they lost more, and nowadays we have to wait and see. (2:48) When they tell you, I don't need, when you look at the pictures of the American bases, it's all black, black, black. Were these dummies or these are the bases people were working on it? And none of these bases ever built to be defended. They never built a bomb shelter. If you went to England in 1970s, every house on this first, second world war, most of them had a bomb shelter, concrete blocks, everybody used to go in there. I used to live in houses, I've seen them. People changed them into playrooms and storerooms and everything. None of the American bases have. They all thought they were so powerful, they never built any bomb shelters. American soldiers hid in cupboards, under the tables. You should see security cameras coming from it. And these buildings were not empty. Fully manned, they were fighting. They were loading planes up to go to fight, all gone.

It's not that America is depleted of ammunition. It has depleted from experts. Dead or injured, 50,000 total, American and those who supported them. Workers on the, all the people are not American. They were locals. Many, many locals died, who worked in these bases. So, when they tell you we are short of ammunition, they didn't tell you we are short of experts even to load the ammunition. They're gone. Bases are closed. And they want to do an insurgency, they can talk a lot. Bomb far, from as far as you can, as high as you can go with the B-52s, and trying to say you are winning. You don't even have the bombs. I said to one of our advisors very recently, (2:50) I said, "Do you know what we're going to get? We're going to go back to the Second World War with the Americans." He said, "What are you talking about?" I told him the story of the, how the British and the American got Tehran in the Second World War to be able to help Russia to stand Hitler. The Iranian king at that time would not collaborate with him, he was an ally of Hitler, he wanted to be in the alliance, but he wasn't any. They didn't have bomb. My grandfather used to tell me, "Do you know how they bombed Tehran? They came in with buckets, oil buckets, with the stone in them, they dropped it on our head. They didn't have enough bomb." And I said, "We're going back to 1940s again. Americans don't have the bombs, they drop on us pieces of Empire State and pieces of their buildings and they

bring it and they drop it. We're going to go back to 'hand to hand,' American having nothing to fight.

The truth is not what you see. We see right through what sits there. It's extremely unlikely we see big changes, unless America or Israel uses nuclear bomb. And then if that happens, God forbid, there will be no state of Israel. The new policy is no more attacks on Kuwait, Dubai, Bahrain, no more because we destroyed. Where you going to go bomb something you already bombed and it's empty? All will go in one place? And what did the stupid Netanyahu have said? How many bombs can a state less than New Jersey take? It'll be taking a lot. When you hear they keep on offering peace, (2:52) they sat, they planned, and they found out they can't do anything. They have no more teeth. Netanyahu went all the way to America to plan a what? How many more spare parts of the young children to sell?

Very soon I'll play you a recording of a man in a Palestinian camp with an Austrian passport. Tells you what they did to him, to his children and his family. He's one of our advisors. He's one of our senior advisors. Raped. Killed 42 members of his family in front of his eye. The only reason he is out, is he carries an Austrian passport. They wouldn't touch anyone with a foreign passport. He is writing and he's recording his life story for you to hear. One of the most senior advisors to Keshe Foundation. A Palestinian doctor, highly educated. One of the experts in the world. And ?? it's him. Then you know the truth. Then we see which uprising ... We have a big problem in Iran with uprising because of the shortage of material. Increased prices in fuel because the fuel in Iran is pennies. And they had to increase it to cover what expenses comes in, and to meet the shortages. The only insurgency will come from our President and his cronies, which are all carrying American passport in their passport, in their pocket. (2:54)

Any other question?

Q: ... What happened with the coming of the Messiah on August 2nd, 2026?

K- It's not ?? 26, it's not the coming of him. It was supposed to be the end of the wars, they destroy Iran, and it didn't happen. We told them what's going to happen to them, they found out. It didn't work out.

R: Perhaps the coming of the Messiah is the coming of the Keshe Coin.

K- Um... Messiah has spoken already to them. They know what's going to happen to them. No way. The point is, now the next... They had a target. It was in the holy books that they... they destroy Iran and the Jews will win by the second (of August). That was... That's written in their Torah. And on the other hand it says that there will be no State of Israel left. And we told them it's exactly how ?? it's going to be left, and they changed their mind. Because they don't have the things to do. And now we wait for the last week of October to see how Mr. Trump announces his son-in-law as the Messiah. That's the next step they're waiting for. (2:56) What's his name? He's Son-in-law, the Jewish boy. He's supposed to be the Messiah and the forthcoming with Mr. Trump and his wing is

with Netanyahu. We're waiting. They're going to announce, more or less, if they succeed, that the Messiah comes on 28th, in October. Yeah. Mr. Kushner, it's just 'kushinit.' This is, this is the position at the moment.

We, the good thing with the way we operated was informing what's going to happen to them, stopped a lot of killing. And that was the help of ???. The beginning of the change of the war was by telling them what's going to happen to them. And that stopped the guns. Every time Netanyahu went to America, he came up with the new plans of doing it. But this time they have no, they can't do anything. Even the head of military and main airport in Israel, asked the Americans to remove your tankers, we have nothing left if Iran attacks here again. That's why the Americans moved their tankers back into British bases in Cyprus. The Messiah has spoken and has worked. One day I'll tell you what happened in the past week. And it's recorded. It's not something... that is. It is recorded. (2:58) The time, the place and you'll match it to what happened exactly. We touch where we know we can bring the change for Peace and we have touched. But let's see. They're still struggling and buckling.

Any other question?

R: We've pretty much covered it here Mr. Keshe.

K- Thank you very much for today. Please register yourself and your family. Your family doesn't get a gift. The ones we send emails to will receive the 10 Coin gift. And, ask your community or your, say I've received, I received a lottery every year for the rest of my life for 30,000. And they want to give you a gift for what I received. Please tell them where to send it, but you have to go and register and sign for the World Peace, please. And get your governments, because we have to pay your taxes. And people like Dr. Gatua in the African nations will get benefit by this quite drastically, quite a lot. Africa always has been the bedrock of bringing technology up to where we want. And we'll see how it plays this time.

R: Mr. Keshe, we had a hand up with Dean. Could you take a question from him before we go?

K- Yeah.

Q: ... Good morning Mr. Keshe.

K- Hi, how are you Dean?

Q: Yeah, I'm okay. Thank you Mr. Keshe.

K- Are you still okay?

Q: Yes, many of the things you've spoken about today, (3:00) it just resonates so much because in macro and micro and all these other things. And I did notice Mr. Keshe that

you were talking about the administrations and the governments and things. They started using the One Nation strap line for certain things as well. I noticed that in some medias the other day.

K- When you listen to the Foundation, you'll be amazed how many people listen, how they bring it out.

Q: I know, I know they do. Yeah, I know they do. Mr. Keshe, can you, can I just ask one question? Can you just clarify a little bit please, about the Keshe Coin? Is that, is that name, for instance, going to stay? Is that, is this established as the Keshe Coin? It will not be, that name doesn't change?

K- Yes. Keshe Coin, let them use whatever, Keshe Coin stays as it is, it's our foundation Coin. You got a Cash Coin (CC) which is Cash, there's a Cash in the game, and you have a Keshe Coin which is KC, we call it, the KC Coin, which is, belongs to the Foundation. And all the Coins have been mined, so there's nobody can come up with anything which parallels, and secondly with the network we set up, only we can check it, we can operate it, and a lot of other things which will happen with it.

Q: So any other names Mr. Keshe that are brought forward, are not to do with the Foundation and nothing to do...

K- No, no, no, no, no, it's KC, it's not Cash, it's Cash, it's a Keshe, and it stands for itself. And it's even our network. You cannot sell it, you cannot copy it, forge it, or come up with something new to do. Because it sits... We not only have the game, not only have the Coin, we have set up our own network. You understand? (3:02) And soon all this have to match before you can do anything. It's just a team of computer people sitting in the background, step by step covering everything. So, you have to be signed with the Keshe Foundation Association, you have to be in the game, you have to have the Keshe Coin that you can exchange it, and you only can receive your Coins inside the structure.

It's, then we are talking with the lawyers from different governments, how they can implement it, but it's an internal Coin. If you notice the tapes, we put the videos, we keep on emphasizing it's an internal Coin. But now this internal is becoming, hemorrhaging to nations and billions of people. So the only things will be left out, most probably in the next five years, will be cats and the dogs, which they can't have a birth certificate. I think a lot of robots will be registering themselves. So, this is part of the structure. It's done. It's something which is done and buried. Nobody can do anything with it. And the Coins are given freely. We don't charge for it. And if you want to donate something to the Foundation for Research and Development, at the moment is the situation with the accounts which is set up by the, what you call it, the Foundation Association in Austria, which is fully transparent.

Q: Mr. Keshe, can I ask a question then? Sorry, I know I should have said just one question, but as always...

K- You've been in Jalal too many times.

Q: So Mr. Keshe, if you, like myself and many others, (3:04) find themselves in these positions, across the planet, you are a national of a, you know, wherever you were born, but you reside somewhere else. How, and I know you said locally that you would collect the taxes locally.

K- You see, you have, you, let me, let me say, you got a British passport, but you live in Austria. That's why we ask you, where do you pay taxes? Is the Austrian government you pay taxes to, or the British? That country counts, that's why we put it this, this way.

Q: What if you don't work Mr. Keshe? What if you are retired?

K- You still carry a nationality. You are retired, you still carry... Actually, if you're retired, you get more Coins, and you have a better life in the long run... If you're retired, in most of the nations around the world, government pays you something. You have a number that you get paid by, and somebody pays you. So you go to the government and say, "You give us that, we know where you are." And then we do the rest of it.

The only thing we don't ask you was, "What's your religion?" And that is because I don't think many Jews will be left very soon to be worried about it. So we all have one religion, we believe in God. Not these Godless people. And so, we thought about putting religion and isolating the Jews. But I thought I am half Jewish, so I'll be the first one hit, but let it be.

It is set up to where you collect your pension, where you pay your taxes. And who, where are you responsible, which authorities responsible to pay for your hospital if you become, what you call it, sick? (3:06) That's the nation we give the Coin to. And this is what you call... It'll take time, it won't happen. We need to back up a lot of things to register 9 billion over the next 5 years. It needs a lot of collaboration with governments. And we know what is our next step. As I said, many of you received the emails from last week. On the list of the... I'm going through the list of the Keshe Foundation, the people who have been in communication with us. They are sitting on the top. So that's why you are allowed to receive your emails first. Then we go into the ones who used to be and the rest of it. Actually they receive everybody. And then your nations has to tell us where, and then very, very, what I call trickily, with your government receiving your taxes, tells them, we tell them, we want 10,000 per year, or not. And then, step by step.

Q: ... Mr. Keshe, sorry to interrupt you, is that when you're part of a nation, you're very, you know, you were born there, you accept the culture, you've grown up with it, you become very strong within that environment. But when you step out of that environment and cross borders, things change and things get ?? confused and blocked very quickly and everything is...

K- It's the way it's set up that way. Yeah, it's set up that way. We had... (3:08) Our people are listening on the line. A couple of our guys had to go to another country to do something last year or so. And one is a foreigner in the country and one is national. And when they cross the border, the guy which is a foreigner in the country says, "Now we are both foreigners." They went to a third country, but crossing a line. So, with the Keshe Coin, this foreign business goes away. The biggest problem you'll have is with the Aliens registered to get Coin. That'll be the funny part. And the robots. We need to identify the robots somehow with the governments. Because now they have a birth certificate. And they don't pay any taxes. It's getting very, very interesting. The situation is becoming amazingly interesting.

There is a talk at the moment in the, what you call it, in the people who are looking in the next generation what is to come. And it's mainly targeted for American and European market. You know a lot of Europeans used to go to Far East to get themselves a wife or a husband to be a wife. If you know what I mean. And brought them back to Europe. Now they are buying wives robots. And they have to register as a robot wife because she has expenses. And this has become part of our work. A husband has a wife registered as a robot. Now we are waiting for the first robotic marriages. (3:10) You know when they said gay marriages, now we have... we are waiting for these robotic marriages, falling in love with each other, or men falling in love with robots, or women falling in love with robots, whatever you call it,. And then how are we going to give Coin to a robot?

Q: If it has a Soul Mr. Keshe, you've already said this, you can...

K- Now you understand the extent of the problem. It is huge. People don't understand the day and night things I have to handle with and see what's the future, what we've got to do with.

Q: So how did you handle this on other planets then Mr. Keshe?

K- They don't exist. Money is a thing for the Man. Everything is free. And the time is to explore. The time is to enjoy. And the time to add to knowledge.

Q: When will Man understand this Mr. Keshe really?

K- You see something you say, you tell, it's very interesting. The only thing the Americans have bombed are Iranian universities, research centers, to make illiterate out of a nation, so that they can abuse. This is the extent of a nation. You don't destroy universities, you don't destroy research centers, you don't kill the scientists. And that's what the Israelis and Americans have done in Iran. Huge number of bombs has dropped on research centers, universities, schools, killing children.

Q: Mr. Keshe, your chess game is very strong though, and I think you've trumped the situation.

K- This is well trumped, he knows it. One day, one day, the Knowledge Seekers who are in position of the, position with the Keshe Foundation, will release what happened on the Saturday before, (3:12) and this week, again. We are very powerful. When they said they're going to wipe out Iran, and this and that, and then you see how he stopped. And when we decided to stop, and it was stopped. We are much more than people think, but we have to let go the way it is.

No nation ever been bombed in the children's school to kill. In universities to kill the students. Destroy research centers which there are students. Except in the hand of the American and Israelis and Iranians. But, now it's got to the bottom line. And the Chinese said, "There will be no State of Israel." They have to decide. Because when there is no State (of Israel), the American has got nothing to fight for. And you have to understand, no customers for products. You can't sell your goods in your country, and then you have to handle your own people. And now at the moment, they don't have...

If China decides to go for America, they said, "It takes them two hours to finish it." And it takes them two hours, because they have nothing to defend themselves (with). I said to somebody when it's in the Americans have become 'Austrian schnitzel.' You know what I mean? It's so thin that the crumb is thicker than the, than the meat in the middle. You live in Austria, you know what I mean? (3:14) Yeah, when you make a schnitzel at home, it's got the thickness of the, at least the chicken's breast. When you get the schnitzel in the Austrian restaurant, it's so thin that you put a microscope to see where it is, the batter has covered it up. And the American defense is that thin.

Q: I remember you saying Mr. Keshe, you said this, that they would do it to themselves. I know you elevated the Souls and for those Knowledge Seekers and everybody that's even remotely connected to something, you see it, you witness it, witnessing it right now and you sense it, you can see the change across the planet, the Soul is elevating.

K- We don't need wars, we don't need killing, we don't need this. And now, somebody said to me, "Why don't you pay the military people more than they put their arms out?" I said, "We don't even give them anything, the jealousy of not having the money." If you are a military Man, your child, your wife, your house, your father, your mother, does not get a single Coin. Because you kill, it's become the habit of your life and in your blood. "Dad, can I have a food? I don't have one. Move out of the army, I can't get fed." Very simple. It is not worth to keep men under the arms. The father is a soldier, the son becomes a soldier. When we don't encourage the father, the son will not go.

Q: This is a big change for humanity though Mr. Keshe, people that have been involved with this. (3:16) That is a generational, it's a field strength that they gathered and they're so proud of, to let that go. It really is.

K- They have to let go, they have to let go, they have no choice.

Sorry, I'm going to read you something. We just received this on the messages in the, in the Keshe chat. QR codes are online. Click in the top bar on your KC or CC account.

This is a message from our heads of running the whole thing. QR codes in your registration are on. Send us the QR code. I can't sit there and get people typing 200 digits and words and God knows other things to get you in. QR code, put it up. We, it makes it much easier for us to facilitate us to get you your Coins. And those of you who haven't received them, been around Keshe Foundation all time. Just wait, it's just going through alphabet. We have to see how it works, then we give everybody and they don't have. Now from us we understood we need a QR code, so it's done. Needs a few other bits and then we'll be all done. And then we'll be there. The systems are running. Operation is all seen by our central position. The minute Knowledge Seekers have plugged their ONN's, the ones who have received it, we get a confirmation, yes, we can see it on our map. So, you don't need to do anything. Plug and play, what we play, you plug in it. And those who receive is the same. Make sure it doesn't come off and go back on. And then we wait for a few, what you call it, couple of months, and then we release a hundred more. We will cover a thousand Units by the end of the year. (3:18) But we have to see if our system can take it, where the weaknesses are, where the damages can be done. The whole thing starts when you start exchanging Coins, or cross-purchasing with a Coin. And we see where the failures are and the team in the background will try to sort it out as fast as possible. Thank you very much for today.

Q: Thank you Mr. Keshe.

K- Thank you very much. I wish you all the best. I hope everything goes okay Dean. Keep in touch. Keep me informed to see everything, yeah?

Q: Absolutely. Thank you Mr. Keshe.

K- Thank you very much. Please encourage your people now to register for the Keshe Coin. And please tell us where you pay your taxes, that we can pay your tax people. And they have to sign for it. See you next week. And wish you a beautiful time.

R: ... (3:20) << Message from Universal Council: >> “We the Universal Council invite the Keshe Universal Family present on Earth in unifying at the Soul Level event every day at 9pm CET/CEST. We the Universal Council give from our Souls and invite all of humanity to elevate the Soul of every leader in every nation to work as one Soul, in one direction to achieve peace. As One Nation, One Planet, One Race.”
