

657th Knowledge Seekers Workshop August 27, 2026

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Train to stop eating & killing; Create seed 20% energy to attract 80% UE through STM; Stomach Acid Fallacy - use alkaline Nano coat food - intestine make Gans - transfer to lymph; Taught wrong; Lymph with STM & neural system - convert energy to blood or P; Rice not pass wall intestine - spectrum energy becomes plasma seed - tell UE what needs - this is 80% from environment; Receive M fields from rice; Body creates weak M field strength spectrum - attracts stronger UE - feed you; Use breathe - internally create what body needs; Allocate time - tuning into energy of Soul - one time, release energies vibration of blood & breathing system; Get rid nose & mouth; Absorb energies from environment through STM; Indian guru; Synchronize to same heartbeat with STM - not have to breathe - absorb energy through blood, becomes P; Create energy seeds - without food; STP is Spirit creates 20% seeds - STM absorbs other 80%; Control energy of heartbeat through emotion - absorb UE - won't feel hungry - desire & addiction gone; Hear heartbeat in Soul; Soul tells heart what to receive; Enjoy presence of plants & look after animals - not eat; Proved in Monthly Flight sessions; UC can't understand why Man started eating & killing; Aliens no mouth; Use pulses of heartbeat & breathing to change emotions - detach from P; UE interact to create Man - call same energy to feed; Spirit & STM becomes everlasting Twinity - create perfect H - third neutron becomes Soul of Creator (STC); Spirit becomes electron - STM proton - understand rhythm & strength; Creator feeds - Deuterium - forever; SF of STM, STP, STC - creates emotion of Creation, Spirit of life; Not breathing, etc - understanding connection & interactions of fields Soul with Spirit, heart, how creates life; Tell Aliens - love them - respond; Prophets taught; Spirit controls Energy from environment - connection to STM; STM keeps STP at distance - determines manifestation; Change heart position - changes height; Find position of STM; Create twins - same M fields - teach secret; Feed by distance & rhythm of heart; Man chose to create mouth - not Creator; Train yourself to receive fields without breathing, drinking, eating - practice; By purity of not killing - meet Creator; Creator doesn't eat; Eating & breathing - addiction; Plasma T & Game; One feeding lasts thousands, travel U - M fields; Connect Soul to heartbeat, without breathing - no hunger; Heartbeat, pulse, current, neural system, motion of heart - creation of pulse - receive UE; Create heartbeat & pulse through emotion; Ancestors knew - left planet in masses; First person learns - others follow; Pushed themselves through hardship - achieved transmutation; Travel by need & wishes of STM; Teach yourself; Emotions part of fields of Creator as M fields; KF Store of Enlightenment Game open - register can buy and sell goods - KC; Establish trusting community - One Nation; Gift of 10 KC - donate part to others - spread quickly; Gift of 10 KC, to develop Game find bugs; Give 90% of gift to others; Game button 'Trezor' - Space Port to donate; Resolve legal matters before releasing KC; Governments not happy; Legal structure to safeguard; Devils of Finance - upset KF changing value of work - can't enslave; Don't use money in U - dogs don't pay - why Man; Banking system - abusing Mankind thousands years; Discussion Enlightenment Game - how it works; Eckmar creator of Game, explains; Plasma Cup - like soccer - collect items - play in teams; Winner gets 66% of prize - second winner 34% - everyone valued; Goal to collaborate; No fighting killing in Game; Prize - plasma,

CTTC; Friday meeting explain Game; Software & hardware wallets, etc; White Light blesses country - opposite to Black Hole; Read Game Blog, 11 languages; Frequently asked questions; Pay with KC in Shops setup by KS; Buyer receives goods money released to seller - 2% to Game; Open claim for dispute; Separate life cycles of humans on planet, evolve in groups; Earth - greenhouse for Souls, when mature leave to seed U - not stay on Earth; When one cycle finishes - period of nothing - new cycle starts; Life continuously evolves and creates new generations; Our generation problem of killing - being solved; Earth planned; Explains what's going to happen to human race; One Soul matures, others follow; Today's knowledge survive in U; Uprooted Rothschild's & Illuminati's - try to stop KF; Create shield around body; 666 KSW draw a line; Have to understand how it works - only one way to do it; Follow rules of Creation, connect to your rhythm - use emotion connect STM & STP; Create any taste - right rhythm; Have to find own way to Fields; You decide what limit; Not a religious cult - scientific organization - understand physiology - how responds to conditions of planet; Already tried to change every Soul - went back to killing; Now permanent fix; For sure future generations will not kill; U always needs to create conditions for manifestation of Creation; I made Man to make children that they may love Me - doubts about Man; Today's another fundamental teaching - for transmutation and not eating.

ENGLISH TRANSCRIPTION

(:15)

K- Thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute. (:16)

As we listened to the last week teaching and the Intro and the weeks before, it brings us to a fundamental question. And that fundamental question is, How can we train? How can we adapt? How can we progress towards a point, that we create the seed of the need, according to the need, in the operation of the Soul of the Man (STM), that in how the body absorbs 80% will create the condition for other 20%, that Man does not need to kill for? What does this mean? We eat the grain of rice. This grain of rice, going through our stomach, does actually what all of you Knowledge Seekers do. You think as you've been trained as, you've been taught as, the stomach is acidic and then it burns and it destroys and breaks up. And then the food goes in your intestines and get digested. Ask yourself one question. Have you been taught the right way? Have you been educated? (:18) Or Man, just because he saw acid burn the metal, came out with another fallacy that the stomach is acidic and we developed all technologies to show about it.

And you as Knowledge Seekers (KS) do the same. You get the copper, you put acid on it. You create one of the highest alkaline levels, and you Nano coat it. And this is exactly what you do. You chew your food to the smallest part. You send it into your stomach and it doesn't come in touch with an acid. You come out with such a high alkaline that does exactly what you do in your Nano coating systems. Every small particle, due to high acidity on the verge of acidic, in alkaline condition, gets Nano coated. Now it becomes

exactly what you do. When it's fully Nano coated, it's ready to give, do what it needs, enters another salty condition. You do, in your Nano coat, you put your plate into salt water and you produce Gans's. And then, if you create the right condition of the Gans, you use it for energy, you use it for pain and the rest of it, you transfer the energy into the body. (:20) So your body, actually your intestine creates a second, what we call, alkaline condition, that allows the Gans condition to be produced and then it transfers as a Gans condition energy across the wall of your intestine into the lymph. Now you see how far wrong you've been taught, because they've had everything to convince you that the...

<< break in audio >>

R: We're breaking up there Mr. Keshe, we're missing a few words.

K- ... None of you used any acid. And you transferred the energy. The energy through the lymph, transferred in conjunction with the energies of the STM, through the neural system of the Man, in conjunction with the blood of the Man, to the dimension (D) of your physicality (P). The grain of rice you ate does not go into your heart. The energy which releases in combination of different elements goes into your body. They tell you the rice had this and that vitamin, that mineral and the rest of it. The lymph doesn't know that, it just carries a spectrum of the energy which the rice releases to it. (:22) And that then becomes the seed of the small plasma, which then it ingrains into the system in conjunction with your, what you call, blood to cells of your body, and confirmation of what more needs, the other 80% from the environment.

So in fact, you are dealing with the energy of the magnetic (M) field of the grain of the rice. Now you understood that much. Move the stomach up and work of the stomach to create the alkaline condition, to create the Nano condition, to create the Gans condition in your intestine, to create the magnetic field. Now you know you need, let's say, 0.03 Tesla magnetic field in your body to absorb another 80% from the environment, because it's a very weak one of these fields strength spectrum, to feed yourself. Where do you find a magnetic field? It's within the operation of the STM. You move the operation into the Soul and through the neural system you create the physicality of the Man. So, next time, if you understand how it works, and understand what breathing system gives you the water, what breathing system gives you the vitamin C, what breathing system gives you blah, blah, blah. You tune the understanding when you want to eat, (:24) when you allocate time to eat, to release that energy level from your Soul into the physicality dimension of the body of the Man that it feeds you.

You don't go the whole day around and eat. You allocated, you designated breakfast time, you designated lunch time, you designated break time, you designated dinner time. And if you are English, you have a supper and you have tea. The tea is done in the afternoon and supper is after 7 o'clock. Now, you train yourself the same way. You allocate a time, maybe once a day, once a year, once a thousand years, to release energies, in the sequential way, that, in gradually, in the process of the working of the brain of the Man, releases into the structure of physicality of the Man, that it calls upon the rest of the energy from the Universe (U), to become part of you. You dedicate a time of feasting on the physicality of the creatures of this planet. You dedicate a time to create and release

energy through the vibration of the blood, through the breathing system of what you breathe. Now you don't have even nose to breathe, you don't have the mouth to feed, put that physical body of a lamb in your mouth to dedicate a time to absorb energies, release energies from the environment through the operation of the STM.

You remember, (:26) I've talked about this many times when the Indian guru came and he started playing, he's very respected and the guy bends in front of him to get out of the car that his foot doesn't touch the ground. And I told him, I know you're a cheat. If you can by breathing control the energy which you produce in your lung to live, you can through the operation of the heart and the STM create the same beat, the same energy sequence without opening your mouth, without even taking a breath. There is no oxygen in the Universe for you to breathe. There is no lamb to feed you and as you've seen the creatures of the Universe have no mouth. They don't come here for the cows, they don't attend our parties for the barbecue. You train how that process of the absorbing the energy through the dimension of the blood of the Man to become part of the Man to dimension of physicality of the Man, as we explained before to reverse feed, creating the STM, release the energy that it goes reverse back into the blood of the Man and back into the lymph and send the message outside, I need vitamin C, spectrum energy.

So, if you understood fully the teaching of last week and the week before, now you understand, you do not need, Mankind does not need to kill to eat, Because, the operation of the heart of the Man, which is the Spirit of the Man, which is the dimension of energies of the matter state of the body of the Man, (:28) when interacts with the energy of the Universal level of the Man, can dictate the heartbeat, the energy through the physicality, becomes that 20% trap. That through the operation of the Soul absorbs the other 80. In a way you sit at the table, you control your energy of the heartbeat through your emotion, that allows you to absorb the energy from the Universe, that you get up, you don't feel hungry, you don't feel need to kill. The desire, the addiction, is gone. Because now you use the magnetic field of the Spirit of the Man, dimension of physicality, magnetic field, in conjunction with the STM, which is dimension of energy of totality, connection to the Universe of the higher order to order food.

You hear your heartbeat in your Soul. Use that heartbeat to instruct the Soul, to the heart, to what to order for dinner, from the table of the fields of the Universe, not from the table of the Man, from all created things. It's so simple, that if Man understands this, Man does not cultivate, cultivation for the, to see the beauty of the Creator. Man may look after animals to be able to enjoy their essence of creation as the beauty of the Creator. (:30) This is the reason why those of you who attended the cycle of the (Monthly Flight) sessions we put with the headphones that we fed you, we controlled the whole condition for you to be fed by the Soul we created through the Soul, through the dimension of field to create that condition to tell the Spirit of the Man what to call for. This is how you lost your addictions, because we satisfy the emotion of need to confirm the existence.

Then you understand it's not that easy for Man to deny everything, because it's him who is denying his own existence and connection to the World of the Creation. Why? And what was the reason that Man start eating and killing is beyond the imagination of the

World of the Creation. Next time they show you a picture of Aliens, first thing look to see if he's got a mouth, first thing look to see if it's got a nose, first thing look to see if it's got an ear, where the dimension of the creation has led him to be user of the energies of the Universe, then the energies of life. (:32) If you learn how your heart beat, if you learn how your pulses of what you call, heartbeat, how the condition of the breathing changes the dimension of the emotion, and then through that dictates that the Soul unconditionally feeds the Spirit, not to keep, to confirm me, you kill and I confirm that I get the food from the Universe for you to feed yourself, then Mankind become detached from the dimension of physicality of the existence.

This is the process of the Creation, this is the process of understanding, This is what Mankind cannot comprehend. This is what Mankind has to start to endeavor, to achieve, to understand that as the fields of the Universe, in interaction with the physicality of the Man, led to the creation of the physicality of the Man, he can use the same energy to call upon the Universe to feed it, to look after it, with some little bit more, that does not need to confirm the existence, life, of the Spirit of the Man. In a way, the Spirit of the Man, in conjunction with the STM, working together becomes the twin system, the everlasting Twinity. (:34) And if the Mankind learns to operate between the Soul and the Spirit, as a twin set, Man will create that perfect, what we call, Hydrogen (H). That the third neutron, which keeps it going, will be Soul of the Creator, a perfect atom, a supplier, a controller and a mover. Where the Spirit of the Man becomes that electron which is running around like a rabbit, the STM become that proton which connects and hold on to it, because he understand his rhythm, his strength, and the Soul of the Creator becomes that everlasting supply that is there to feed both to keep the combination of the life.

In a way with the Creator become the perfect atom combination of life in what you call, in the dimension of the matter state of the Man, the Deuterium. There are not other bits to it. And if you understand this, the proton doesn't kill, neutron doesn't kill, electron doesn't kill, they know how to use each other to confirm existence for indefinite life in the environment of the Creator and the Creation. Now you understand, how simple life is. Man in the condition of being as it is, (:36) the STM and the Spirit of the Man and I can do whatever I like, if you understand he is a part of the triad of the connection of the STM, and the Spirit of the Man, and the Soul of the Creator (STC), where he receives that 80% from, then Man understand in between the reaction of the three creates the emotion of the Creation and the Spirit of life.

Now, try to understand, not by breathing and what we call, feeding yourself with different position, try to understand the connection and the interaction of the field of your Soul with the Spirit of the Man which is your heart, to create life. Then you understand, you don't need to kill. If you understand how to change the emotion of the Spirit of the Man, with the emotion of the STM, to create that dimension of the life as he exists, which is Possession and Position. Then Mankind does not need to kill. Mankind does not need to destroy another life and become the passenger of the Universe and become the part of the Universal Community (UC). When you get into the Moon and you see an alien you can shout and howl as much as you like. He will not understand your language and there is no language school to teach. (:38) But if you create the right emotion between the

dimension of the STM and the Spirit of the Man in a way to say, I love you, I'm giving to you, he will respond. Because you have understood that the life in Space is independent of dimension and position in killing something to have as you get ?? it. If Mankind listens to even the teachings of those Prophets you believe in, and understand the condition of how to, you've been told to pray, to believe in, in the instruction of all of them. If you're a Jew, a Muslim, a Christian, and the rest, which is all the same with different marketing, it tells you how to connect your Soul with your Spirit, to be able to live.

The Spirit of the Man is the controller of what he will take from the environment to guarantee his connection to the Soul. And the Soul accommodates through his fields, I keep you at distance as much as I like to confirm how I like to manifest myself in the environment of the Position and the Possession. Move the heart a millimeter away from the Soul and see what the height of the Man changes. Nobody has ever understood where the Soul is, (:40) where on the position of the heart and the Spirit of the Man and if one day Man does a research ?? you know just to pinpoint the Soul and the Spirit or the center of operation of the fields of the heart of the Man, you will see that micro, micro level, can create similarity, twins. Why do you become twins? Why you see people exactly the same features? Because the position of the Soul and the Spirit in the conformation of magnetic field is exactly the same. And if you create and interact with the Soul of the Planet, which is a party to the whole manifestation, then it looks the same.

One day I'll teach you about the secret of the identical twins. Then you will understand why they are identical. Every rubbish in the world of the science of today's genetic hits the wall when you understand the process of the Creation. The position and the field strength of the STM and the Spirit of the Man dictates the manifestation of the physicality of the Man. Then you ask yourself one question. Do you need to eat? Or do you need just to tap to the fields of the Universe in connection between the position and what we call, the distance and the rhythm of the heart of the Man, to feed yourself. "Thy shall not kill." (:42) Why? Because if Man has the knowledge which you just have been told, Man does not need to kill. The Soul would not allow it, in a dimension of physicality, will suffer with it. As I always say, "No fool shoots himself in two foot, goes to run a marathon and win it, because you are in it. You are in it to the ?? hilt.

You're in it because you have chosen to create mouth, you have chosen to have the nose to breathe. It's your choice, not the Creator, because you wanted to taste, to smell, to hear, to confirm your existence. Next time, you see it for the breakfast and lunch and dinner, allocate 10 minutes of your day, is eating from the Universe. And see how you train yourself. How you can do it even without breathing, without drinking, without eating. And then gradually you see, I don't need to. Then test it. How come you make time for eat, but you don't make time to 'meet'? When the Man reaches the purity of not killing, he'll meet his Creator. Is that eat more important than the meet? (:44) To meet, to become in touch with your Creator? Does your Creator eat? Then you become a good food. He is harvesting what He grown.

Then you understand. As part of the process of the teaching, the ?? beat, that it feeds into the dimension of the Spirit of the Man and then satisfy. << break in audio >>

An addiction. Eating is an addiction. Breathing is an addiction. And with the new technology we developed and furthermore we developed to be spread and taught through the Game which we have introduced, you gradually move away from all, all the games of killing, all games of destruction to confirm your existence. Now you understand how we have walked you into this game, the game of stop killing, the game of becoming part of the Universal Community where you have no mouth to kill another one when you see, I wonder how does it taste? As I always say in a very old Hollywood movie, two children sitting on a tree branch, the blondie blue eye says to the black brown eye, "Can I lick you? Do you taste like chocolate?" (:46) Would you like to taste another Alien, and it tastes like a kebab, or it tastes like a burger, and then, "Mmm, it's meat"? When you don't have the mouth to taste, you cannot commit the crime to waste. Waste energy of the Universe in the dimension of the Man's life.

Now you understand, how easy you as men, now have another obligation, to create time to feast on the fields of the Universe, than the life of this planet. Allocate any time, and you find out, "Oh, I haven't eaten for a month, I haven't eaten for a year, I haven't lost any weight, I'm still active and I live life." Because you have tapped, once you tap in the Universal dimension of the fields, in connection between the STM and the Spirit of the Man, that energy waste is so minimal, that it can last for thousands of years, with one tap. The rest is time to enjoy. The beauty of the Creation, to understand different processes, how the fields of the Creator, has led to the dimension of new creation. Then, if you travel the span of Universe, you don't need space and time, because it's the magnetic field, the strength of your Soul, which dictates the Spirit of the life, the dimension of where and how you go, and how fast. (:48)

Next time, you Knowledge Seekers, give it time, to feed yourself, to train yourself, the way you feed yourself 10 minutes on the table, and you spend 2 hours cooking another life to eat it, 10 minutes, how you can connect your Soul to your heartbeat, without the breathing, gradually you'll find out, I don't need to breathe, I don't need to eat, I'm not hungry. I killed my appetite for another being to go through my mouth. And I rejoice for it, than being miserable for it.

Try to understand the teaching of last week. Try to understand the teaching of the week before. Put it together, understand how the heartbeat of the Man, the pulse of the Man, the current, what we call, dimension of the neural system of the Man, and the motion of the heart of the Man, leads to creation of that pulse. That work that allows the Soul to demand the balance from the Universe. Create that heartbeat and the pulse through the emotion of life, then through the life of life on this planet by killing. Allow it, it needs training, it needs time. Your ancestors have done it, and when they did, they left in masses this planet. Many of you talk about the cities which are empty, what happened to the citizens. (:50) They learned the topic, they learned the process. One became wise how to do it, that he can stand hunger and no one died. And all managed to travel through the dimension of need of the STM. The wishes of the STM.

Next time when you see an empty city and they cannot find no bones, and they say they abandoned. Look at their education, look at their need, look at their demand, look at the

way they pushed themselves through hardship. The choice of connection with the Soul and the Soul of Physicality (STP) of the Man, what we call, the Spirit of the Man. And then you'll find out, they are not the citizens of this planet, they have managed to transmute and transfer.

Next time you allocate, I eat seven o'clock my breakfast, one o'clock my lunch, and six o'clock my dinner. I allocate ten o'clock at night, two minutes to feed from the feast of the fields of the Universe. And learn the method, don't give up. And then you find out, becomes five and ten minutes. And next morning, there is no need for food, there is no need to breathe, because you gradually, what you need is there, you absorb from the Universe. Then, in so many ways, the feeder of you, become your proton, become your Creator. That, you as electron absorb, and then itself receives energy, from neutron of the Creation, which is the Creator.

When we talk about the Star Formation, then you have to understand, and I hope you understood, the formation of it. (:52) And what comes out is the emotion of the Man in a dimension of the need that satisfies the life of the ?? tree (three). There is more into life. There is more into the teaching than you understood before. When you have the base of the Star Formation, and the top is the creation of the interaction of the fields of the ?? tree (three), which is the emotion of the Man, then you understand how, as Man, STM, and dimension of physicality of the Man, in connection with the fields of the Creator, has created the emotion of the Man to confirm his existence. Your emotion is in fact, is part of the fields of the Creator, because even the emotion has a dimension of existence, as a magnetic field. I hope I gave you another what I call, push, another rhythm, another what we call, English supper to feed your Soul and not to eat another Soul through the fields of the Universe.

We go for a break and we come back. And I've taught so much to you today, that I'm sure if you understood, you know what you need to do. You were happy with three meals, now you have the fourth, but the fourth one is working. The other three worked on your table. Rick, take us for a break and we come back. (:54)

>> **BREAK** >> 657 KSW August 27th ... (1:00).

K- ... Thank you very much. Announcement we received to announce, we spoke with last week. The Store of the Game is open. You need to register and you can buy and sell your goods in the way you want. Through the Store and as we said, we charge you a little

bit of fees, sooner or later we'll be doing it straight away, to pay for the costs and the background, as part of the, what we call, the Coin. But in essence, the Game is on, and as part of the structure that we have put on, that we can follow the procedure, that part of the life in this world is to be part of the Store, and to be able to, for you as Knowledge Seekers, be able to operate, not just playing a game, as we're building up the security and the structure around the work, we allow you for everyone to play the game, and be part of the, what you call, the process of the... (1:02) just going to a game, the community is getting set up, and you can now go into the game, open your own store, offer your services and sell what you like and buy what you like, and in that process we bring an extension to the, what we call, the world of the enhancement of peace and hopefully we together be able to establish a structure where we live within a community that we can trust each other, and create an environment that we create One Nation in the One Planet and One Race and gradually we see the beginning of the end of other things. Rick I have sent you the link for the Store in the Peace Game and hopefully gradually we start putting even the Keshe Foundation products through the Enhancement Game. And we'll see how the things take shape. And hopefully, we are hoping by this week, the Store and the website of the Keshe Foundation will be back up into the whole operation, that it can back up the process of the work of the Keshe Foundation. So, I've sent you the link on your usual channel, Rick, if you If you pick it up, you can post it. (1:04)

R: We see it there now on the screen.

K- Yeah, it is on the game. So every one of you, on the usual way, I send you the messages. The link for the shop is there. If you go directly to the game, it's no problem. And, you can start playing the game, and start working within a community. You are a doctor, you are a shopkeeper, you are a artisan. You want to offer your services, every single one of you can do. You can make a nice cake, you open a shop and you sell your cake. You get paid in, whatever you call it, and then you can transfer it back into paying and receiving with the Keshe Coin (KC) as it's released. So we are in the next phase of it and hopefully everything will be in hand to support. We're trying to set up a support structure in the background to advise many of you as it was lacking in the system. Hopefully we get somebody to play enough game to understand all of it that you can advise people on a question answer basis live. You know this is a few weeks off but soon later all your questions you just go in live ask a question and somebody in the background will do the hard work, or already knows where your problem is to solve the problem to answer your questions.

This is another step in our work and soon once this is done and the key, what we call, Units, are all in position, we start releasing the Coins across all of you who have registered and ready to use and see how you use it. (1:06) I would like, if it's possible, for all of you who receive the Coins to give, or to donate part of the Coins you receive to the others that they register that they start earning and living out of working and playing the game. Receiving a Coin is not prerequisite to the playing the game, but it's the way that you assign yourself into, that you can have access to and start what we call, the services of the whole being One Planet, One Nation, One Race. As we gradually build it up in the next few weeks and months, it's taken us exactly one year more or less from the

time we put the first Units on for what we call, sale to the delivery. The next batch should be all without a few this week, next week and then this week is nearly finished. Then we go into the next steps and then become independent line that nobody can control and it's in the hand of the people. And this Store is another step in bringing that people start working and companies and the structures nations can deal with each other. If there's any questions we try to answer and we try to have a very short (workshop) time this week.

Q: ... (1:08) There have been many questions among the Knowledge Seekers regarding the gift of 10 Keshe Coins. Could you please clarify whether these are intended for a group of Knowledge Seekers who are collaborating with the Foundation and assisting with the game development tests, or whether they are for everyone who is already registered with the Association?

K- Ooh, it's a combination of... we haven't been choosing. It's just what we have. And the list runs into tens and hundreds. We haven't specifically chosen. Those who registered, those who register when you receive your Coin is part of your, what we call, annual Coins. Those who receive the ten, it's a limited number, a few hundred, it's for testing the system. It's not that we prefer somebody or we love somebody more or we are doing a backhand dealing, it's just that we have a list of people and randomly we have chosen many, many of them are regular Knowledge Seekers, because they use the system they put into operation, we want to see where the pitfalls are. Since we connected the ONN's, we've seen a lot of things which in the background is getting done. There is a lot of work is going on to clarify pieces of the puzzle together. And it's not done as a favoritism. It's done for testing. These are the people randomly which I've chosen, personally some of it. It is when it's put out. We haven't put any Coins out yet because there is some still software things has to be done in the background that is completed. (1:10) And there's some legal matters that's getting completed when they're all done. Those people receive the 10 and that those 10's are for our people to see where the mistakes are. What need to, what troubleshoots for us to correct.

And what I advise, you receive the gift, keep one, give ten, the other nine to the others. And let us see how the expansion, where the problem sits with us, how our service gets attacked, how our service needs to be refined. Don't stick to your ten, I received ten, share the ten, cut it in half. We want to see how our system does. You give one-tenth of one share and share the other 9.9 amongst another 100 people you need, you know, your sisters, your brothers, your colleagues say, "I give you 100 Euro, I give you 1000, you one Coin and you share." And then we have to see how our system copes. And once we are happy and our team is happy with, there is no problem with it, then yes, we release the Coin internationally to everyone. I have a target when it's going to be done, but my target doesn't count, depends how our, what we call, the experts in IT and everything else solve all the problems in the background.

There's huge amount of problem has been solved, we see things every day, something pops out and people want questions. Now we're trying to put a team that can answer your questions. A lot of you can't connect, you see problems, you don't know how to enter the game, what the game does. As I read from our expertise, we have to pay people,

engineers, to play the game, to find the problems in the game. (1:12) Usually these things are given people, experts in the gaming world, to do and they are paid millions of dollars to sit down and find the holes. And now we do it with you Knowledge Seekers. We see the holes needs to be filled in and corrected and in the next few weeks, gradually we come to what we call, the operation. Then you receive the Coins. And don't forget, a gift is to be gifted. Don't take the ten, take point one of it. First break it into one to a friend. Say this is a gift, I give you a thousand Euro. If you're not greedy, share it. And that stays the price. There is no gaining, it's no one is going to speculate, to another hundred thousand and the rest of it.

Any other question?

Q: ... Guillaume has a question about the ?? Trezor (?? Treasure) App in the game, it's used for the space port to donate and so on. Is it, what, is it donated by way of the Trezor App or the Trezor?

K- Yes, that's the way it will be done. This is, we have a small situation, we are waiting for that to be resolved before we release the Coin. It's a legal matter, it's not to do with the game. And then you can use the Trezor to do the, what you call it, gift or receive the Coins with all your accounts. We are waiting for a couple of legal matters. Because if you're talking about many nations on this planet, and a lot of governments are not happy with it. And we even received an email as late as, I think, yesterday, (1:14) if I'm correct, regarding this situation from authorities. So it's not that we are not releasing. We are waiting for structure, legal structure, to be able to safeguard the work. That, you got to understand, this Coin will change a lot of things. No one is paying for it, everybody is receiving it, and then it has a value amongst the people, with integrity. And this is what bothers, what I call, the devils of the finance. This is not what's supposed to be. There has to be those who are, have it, work 8 hours a day to pay us. I don't understand in any race in the Universe, except Mankind, that my work has a value, my energy has a value, and that value allows me to feed my house myself. Even the dogs don't pay to stay alive. Why does the Man, and we've been subjected to this, it amazes me. But we change the process. And this is, it's just a little bit, those who've been using this system of abuse for hundreds ?? and thousands of years. << break in audio >> On the other hand, we have to be correct. << break in audio >>.

Any other question?

R: What about the, there's a new function with teams and there's a Cup to be won and so on in the game. It's like a game within the game, you could say. There's the magnetic and the gravitational teams.

K- Yeah, there's a bunch of guys sitting in there thinking of it. (1:16) You have to keep 1 billion for 9 billion people. ?? ?? I heard you were telling me about the breathing team, so how ?? of ?? breathing.

R: Yeah, maybe I can open up the game briefly, we'll see a couple of those.

K- << break in audio >> that walks away from ??.

R: So, just share here. If you look at the basic game setup. You can see that I expect. And up at the top it says here the Plasma Cup is finished. They had a game. There are enough people to play apparently. The winner is Magnetical. It was 466 to 443. I'm not sure what all that means, but there's a history button about the Plasma Cup history here. There's been three competitions so far, apparently. Magneticals won two and Gravitational won one. Oh, Ekmar is here. He can be much better at explaining to me. Please go ahead, Ekmar.

Ekmar: Hello Mr. Keshe, hello Rick. Hi. This is like a soccer game, right? We play about two times 45 minutes, with a 15 minutes break between it. (1:18) And the whole thing is like you are playing the normal game, you are collecting items. Oh, I have a feedback here. Hello. Okay. So it's just that you, I want to emphasize this collaborative thing in the game. So therefore, it's a teamwork that we do not have winner and loser. We have only winner. Because the numbers we see will add up both teams, add up 10% of the prize pot. And the winner will get 66% of the prize pot. And the second winner will get 34% of the prize pot. So everyone gets something. And during the match you will find additional treasures on the map. So it makes sense to participate because there is no fee. It's free. You can join any team you like and then you play in a team and you try to get a little bit more than the other team. And here right now the Magnetical had a little bit more than the others, so they will get 66 percent of the total and the gravitational team will get only 34 percent. That's it. That's all. So it's just to bring a little bit more action into the game because my 10 year old boy was telling me, "oh papa your game is boring", because he is missing something where he has to perform against another group, (1:20) where he can collaborate with his classmates in a group against another football team where he is in and so on. So therefore I implemented this as a group effort. You cannot win alone, if you don't. At least six persons have to join the Plasma Cup, otherwise it will be cancelled. So at least three people on each team have to play together so that it can happen. But there is no upper limit. You can play 100 against 99 or 100 against 101. Everything is possible.

The point is, at the beginning we have seen, at the first game we played, that the people, because you have 30 minutes to register for the game, and the people were waiting until the last five minutes and then everyone joined the bigger team because it was more likely to win. So that shows again the greed of the Man. So therefore we forced now a little bit more fairness into that. So you can choose or join only the weaker team or when they are equal you can have the option which one you want to join. But if there is ten in one team and on the other is nine you need to join the team with nine players to bring a balance to it.

R: Is it like a soccer game format or something?

Ekmar: Yeah similar, similar. But we are not talking about soccer or football you have to kick and make a goal, (1:22) you have to collect items yeah everything counts the

treasure chest, secret holes, an energy drink, everything adds to the part to the numbers you have seen there 466 and 443.

R: From a certain time frame basically.

Ekmar: You've got 2 times 45 minutes. 2 times 45 minutes with a 15 minute break between. So if you need to go to the toilet or comfort room or whatever and you have a coffee, you have a break between and then the second half will start and the only purpose is to collect items. You will do that anyway in the game, right? But now you're in a group.

R: So the items, do they go to your personal inventory or are they collected as a group and distributed some way?

Ekmar: No, you get everything in your personal inventory, like you play normally the game.

R: Right, so what is it that the winning and so-called losing, the winning and less winning teams, what do they get as part of the prize or whatever? What's the...

Ekmar: You get on top, on top you will get the plasma or the connection to the Creator of CTTC where you are able to raise a personal question every Friday at 7 UTC. We meet in a Zoom meeting where I will explain about 45 minutes what is new in the game, what has introduced the last week and then there is this 15 minutes question for the winner of the CTTC contest of this week. (1:24) You can see it in the leader board as well. So anyway, this person can have a special question and after that, that's similar with this teaching here, there's a second half where we help each other. So users which are a little bit more advanced answer question or beginner questions from users which just have started with the game, because it is a little bit different than other browser games, right? Normally you have to pay to play a game and here this game you can earn money with it. So it is a totally different concept. And normally there is some kind of fighting and competition involved in the usual browser games, and it's totally different here. The key here is collaboration. There is no fighting, no killing involved at all in the total game. So again, there is no loser. The second winner will get 35 percent of the pot, which was collected during these two times 45 minutes. So it is in the interest of everyone to collect as much as possible because from the sum everyone gets a share according to his contribution.

Q: ... Please explain how a country pays together for the spaceport?

Ekmar: Well this is on the left side slider you have to open it then you click on the blue open button for the spaceport and there you can donate. (1:26) So you see it will cost the building will cost in this country 1000 PCCs and you whatever you have you can say, okay, I spent five PCCs and press the donate button then it will go from will be deducted from your software wallet. If you have a hardware wallet like a treasure then you can press the Treasure button and then the private key is extracted from this Treasure and you can pay from your hardware wallet. When you look into your settings, you always have

two wallets. A software wallet, that is the blue one, the donate button, and the hardware wallet, which is the orange one. So from which bank account or from which wallet you want to donate? No, 0.1 is not possible. You have to, minimum is one. So you have to spend one PCC. Donate, just press donate.

R: That says please confirm on Trezor to unlock wallet. Takes me to the Trezor website and has me, wants me to sign up for Trezor and so on.

Ekmar: That means you have in settings, set up a second software wallet as a hardware wallet. Look in your settings account there is something wrong.

R: I have to get rid of it somehow.

Ekmar: Yeah you are paying from the wrong wallet you try to pay from a hardware wallet but you entered there a key from a software wallet that will mix up the buttons there. If you have done it the right way, two accounts, two buttons, it will work. (1:28) It works for about 95% and about 5% of the players have the same problem like you. Maybe we can fix a few of them tomorrow.

R: It worked for a couple of weeks or so for me and it's defaulted back to this recently. I'll try to sort that out, but, yeah, that's something I'll have to address.

Ekmar: Join tomorrow seven o'clock UTC if you have time.

Q: ... What is the white circle pulse pulsing with rings?

Ekmar: That's the white light. Once a day a country is blessed with the white light in opposite from the Black Hole. There is also a Black Hole once a day which will destroy the colors of the country. And here the white light is when you visit a country. You get normally one color token per visit, and when there is a white light in the country and you visit that country it will double your tokens you will receive at every visit during the time. It is there for about four hours. So you can visit Zambia right now. Zambia, yes, it's in Zambia. And you will get two color tokens every time when you go there. So you go in, you go out, you go in again, get another two, you go out, you go in, you get another two, so that will give you more color tokens, (1:30) which you later can exchange for plasma or for other things in the inventory. You have options to use it for other purposes.

And in addition to that, when the white light will disappear, it's close to zero, the countdown time is close to zero, you should stay in that circle, in that white light, because it will give you also plasma and fragments for this level up feature for the amulet which we have. But a very, very good recommendation is that you look into the Blog, because there are a lot of Blog posts in 11 languages available. I'm writing now every ?? Blog in 11 languages, which we now support. When you go under settings, you will see that even within the game, the buttons you see right now in English, they can be changed to 11 languages, which will cover about 5 billion people on this planet, which are speaking these major 11 languages we are right now supporting. So when you go to the normal

Blog, you will be able to read every Blog post in 11 languages. (1:32) So maybe I copy the link in the chat, but everybody should know it already getplasma.org/blog. There you should read a little bit because there's a lot of information there, and when I see some questions I ask myself why they don't not, do not read the Blog. It's the information is there, it's written there. You can read it there, 24-7, why you are not doing it?

R: That's a good suggestion.

K- I think we have to establish somewhere that the answer and questions are kept, people can go on it and it's categorized. I think it will take a few weeks or whatever for frequently asked questions and it's categorized about which came where. You can ask the team to build such a thing for the game.

Ekmar: A lot of things have to do, have to be done, Mr. Keshe, a lot of things. You will be surprised on Sunday. We will have our own plasma reactor starting next Sunday. Then we can try to merge and work with different colors or strengths of plasma to find new elements or different plasma strengths. So it's in 3D. I'm just working on it and it's in a very early Beta stage right now. (1:34) But I think on Sunday we will be able to release it. So there will be a research center in a very big Asian country. When you click on this research center, you will be able to play around with different colors, forms of plasmas, and strengths. A lot of things are coming within the next week. So I understand that there is the need of more explanations and documentation. But I do what I can, right? I have written about roughly 20 posts in English, translated that in 11 languages. So we are talking here about almost 220, 230 blog posts. I have written and I see how often they are read. So the people are not reading them. So what should I do Mr. Keshe? I cannot offer more than spending time to write the blog post. But it's up to the user or to the player to read them.

K- I think we can ask the team, the IT team, to allocate someone to go through this. As I showed you earlier, specific people, especially to clarify more and more, before we go fully public, that we have a team ready to answer. They played all the games, as you suggested earlier on. They know all the pitfalls. (1:36) Computer game companies spend millions, pay people to play months and months before to find all the problems. And the shortcuts and everything else.

Ekmar: Remember when we started with the game 21st of March, right? We are not even 6 months old and we are now already version 4 and above. So it's amazing how fast that game is developing. And even with the shops, you know, the whole pay system, we do not use a third party. Everything can be paid with Keshe Coin or K Coins later when the legal things are clarified. So there is no human intervention anymore. You can order in the shop, you can pay over the system in a secure way. Because when a buyer is buying something in a shop, the money is not really transferred direct to the shop owner. Because the problem is when the shop owner will not deliver what they send. So the money is received by the server account, where it is sold as an escrow. And only when the buyer is confirming that he has received the goods, then he can release it. Then 98%

is going to the shop owner and 2% is feeding the pot where we are all finding our treasures, where the money is coming from.

K- What happens if people receive the goods and say they haven't? We've seen that happening now in the real world. (1:38) So then... How can we cover the supplier?

Q: The point is, when you have two buttons, to confirm that we have received the goods, or to open a claim. So when you open the claim, some ambassador or some system Admin has to look into the case. Usually you have a proof of when you send a package, a packet, you have a tracking number or something like that. So...

R: They often take a photograph now too, so... That's the new way to do it.

Q: Basically, these are hopefully still the exceptions which are confirming the rule. The rule is there is no human intervention anymore necessary because everything is done by the systems automatically, right. It is sold in an escrow and you are sure that the seller will only get the money if he has delivered the correct goods. To cover the seller, the other side, it is much more harder because you are not present when the goods arrive and he will unpack the package. Of course he can claim, "Oh no, there were only eight items, not ten." So he tried to cheat about eight items. But for that you have the thumbs up. So when you have successfully bought something in a shop, you can leave five thumbs up or only one or whatever you judge the performance of the Web shop. (1:40) And even you have a small field for comments where you can say hey the package was arriving broken and it was not very well packed, or whatever issue you had you can write it and it will be public for the others. Maybe it will not help you, but maybe it will help the next one.

K- I can see it's a long way to go yet, a very long way to go yet, but at least we started it. Thank you very much for everything Eckmar, for all your hard work and the sleepless nights. If there's no other question?

R: I know you wanted to wrap things up early today. There's a couple of questions, can you take more, or would you like to...

K- Yeah, yeah.

Q: ... In the 656 Knowledge Seekers Workshop, it was stated that Humanity has already gone through this cycle many times, and that we have played this, quote, "game of chess" often. At the same time, it was explained that Man must learn not to carry the act of killing with him, wherever he lives in the Universe, and that Humanity is meant to become a traveler of the Universe. My question therefore is this, does this playing multiple times refer only to various past civilizations on Earth? (1:42) Or does it mean that the same Souls or humanity itself have actually undergone several attempts at development in order to reach the next step? And if there were indeed multiple attempts, why is humanity repeatedly given a new opportunity? From the perspective of creation, is there an unlimited time frame for learning? Or is there a specific point in time by which humanity must have achieved this developmental step? Specifically, the end of killing?

K- There is a cycle. In two ways you can answer this question. This planet has characteristics to create life. Its diversity of its environment, and rotation and the position of itself in respect to its star, at this moment of time, has allowed what I call, a 'school of graduation.' It's like you have year 25 which graduates, if you know some of the systems, this class graduates in 2050. (1:44) Next 25 years, they don't call them year of 2026, 2027. In some schools, education system, they say 2050 school, which means this school, this class is graduating in 25 years, or 24 years. And by that time they all reached the same standard, the same knowledge. The human race on this planet, through the cactus of this planet, goes through the system. And interesting enough, repeats itself again. Because the next generation is created from whatever it was.

It's very much like we have a dry, bad river, we've seen it many times. When the rain comes, suddenly the fishes come from underneath and start living, and we see fish in the pond and in the pools. The cycle of life on this planet has been that races start. They need to regenerate, they eat, they kill, they educate, they mature, and the cycle finishes. All part of this tribe will go through that part, and the others will carry on to the others till mature. This cycle of Man is going through that cycle of maturity, but in another way, in a very, very mature way. So, we see our historians, we see our scientists, we see many, many, what we call, data's, especially nowadays, it's confirming to us that generations before have already achieved what Man is (has). (1:46) And we find new systems, we find new machinery that we say Man is developed now, but 10,000 years ago, 100,000 years ago, somebody made it. And this is the process we see on this planet. It's like the seeding grows, goes to harvest, and then the next cycle. And we are in that process. Life continuously evolves on this planet and creates new generations.

And this generation that we see (our generation) is one of the most successful ones. In diversifying in different ways of living and understanding. But this has created another dimension of life problem, which is this killing process. Because this planet is a greenhouse of Souls. It has no other purpose. Was not created accidentally, is created purposely. It's an outcome of a set. It's a 'chess game' which you know if you play chess game certain moves gives given result. And the creation of life on Earth, Venus before, Mars after, is the same. But different field strength, different combination of the fields.

So when you talk about the life, this is this cycle of life, (1:48) because we know maybe 10-20,000 years ago, there were races of creatures on this planet which reached the maturity, but they diversified to non-existence of the matter state, which means they stopped killing and stopped consuming, and they, what you call it, matured to understand the process of how to transmute. This is not the first time Man is taught to transmute. But this time, even if we get all the men of this planet through transmutation and whatever, in coming time, due to structure of this planet, new cycle of life will start. The new cycle of life, which ?? leads to creation of another race of being with intelligence, will start. It's a characteristic of this planet, it cannot stop the process. It's just being there, when they make mistake, you know, to correct it. And this is the time when it needs correction.

And this is why it's like you are watched, as you call it, and they say, "This classroom needs a new teacher, needs a teacher to teach them to mature them." And that's all it is. Once Mankind matures, automatically, systematically, they all go. So, let me explain to you exactly what's going to happen to human race. Precisely, exactly what's going to happen to this race of Man. This cycle of race of Man will carry on with its misconducts, the suffering, the pain, and everything else. Till one of you, (1:50) and then a collection of you, learns only what I taught today. No more. That shows that no Man needs to beg, no Man needs to die from hunger, no Man needs to, and they teach very rapidly, and the others learn very rapidly. And in that process I am not the king, I am not the president, because I give you something, I have what I want, I survive, I enjoy the life, and I become passenger of the Universe. And in that position, there is no kingship, there is no leadership, because every Soul leaves this planet.

This will happen, when it happens, when Man matures, happens in a very short time. It's like when you learn a cheat in the game, you all play the game and you all cheat, but this time the Soul learn how to do the, what I just taught today, to feed themselves without. Then, this planet has no reason to hold on to its citizens. Then you have a beautiful planet, full of all these buildings, for hundreds of thousands of years, no creatures, back to dust. And according to what we know from the world of science, more particles of the Universe will rain on this planet, and it becomes matter state, and covered, and in 100 years, 100 million years, in 50,000 years, another race will mature. And then, with it, they come and dig and say, "Oh look, this race was here, they knew how to make concrete, they knew how to make computers." (1:52) And this cycle is about, about the same. And fortunately, Earth is not the only planet like this, in the Universe. Earth is not the only planet which creates seed of the Soul, creation of the absorption of the Rays of the Creator. That's all your purpose is. That's why life is created in the Universe. To create the seed, that in interaction in the fields of the Creator, according to the time, place and position, leads to manifestation of His beauty. The rest of it is all hullabaloo.

So, in 10,000 years, in next 10 years, 5 years, the process of the teaching which we have put in, it has alarmed many Nations. The European governments are literally running around how to control Keshe Foundation. Today, as we speak. There is a huge problem, that with what has happened, the way it's happened, to control this, because we lose control. You have no control. We don't ask any of you to come and sit here and pay to listen. You're not going to pay classes. And this has created massive problem in the European Common Market. EU, many, many forces, many governments in EU, are collaborating day and night, how to stop the Keshe Foundation. In every way, every means. Because those, what I call, colonialism time, control time is gone. With the Coins, with the ONN, you have uprooted Rothschild family business, Illuminati's. (1:54) They, what they created Man to kill for them to become richer to control has no more meaning. I can give you name and places, Rothschild family is up in arms to stop the Keshe Foundation. With every power they have in every corridors of power in this continent and beyond.

Because what you learn today? Practice, just practice. You'll find peace, you'll find energy, you'll find joy, and you don't need no shirt to wear, because then you learn how

to protect yourself. You need no food to pay for, you need no shelter, because you know how to do it, you've learned, and you have never been hungry. Does any government, does government exist, if the citizens are not tax payers? And when you do that, you learn, you go to the next steps of total freedom, you become part of what I call, Travelers of the Universe. There is no taxes, total tax free, there is no water charges, there is no electricity charges on the Moon, or on the Mars, or in another planet. Would you like to stay here and suffer? Or once?

Many of you that, I told you by 666, we'll draw a line. And the governments know what the line is. You already today received the biggest gift, one of the biggest gifts. (1:56) Next time, when you sit on the table of food, to consume another body, be it the lamb or the grain of the rice, make time to see how you can connect your Soul and the Spirit together, in the rhythm of the heart, slowly by breathing, slowly by understanding, the use of the connection of the lymph to the body of the Man, to connect the both STM and the Spirit of the Man together, and see if you feel hungry for let's say a month, two months. Then you see how joyful you are. And then you see how worthy you are. Nobody doesn't touch you, because unknowingly, you're shielded by your own energy, because of your own ?? energy.

And then, again, it won't happen tomorrow. It needs understanding. It doesn't need clarity. You have to understand the process how it works. There is only one way to make the French rise the French way. There's not thousands of ways. Specific cut, specific way, specific temperature. That's you. You make that choice you put on the table. You follow the rules. Now follow the rules of the Creation, your rhythm. You have enough knowledge and see if you prefer the taste of the Chips, or the taste of the chips you made through the emotion and connection between Soul and STP. Change the chips to a lamb, change the chips to a pork chop. Would you like that pork on the table or you've learned the rhythm. I'll teach you a trick very soon how to do it. I teach you a trick that it shocks you how you beat the system. (1:58) And you'll see. You are not the first generation. You will not be the last generation of this planet. Once this classroom clears up, it takes a few million years, this planet recreates another cycle of life. It's a ?? breeding place, for creation of life.

Any other question?

Q: ... Without eating, without killing, one experiences a profound emotion of love, namely bliss. It is like being ignited in every moment. Everything shifts within the solar plexus. Is this the state necessary for transmutation? While experiencing this through breathing, I lost control of my breath, sinking deeper and deeper into love, like a kind of madness. Must we surrender ourselves to the fields that are created? Are they what transmute us?

K- That's up to you. It's totally up to a person to what limit want to do it. We are not a religious cult, we are a scientific structure. And what we understand how the physiology of the Man responds to the condition of this planet. And how we understand our connection. (2:00) As I said very recently to a Knowledge Seeker, I still run around like

18, 20 hours a day, trying to create a condition that the Man will detach himself from physicality, but still create physicality for them to be able to see how to detach. It's a crazy life. They tell me, why don't you do that with every Soul? It's been done before, but the Man goes killing. There is a problem That by the end of the time we finish with this race, we change the condition of this planet, that the next generation shall not be killing. That's for sure. There is a need, this is the last generation, last cycle of life on this planet, which consumes physicality. And the things for it is set, it's getting set, that we compensate in a way for what this planet is short of, permanently, to be replaced by generations to come, millions of years, this planet will not create another cycle, we shall kill.

It's an interesting cycle, it's an interesting experiment, but it's a very way, the only way which needs to be done, to compensate for the damages. There's just little damage. This planet is very beautiful, it's a source of life, but doesn't provide that bit that forces to consume. It needs to consume fields of the Universe, not the physicality of this planet. And there's a very real reason for it. Universe always needs to create condition of the manifestation of Creation. As was said by one of the Prophet, "I made Man to make children that they may love me." (2:02) So, even there, he says, "He may love me." So, he even has doubts in the race of the Man. That somewhere they might flaw.

Thank you very much for today. And hopefully, we'll see you next week. And we try to achieve more, to understand more. But I think, teaching of today is one of those, again, fundamental teachings. If you understand, gradually you know how to transmute, and gradually you know how to, what you call, create a condition of not eating. But you have to make a table of food of Universe, and not the table of food of Man. Thank you very much for today and we'll see you next week.

R: ... (2:04) << Message from Universal Council: >> ... "And the wish my dear beautiful Souls, beautiful, beautiful Souls. We, the Universal Council, invite the Keshe and the Universal Family present on Earth in unifying at the Soul level every time, every day at 9pm CET or CEST. We, the Universal Council, invite all of humanity to elevate the Soul of every leader in every nation to work as one Soul in one direction to achieve peace as One Nation, One Planet, One Race for justice and world peace. Thank you. We are present and our wish is our command. Thank you so, so much, (2:06) and thank you, gratitude from the core of my heart beautiful Souls for being here always. Salaam, Namaste, Salute."

657 KSW – August 27th, 2026

End
